And Then One Day-Naseeruddin Shah 2015-11-10 Naseeruddin Shah's sparkling memoir of his early years, 'from zero to thirty-two', spans his extraordinary journey from a feudal hamlet near Meerut, to Catholic schools in Nainital and Ajmer, and finally to stage and film stardom in Mumbai. Along the way, he recounts his passages through Aligarh University, the National School of Drama and the Film and Television Institute of India, where his luck finally began to change. And Then One Day tells a compelling tale, written with rare honesty and consummate elegance, leavened with tongue-in-cheek humour. There are moving portraits of family members, darkly funny accounts of his schooldays, and vivid cameos of directors and actors he has worked with, among them Ebrahim Alkazi, Shyam Benegal, Girish Karnad, Om Puri and Shabana Azmi. The accounts of his struggle to earn a living through acting, his experiments with the craft, his love affairs, his early marriage, his successes and failures are narrated with remarkable

frankness and objective self-assessment. Brimming with delightful anecdotes as well as poignant, often painful revelations, this book is a tour de force.

The Glass Castle-Jeannette Walls 2006-01-02 Journalist Walls grew up with parents whose ideals and stubborn nonconformity were their curse and their salvation. Rex and Rose Mary and their four children lived like nomads, moving among Southwest desert towns, camping in the mountains. Rex was a charismatic, brilliant man who, when sober, captured his children's imagination, teaching them how to embrace life fearlessly. Rose Mary painted and wrote and couldn't stand the responsibility of providing for her family. When the money ran out, the Walls retreated to the dismal West Virginia mining town Rex had tried to escape. As the dysfunction escalated, the children had to fend for themselves, supporting one another as they found the resources and will to leave home. Yet Walls describes her parents with deep affection in this tale of unconditional love in a family that, despite its profound flaws, gave her the fiery determination to carve out a successful life. -- From publisher description.

One Day in December-Josie Silver 2018 #1 NEW YORK TIMES BESTSELLER \* A Reese Witherspoon x Hello Sunshine Book Club Pick "Get ready to be swept up in a whirlwind romance. It absolutely charmed me."--Reese Witherspoon "Josie Silver writes with a warmth so palpable her characters sneak their way into your heart and stay for a long time."--Jill Santopolo, New York Times-bestselling author of The Light We Lost Two people. Ten chances. One unforgettable love story. Laurie is pretty sure love at first sight doesn't exist anywhere but the movies. But then, through a misted-up bus window one snowy December day, she sees a man who she knows instantly is the one. Their eyes meet, there's a moment of pure magic...and then her bus drives away. Certain they're fated to find each other again, Laurie spends a year scanning every bus stop and cafe in London for him. But she doesn't find him, not when it matters anyway. Instead they "reunite" at a Christmas party, when her best friend Sarah giddily introduces her new boyfriend to Laurie. It's Jack, the man from the bus. It would be. What follows for Laurie, Sarah and Jack is ten years of friendship, heartbreak, missed opportunities, roads not taken, and destinies reconsidered. One Day in December is a joyous, heartwarming and immensely moving love story to escape into and a reminder that fate takes inexplicable turns along the route to happiness.

You're Not Special-Meghan Rienks 2020-05-05 In her first-ever (sort of) memoir, the beloved actor and YouTube sensation gets personal about everything from mental health to drunken debaucheries. As an only child raised in a town of less than 8,000 people and without a Starbucks in sight, Meghan Rienks has always been pretty good at entertaining herself. Then one day—cue the dramatic voiceover—her life changed forever. On June 12th, 2010, Meghan was diagnosed with mononucleosis. Mono is basically just a really bad case of the flu, right? Wrong. To a party crazed sixteen-year-old, mono is social suicide. More than anything, it's just plain boring. So, Meghan opened up her 2009 MacBook, used the webcam for something other than a bad Andy Warhol-style photobooth session, and recorded her first YouTube video. Since then, Meghan has shared the ups and downs of her life with the internet, documenting her teenage years for the whole world to see. Now that she's (mostly) through her awkward stage, Meghan's here to tell you that it gets better. You're not alone in the thoughts you think. Sometimes a bad hair day feels worse than a punch in the gut and asking a boy out seems about as difficult as achieving that perfect dewy glow. But despite what you've been told, your problems are not unique, your struggles have taken form in everybody else's life too, and somebody else has felt the way you feel right at this very moment. You're not special. But you're also not alone on the bumpy road to adulthood.

Satellite Communications Payload and System-Teresa M. Braun 2012-08-06 This is the first book primarily about the satellite payload of satellite communications systems. It represents a unique combination of practical systems engineering and communications theory. It tells about the satellites in geostationary and low-earth orbits today, both the so-called bent-pipe payloads and the processing payloads. The on-orbit environment, mitigated by the spacecraft bus, is described. The payload units (e.g. antennas and amplifiers), as well as payload-integration elements (e.g. waveguide and switches) are discussed in regard to how they work, what they do to the signal, their technology, environment sensitivity, and specifications. At a higher level are discussions on the payload as an entity: architecture including redundancy; specifications--what they mean, how they relate to unit specifications, and how to verify; and specification-compliance analysis ("budgets") with uncertainty. Aspects of probability theory handy for calculating and using uncertainty and variation are presented. The highest-level discussions, on the end-to-end communications system, start with a practical introduction to physical-layer communications theory. Atmospheric effects and interference on the communications link are described. A chapter gives an example of optimizing a multibeam payload via probabilistic analysis. Finally, practical tips on system simulation and emulation are provided. The carrier frequencies treated are 1 GHz and above. Familiarity with Fourier analysis will enhance understanding of some topics. References are provided throughout the book for readers who want to dig deeper. Payload systems engineers, payload proposal writers, satellite-communications systems designers and analysts, and satellite customers will find that the book cuts their learning time. Spacecraft-bus systems engineers, payload unit engineers, and spacecraft operators will gain insight into the overall system. Students in systems engineering, microwave engineering, communications theory, probability theory, and communications simulation and modelling will find examples to supplement theoretical texts.

Working on Earth-Christina Robertson 2015-02-25 This collection of essays examines the relationship between environmental injustice and the exploitation of working-class people. Twelve scholars from the fields of environmental humanities and the humanistic social sciences explore connections between the current and unprecedented rise of environmental degradation, economic inequality, and widespread social injustice in the United States and Canada. The authors challenge prevailing cultural narratives that

separate ecological and human health from the impacts of modern industrial capitalism. Essay themes range from how human survival is linked to nature to how the use and abuse of nature benefit the wealthy elite at the expense of working-class people and the working poor as well as how climate change will affect cultures deeply rooted in the land. Ultimately, Working on Earth calls for a working-class ecology as an integral part of achieving just and sustainable human development.
