Preserving New York-Anthony Wood 2013-10-28 Preserving New York is the largely unknown inspiring story of the origins of New York City's nationally acclaimed landmarks law. The decades of struggle behind the law, its intellectual origins, the men and women who fought for it, the forces that shaped it, and the buildings lost and saved on the way to its ultimate passage, span from 1913 to 1965. Intended for the interested public as well as students of New York City history, architecture, and preservation itself, over 100 illustrations help reveal a history richer and more complex than the

accepted myth that the landmarks law sprang from the wreckage of the great Pennsylvania Station. Images include those by noted historic photographers as well as those from newspaper accounts of the time. Forgotten civic leaders such as Albert S. Bard and lost buildings including the Brokaw Mansions, are unveiled in an extensively researched narrative bringing this essential episode in New York's history to future generations tasked with protecting the city's landmarks. For the first time, the story of how New York won the right to protect its treasured buildings, neighborhoods and special places is brought together to enjoy, inform, and inspire all who love New York.

Rantoul and Chanute Air Force Base-Mark D. Hanson 2011-04-18

Rantoul and the former Chanute Air Force Base are inseparably intertwined as primary players in a single historical narrative.

Rantoul was first founded as an agriculturally based community in 1848 near an area known as Mink Grove. The settlement boomed with the coming of the Illinois Central Railroad in 1854; a railroad championed by the town's namesake, Robert Rantoul Jr. Disaster followed in 1899 and again in 1901 with devastating fires. Then, in 1917, a U.S. Army flying field was built on the outskirts of Rantoul. Named after the aviation pioneer Octave Chanute, Chanute Field, later Chanute Air Force Base, became a premier technical training facility. A mutually beneficial relationship quickly developed between these civilian and military establishments that would last for over 75 years. Chanute Air Force Base closed in 1993, ushering in yet another new era for the village of Rantoul.

Solid Waste as a Renewable Resource-Jimmy Alexander Faria Albanese 2015-07-24 This title includes a number of Open Access chapters. The twenty-first century world faces several enormous challenges: how to mitigate climate change, meet a growing energy demand without relying on fossil fuels, and manage the escalating quantities of solid waste generated by cities around the world. This compendium volume offers a viable solution to all three: using solid waste as a renewable resource. Intended for a wide audience ranging from engineers and academics to decision-makers in both the public and private sectors, this volume has gathered together research into a range of technologies and methodologies. The editors, two well-published researchers at the top of their field, have selected articles that lay the foundation for this discussion. They have then included chapters for the following waste management scenarios: anaerobic digestion, composting, pyrolysis and chemical upgrading, incineration and carbonization, and gasification. Research has been included from around the world, representing potential international solutions to what are global challenges, as well as crucial implications for ongoing research in this important field of study.

Mazda Miata MX-5 Performance Projects-Keith Tanner The Mazda Miata MX-5 has been a popular car among automotive enthusiasts for more than a decade, and hardly a single one of the more than 500,000 sold has not been customized by its owner in some way. This book provides specific how-to instructions through approximately 35 projects that include both maintenance and modification procedures. Each project is treated separately, giving readers very specific information about the commitment in time, tools, money, and talent for each project.

Wingfield College and Its Patrons-Peter Bloore 2015 The 650th anniversary of the foundation of Wingfield College was the occasion for a special two-day symposium marking the culmination of a three-year UEA-funded research project into the college and castle. The building projects of the late medieval aristocracy focused on their homes and the monasteries, churches or chantry foundations under their patronage where their family were buried and commemorated. This commemoration allowed a visual celebration of their achievements, status and lineage, the scale and prestige of which reflected on the fortunes of the family as a whole. Wingfield is explored in the context of both the actual building of the castle, chantry chapel and the college, and that of the symbolic function of these as a demonstration of aristocratic status. The contributions to this book examine many topics which have hitherto been neglected, such as the archaeology of the castle, which had never been excavated, the complex history of the college's architecture, and the detailed study of the monuments in the church. The latest techniques are used to reconstruct the college and castle, with a DVD to demonstrate these. And the context of the family and its fortunes are explored in chapters on the place of the de la Poles in fifteenth century history, as soldiers, administrators and potential claimants to the throne.

danger is a sure-fire prescription for amazing sex! When Hannah Campbell attends a memorial service for the neurosurgeon who once saved her life, the last thing she expects is a lightning strike that knocks her out cold and blasts her lungs full of the departed's ashes. Things only get weirder when she wakes up to find the deceased standing over her hospital bed, insisting she help him track down the terrorists who blew up his plane. Professor Takeshi Shimodo doesn't know what to believe when smart-mouthed Hannah appears on his doorstep, claiming to be haunted by the ghost of his best friend. Yet she exhibits some extraordinary psychic abilities. And her determination to find justice for the crash victims, in spite of her fragile health, touches his heart. Takeshi's acupressure techniques are meant to calm Hannah's erratic heartbeat, but the longer they are together, the more his magic fingers have the opposite effect. Soon, their passion flares hotter than any lightning strike. But now the terrorist they seek is hunting them. And the FBI is suspicious Hannah knows just a little too much. Without some "spiritual" help, they haven't a ghost of a chance. Warning, this title contains the following: explicit sex, graphic language and violence.

A Pair of Shootists-Jerry Kuntz 2010 In 1888, Samuel F. Cody, a twenty-one-year-old horse wrangler, met Maud Lee, a sixteen-year-old aspiring circus performer, while touring with the Wild West show cast of Adam Forepaugh's Circus. A quick rapport developed between the girl from Norristown, Pennsylvania, and the cowboy who dazzled audiences with his good looks and fancy pistol shooting. A Pair of Shootists is the exuberant and sometimes heartbreaking story of the elusive S. F. Cody and his first wife, Maud Lee. Recounting their many dramatic exploits, this biography also overturns the frequently romanticized view of Wild West shows. Living the erratic lives of touring performers, S. F. Cody — who changed his name to capitalize on his resemblance to William F. "Buffalo Bill" Cody — and Maud Lee first appeared together in vaudeville halls and dime museums. Setbacks in the United States made Cody and Lee eager to try their luck abroad, so they traveled to Great Britain, where they played music halls and acted in burlesques on roller-skates and in extravagant arena exhibitions.

Downloaded from
jaremicarey.com on

When the two performers eventually parted ways, author Jerry Kuntz masterfully splits their stories into two. From there, he follows their individual ups and downs, including Cody's soaring career in pioneer aeronautics and Lee's decline into mental illness and addiction. In an ironic twist, Maud's professional life ended amidst a vast misunderstanding that brought her into conflict with the woman she had been emulating her entire career: Annie Oakley. While other biographies focus mainly on Cody's contribution to aviation, Kuntz uses sources previously unavailable to scholars to paint a more complete picture of Cody's early years and to recover the forgotten — and ultimately tragic — story of Maud Lee.

The State of Africa 2010/11-Korwa G. Adar 2010 The State of Africa series project was conceived by the Africa Institute of South Africa (AISA) during its 2003--04 financial year for purposes of mapping out on a regular basis critical issue areas relating to intra- and inter-African as well as extra-African relations. The first and second volumes of the series were published in 2004 and 2008 respectively. Volume 1: The State of Africa: Thematic and Factual Review served as an exploratory piece and covered a broad range of issues relating to politics and governance, millennium development goals (MDGs), peace and conflict and regional development. Volume 2: The State of Africa: Post-Conflict Reconstruction and Development focused thematically and examined--from critical and comprehensive perspectives--issues associated with post-conflict in Africa. The volume was grounded on the continent's quest for conflict prevention, management and resolution as a means of creating an enabling environment for the consolidation of democracy and reconstruction of societies affected by crisis in general and war in particular. This volume, Volume 3: Parameters and Legacies of Governance and Issue Areas takes a multi-pronged and multi-faceted approach to some of these issues by providing in-depth analysis of dynamics at national, regional, continental and international levels. The global transformation in the 1980s and 1990s, which witnessed the crumbling of the Soviet Union, the Warsaw Pact and opened a window of opportunities for East--West bipolar rapprochement, particularly between the United States and Russia, also had impact on Africa at the national, regional and continental levels. Focusing on conceptual units, such as the state, indigenous organisations, regional and continental organisations as well as selected priority issues--in particular gender and empowerment, the global South, and space science--the chapters in the book provide useful insights into the nature and impact of the transformation and its impact on the socio-economic and politico-security situation in Africa.
