Principles of Accounting, Chapters 1-14-Paul D. Kimmel 2004-01-23
This book starts with a macro view of accounting information by
presenting real financial statements. The authors establish how
financial statements communicate the financing, operation, and
investing activities of a business. To integrate the use of financial
statements for decision making, the authors identify a finite set of
tools necessary to make business decisions based on financial
information. The Decision Toolkit is provided for the reader and
integrated throughout the text.
