Topi Shukla-Rāhī Māsūma Razā 2005 Set in Aligarh in the early 1960s, after the dust of Partition has ostensibly settled, Topi Shukla is an intriguing story of two friends-one Hindu and the other Muslim. Through the characters of people like Topi and Iffan, the novel looks at the lives of ordinary people trying to survive in a society that insists on a brutal conformity of behaviour. It is about individuals whose spirits are paralysed because they cannot conform, and about history's inability to teach mankind any worthwhile lessons. Language plays an important part in this narrative, operating almost as a character in its own right. Topi, as a Hindi bull in the Urdu china shop, invokes the historical stand-off between the two languages. The novel also explores the culture and psyche of Uttar Pradesh with its very Muslim Aligarh, its very Hindu Benares, and their exotic confluence in Lucknow. Although it is set in India in the 1960s, the communal tensions and issues portrayed in the novel make it just as relevant to the troubled times we face today. This fascinating novel will be of tremendous interest to the general reader, as well as to students of literature in translation, partition fiction, and social history. The novel's engagement with intertextuality and metafiction will add to its interest for readers keen on literary theory.

Indian Military Thought KURUKSHETRA to KARGIL and Future Perspectives-Brig K Kuldip Singh 2013-10-28 The title aspires to present a panorama of India's yet to be fully discovered martial heritage, denoted by its unconquerable ancient epoch, a critique of the generally misread medieval age vicissitudes, followed by a survey of the contemporary & post-independence travails and triumphs. Not a historical narrative, it attempts to define what constitutes India's natural-born military mind, how it evolved and breasted the world-conquering armies, followed by critical glimpses of the past ordeals, besides its uncelebrated defiance & conquests. The venture culminates in defining the nation's prospective defence and development policy imperatives, for its emerging global role. It is rare in providing in one volume India's scintillating perspective of the past, present and the future. The ardent quest, spanning over twelve years, is a reflective blend of a review of the Vedas, the Epics, relevant Shastras & other select material of help, with the author's long years of rich military operational, planning and instructional experience. Poring over its pages answers many elemental questions, coming naturally to a lay reader, student, research scholar, man-at-arm, defence analyst and the policy maker. The thesis fills a gap by covering a wide range of archeological, historical, politico-military, socio-cultural and strategic and warfare issues, besides dispelling certain myths, which tend to demean India's way of life and war fighting. The scrutiny of the post-independence wars comes to several untold finds. An exclusive study on 'what motivates men in combat' gives the subject an added depth. A lucid account of the nuances of the vital subject, bolstered by an unflagging perceptive probe, makes it an absorbing study.
