Common Sense Training-Lt. Gen. Arthur S. Collins, Jr. 2011-04-06 Leadership is so much a part of the conduct of training that at times it is difficult to tell where one stops and the other starts. . . . "The best book on military training from platoon to division level that has been published in any army."—Army magazine "His message is that whatever works and gets results by the most direct and efficient means is good. All else should be eliminated."—Air University Review "A utilitarian book that talks intelligently of leadership, management and common sense."—ARMOR magazine "A hardhitting and unvarnished . . . authoritative work that should be read and reread by everyone who aspires to be a truly professional soldier."—General Bruce Palmer, U.S. Army (Ret.) "A gem, with few peers, invaluable . . . [Arthur Collins'] advice is always performance oriented. Don't talk so much about it, he says, Don't make so many fancy charts about training. Instead, do it. Teach it. Perform it."—Parameters

Commanding an Air Force Squadron-Col Usaf Timmons, Timothy 2012-08-07 The privilege of commanding an Air Force squadron, despite its heavy responsibilities and unrelenting challenges, represents for many Air Force officers the high point of their careers. It is service as a squadron commander that accords true command authority for the first time. The authority, used consistently and wisely, provides a foundation for command. As with the officer's commission itself, command authority is granted to those who have earned it, both by performance and a revealed capacity for the demands of total responsibility. But once granted, it much be revalidated every day. So as one assumes squadron command, bringing years of experience and proven record to join with this new authority, one might still need a little practical help to success with the tasks of command. This book offers such help. "Commanding an Air Force Squadron" brings unique and welcome material to a subject other books have addressed. It is rich in practical, useful,

down-to-earth advice from officers who have recently experienced squadron command. The author does not quote regulations, parrot doctrine, or paraphrase the abstractions that lace the pages of so many books about leadership. Nor does he puff throughout the manuscript about how he did it. Rather, he presents a digest of practical wisdom based on real-world experience drawn from the reflection of many former commanders from any different types of units. He addresses all Air Force squadron commanders, rated and nonrated, in all sorts of missions worldwide. Please also see a follow up to this book entitled "Commanding an Air Force Squadron in the Twenty-First Century (2003)" by Jeffrey F. Smith, Lieutenant Colonel, USAF.

Close Combat Mission Capability Kit-Department of the Army 2014-05-01 Purpose of Equipment: The CCMCK Weapon Conversion System allows Force-On-Force close combat training by temporarily converting service weapons (M16A2/M16A3/M16A4 Rifles, M4/M4A1 Carbines, M249 Squad Automatic Weapons (SAW), and M9 and M11 Pistols) to fire low-velocity marking ammunition. CCMCK ammunition includes 5.56mm Bulk marking ammunition for the M16A2/M16A3/M16A4 Rifle and M4/M4A1 Carbine, 5.56mm Linked marking ammunition for the M249 SAW, and 9mm marking ammunition for the M9 and M11 Pistols. Marking ammunition, manufactured in red, blue, and yellow, is loaded into the magazine of the converted weapon in the same manner as service ammunition. Once loaded, the weapon cycles and functions the same as service ammunition and marks the target with minimal hazard to personnel wearing appropriate safety equipment. The system allows normal weapon employment cues such as aiming, firing, Force-On-Force training, and interactive live-fire scenario task and mission execution.

Commander in Cheat-Rick Reilly 2019-04-02 NEW YORK TIMES BESTSELLER "Reilly pokes more holes in Trump's claims than there are sand traps on all of his courses combined. It is by turns amusing and alarming." -- The New Yorker "Golf is the spine of this shocking, wildly humorous book, but humanity is its flesh and spirit." -- Chicago Sun-Times "Every one of Trump's most disgusting qualities surfaces in golf." -- The Ringer An outrageous indictment of Donald Trump's appalling behavior when it comes to golf -- on and off the green -- and what it reveals about his character. Donald Trump loves golf. He loves to play it, buy it, build it, and operate it. He owns 14 courses around the world and runs another five, all of which he insists are the best on the planet. He also claims he's a 3 handicap, almost never loses, and has won an astonishing 18 club championships. How much of all that is true? Almost none of it, acclaimed sportswriter Rick Reilly reveals in this unsparing look at Trump in the world of golf. Based on Reilly's own experiences with Trump as well as interviews with over 100 golf pros, amateurs, developers, and caddies, Commander in Cheat is a startling and at times hilarious indictment of Trump and his golf game. You'll learn how Trump cheats (sometimes with the help of his caddies and Secret Service agents), lies about his scores (the "Trump Bump"), tells whoppers about the rank of his courses and their worth (declaring that every one of them is worth \$50 million), and tramples the etiquette of the game (driving on greens doesn't help). Trump doesn't brag so much, though, about the golf contractors he stiffes, the course neighbors he intimidates, or the way his golf decisions wind up infecting his political ones. For Trump, it's always about winning. To do it, he uses the tricks he picked up from the hustlers at the public course where he learned the game as a college kid, and then polished as one of the most bombastic businessmen of our time. As Reilly writes, "Golf is like bicycle shorts. It reveals a lot about a man." Commander in Cheat "paints a side-splitting portrait of a congenital cheater" (Esquire), revealing all kinds of unsightly truths Trump has been hiding.

Sharing success--owning failure : preparing to command in the twenty-first century Air Force- Battle Focused Training (FM 7-1)-Department of the Army 2012-09-30 Battle Focused Training, FM 7-1, is the Army's doctrinal foundation for how to train, and it is applicable to all units and organizations of the Army. It explains how the Army assesses, plans, prepares, and executes training and leader development; it is critical to all the Army does. The goal of this manual is to create leaders who know how to think and apply enduring training principles to their units and organizations. FM 7-0 introduces the training cycle, the linkage of Army training and leader development, and the three domains where training occurs—the operational, institutional, and self-development domains. FM 7-1 defines The Army Training System, outlines who is responsible for training and training support, and describes how to conduct training. This top-to-bottom understanding of training—ranging from policy and resources allocation at Headquarters, Department of the Army to unit and organization methods—is critical to executing training successfully and to linking the three domains where training occurs. The training doctrine in this manual will shape Army training regulations and support unit and organization training plans. The emphasis is on teaching leaders to think through the training process, as opposed to simply following a prescribed method. There is no training model or strategy that can achieve warfighting readiness in a unit without intensive leadership to build both competence and confidence. FM 7-1 builds on task, condition, and standards-based training. Knowing the task, assessing the level of proficiency against the standard, and developing a sustaining or improving training plan is the essence of all Army training and development. But warfighting readiness is about more than just technical competence. It is about developing confidence through trust—soldier-to soldier, leader-to-led, and unit-to-unit—and the will to succeed. It is about leadership. Understanding how to conduct tough, realistic training at every echelon of the Army sets the foundation for successful multi echelon, joint, interagency, and coalition operations. Leaders train the unit and organizational capabilities required to fight and win across the full spectrum of operations. This manual provides leaders with the doctrinal guidelines for how to train, and is the basis for successful training and operations. Soldiers have never let the nation fail—it is essential to train soldiers and units to uphold the Army's nonnegotiable contract with the American people—to fight and win the nation's wars, decisively. Train to Win in a Complex World (FM 7-0)-Headquarters Department Of The Army 2019-07-18 Field Manual FM 7-0 Train to Win in a Complex World October 2016 FM 7-0, Train to Win in a Complex World, expands on the fundamental concepts of the Army's training doctrine introduced in ADRP 7-0. The Army's operations process is the foundation for how leaders conduct unit training. It also places the commander firmly at the center of the process and as the lead of every facet of unit training. FM 7-0 supports the idea that training a unit does not fundamentally differ from preparing a unit for an operation. Reinforcing the concepts, ideas, and terminology of the operations process while training as a unit makes a more seamless transition from training to operations. This publication focuses on training leaders, Soldiers, and Army Civilians as effectively and efficiently as possible given limitations in time and resources.

The authors examine the militaries of China, France, the UK, India, and Israel to (1) identify different approaches to readiness, adaptability, and operational issues and (2) assess the ways in which units are trained both for specific and general deployments and for train, advise, and assist missions.
