Ks3 Science-Richard Parsons 2004 KS3 Science Complete Study & Practice (with online edition)

Access to History: France in Revolution 4th Edition-Duncan Townson 2008-05-30 The Access to History series is the most popular and trusted series for AS and A level history students. The new editions combine all the strengths of this well-loved series with a new design and features that allow all students access to the content and study skills needed to achieve exam success. This is a new edition of 'France in Revolution' and has been fully updated and extended to cover the 2008 AS and A2 specifications for all examination boards. This title charts the long- and short-term causes of the French Revolution, the political, social and economic impact of the Revolution itself and the establishment of the Terror. There is also an additional chapter on Napoleonic rule in France from 1799-1815. Throughout the book, key dates, terms and issues are highlighted, and historical interpretations of key debates are outlined. Summary diagrams are included to consolidate knowledge and understanding of the period, and exam-style questions and tips written by examiners for each examination board provide the opportunity to develop exam skills.

Activate 3 provides plenty of practise at handling data, using maths and extended writing - essential skills for KS4 success.

A Level Biology-Ann Fullick 2013-07

GCSE AQA Science- 2006

Aqa Biology Synoptic Essays-Al Waters 2016-11-15 The only book written for the new (first sitting 2017) AQA Biology exam. This book gives clear, concise and updated advice for every title found in the last 20 years and complete A* essays for 25 of them. On top of this are example paragraphs, key tips and how to organise your essay to get the most marks. This book has evolved over a period of years. I am fortunate to have had a number of truly excellent students (Oxbridge and full UMS). Over the years I have ordered the transcript of all our school's A* papers and collated the essays. Where there were gaps I gave these students the past-paper essay titles and mark schemes and paid them to write 'model essays'. Then, as a trained marker, I edited them all to make sure they were written to an A* standard. A colleague of mine, who has also marked for AQA, then went through them as a third independent determination of their grade. We have used this collection of essays in our school for a number of years with fantastic results. With the advent of the new specification, I have revisited them and made changes to reflect the new content. Topics that are no longer at A-level have been removed and new content added, which has meant a number of particular large changes in the field of Ecology. This has been a surprisingly onerous undertaking, but I am very proud of the result. Someone then suggested to me that I should publish my work and this is the product - an analysis of over 40 titles and 25 A* essays.

Edexcel GCSE (9-1) Psychology Student Book-Christine Brain 2017-05-12 Exam paper covered: Edexcel GCSE (9-1) Psychology First teaching: September 2017 First exams: Summer 2019 Specifically designed to support you with the Edexcel GCSE (9-1) Psychology course and assessments. Provides contemporary and engaging examples that students can relate to such as 'why we forget things' and what can affect our memory'. 'Psychology in Action' features show how theories apply to everyday life. Helps students to build practical skills and apply knowledge with features such as 'Apply It', 'Try It' and 'Develop It'. Includes a dedicated chapter on research methods and provides maths tips throughout. Includes 'preparing for your exams' sections at the end of each topic plus lots of practice and guidance throughout, with a focus on the extended writing questions.

Powerful Ideas of Science and How to Teach Them-Jasper Green 2020-07-19 A bullet dropped and a bullet fired from a gun will reach the ground at the same time. Plants get the majority of their mass from the air around them, not the soil beneath them. A smartphone is made from more elements than you. Every day, science teachers get the opportunity to blow students' minds with counter-intuitive, crazy ideas like these. But getting students to understand and remember the science that explains these observations is complex. To help, this book explores how to plan and teach science lessons so that students and teachers are thinking about the right things - that is, the scientific ideas themselves. It introduces you to 13 powerful ideas of science that have the ability to transform how young people see themselves and the world around them. Each chapter tells the story of one powerful idea and how to teach it alongside examples and non-examples from biology, chemistry and physics to show what great science teaching might look like and why. Drawing on evidence about how students learn from cognitive science and research from science education, the book takes you on a journey of how to plan and teach science lessons so students acquire scientific ideas in meaningful ways. Emphasising the important relationship between curriculum, pedagogy and the subject itself, this exciting book will help

you teach in a way that captivates and motivates students, allowing them to share in the delight and wonder of the explanatory power of science.

How to Revise for 11+-CGP Books 2019

International GCSE Business Studies for Oxford International AQA Examinations-Robert Dransfield 2017-08-24 The only textbook that fully supports the OxfordAQA International GCSE Business specification (9225), for first teaching from September 2017. The clear, up-to-date approach enables students to explore real business issues and apply business concepts and theories in context. Learning objectives and specialist vocabulary are clearly explained throughout, ensuring thorough understanding, particularly if English is not a student's first language. Practice questions ensure students are exam ready and allow them to develop the skills and techniques needed for further study or life in the working world. The online textbook can be accessed on a wide range of devices and the licence is valid until 31st December 2027, for use by one student or teacher. Your first login will be sent to you in the mail on a printed access card.
