Contemporary Papier Mache-Gilat Nadivi 2008-03-01 Over 20 diverse projects are included Contemporary Papier Mache is a colorful collection of papier mache projects by artist and teacher Gilat Nadivi. With an emphasis on recycling everyday items to create one-of-a-kind masterpieces, Nadivi instructs readers on how simple materials, basic techniques, and a healthy measure of imagination can be combined to make a range of distinctive creations. Projects described in the book are diverse; they include human figures engaged in everyday activities, animals that are tall, small and in between, home accessories such as picture frames, bowls and magnets, and more. Recycling is an inherent component of almost all papier mache, and Contemporary Papier Mache really takes this principle to heart. Old wires and hangers act as bases for human figures, empty rolls of tape become fashionable bangles, discarded water bottles are transformed into women's figures. After trying out a few projects in the book, readers will find their eyes open to the artistic potential waiting to be discovered in basements, garages, and recycling boxes. Tools for these projects are minimal, and supplies are easy to find. As for guidance and inspiration, readers will find plenty of both within the pages of Contemporary Papier Mache. The book begins with a chapter on materials that describes the supplies readers will need for the projects. This includes basic materials such as papers, glues, work surfaces and paints, as well as fabrics and other decorative enhancements. It also includes suggestions about items that can be reused (and revived!) through papier mache. The techniques chapter describes various papier mache methods as well as painting and lacquer application.

Song of the Nibelungs- 2006 Publisher Description

Indian Art at Delhi 1903-Sir George Watt 1987 The volume is a unique work of documentation of nineteenth-century Indian craftsmanship. The text is enriched with graphic representation of rare specimens of Indian artistry. Its usefulness as gaze-tteer and an ethnogra-phical dictionary makes it invaluable for the students engaged in research of the history of craft and industry in India. The volume is reprinted with a scholarly intro-duction by Dr. Narayani Gupta after eighty years of its first publication. This was first published as a Catalogue and Guide to the Indian Art Exhibition held at Delhi to coincide with the Durbar of 1902-03. Its importance as a valuable book of reference and as a work of scholarship could hardly be appreciated at that time, though the author could visualize its possible future as a simple and practical account of the note-worthy art industries of India. Here, an attempt is made for the first time to associate Indian art-works in a systematic sequence, under certain classes, divisions and sections. The author's aim has primarily been to afford descriptions by which the articles might be severally identified, rather than to furnish traditions and historic details regarding them.

Blues for New Orleans-Roger D. Abrahams 2010-11-24 In the aftermath of Hurricane Katrina, as the citizens of New Orleans regroup and put down roots elsewhere, many wonder what will become of one of the nation's most complex creole cultures. New Orleans emerged like Atlantis from under the sea, as the city in which some of the most important American vernacular arts took shape. Creativity fostered jazz music, made of old parts and put together in utterly new ways; architecture that commingled Norman rooflines, West African floor plans, and native materials of mud and moss; food that simmered African ingredients in French sauces with Native American delicacies. There is no more powerful celebration of this happy gumbo of life in New Orleans than Mardi Gras. In Carnival, music is celebrated along the city's spiderweb grid of streets, as all classes and cultures gather for a festival that is organized and chaotic, individual and collective, accepted and licentious, sacred and profane. The authors, distinguished writers who have long engaged with pluralized forms of American culture, begin and end in New Orleans—the city that was, the city that is, and the city that will be—but traverse geographically to Mardi Gras in the Louisiana Parishes, the Carnival in the West Indies and beyond, to Rio, Buenos Aires, even Philadelphia and Albany. Mardi Gras, they argue, must be understood in terms of the Black Atlantic complex, demonstrating how the music, dance, and festive displays of Carnival in the Greater Caribbean follow the same patterns of performance through conflict, resistance, as well as open celebration. After the deluge and the finger pointing, how will Carnival be changed? Will the groups decamp to other Gulf Coast or Deep South locations? Or will they use the occasion to return to and express a revival of community life in New Orleans? Two things are certain: Katrina is sure to be satirized as villainess, bimbo, or symbol of mythological flood, and political leaders at all levels will undoubtedly be taken to task. The authors argue that the return of Mardi Gras will be a powerful symbol of the region's return to vitality and its ability to express and celebrate itself.

Papier Mache Design-Monique Robert 2009-11 The typical setup of a papier m[aché instructional book usually involves the step by step construction of a specific subject, resulting in a generically finished product. However, in this book, you pick the subject, and each section will take you through universal steps necessary for the construction of your creation. This book has been written as a reference for the creative, whether you be an aspiring or professional artist. Papier m[ch is an enjoyable, versatile and inexpensive way of creating simple objects right up to elaborate works of art. In the book I show you how to create a "juggling" clown sculpture. For this project I have used traditional and contemporary papier m[ch methods, with the aim to recycle as much household refuse as possible. Most of the materials and equipment I have used are low cost or free and can be found in and around the home. This is a marvelous way to recycle your waste and other useless bits and pieces. The project is illustrated with step-by-step instructions. The clown is constructed using newspaper, bottles, a tin, a jar, foil, paper, cardboard and balls. Other items can also be used or adapted for this. This is primarily an adult craft project, but could be undertaken by older children under supervision. Images are in black and white.
