Born Ready-Dave Ungrady 2011 After the Boston Celtics made University of Maryland basketball star Len Bias the second pick in the 1986 NBA draft on June 17, the player's future lay in front of him like a golden, red carpet leading to a life of good-fortuned fame. The Celtics and others considered him to be the next great basketball star, following Larry Bird and Magic Johnson, at a time when the team returned to league supremacy and Michael Jordan had yet to establish his ultimate greatness. Bias played with a rare mix of athleticism, grace and controlled rage. Off the court, he was humble and personable, shy and at times socially adventurous and daring. But Bias' death from cocaine intoxication two days after the draft altered the state of sports and drugs in a way that lingers today. The player's death was one of the cruelest tragedies in sports in the last quarter century. It still strikes the hearts and minds of many

in a generation that witnessed the uncomfortable and developing synergy of big time sports and drug abuse. I tried to humanize the story by focusing on how lives have been affected by his death and the compelling issues that have arisen from the tragedy. The book provides an underlying message of overcoming tragedy to thrive and, in some cases, just to survive, in life. Bias's death forced American lawmakers to make tough choices about how to best deal with a developing drug crisis, with dubious consequences. It reinforced efforts by those in charge of administering college athletics to alter the way they guided student athletes. And Bias' death drastically changed the destinies of many who were closely connected to the athlete. The book includes interviews with Bias's teammates and close friends; former University of Maryland athletics officials who reflect on the challenging years that followed his death; people who were greatly affected by federal drugs laws; and even a young man who claims to be his son. I talked with his mother as well. As a former University of Maryland athlete (track and field and soccer) and a long-time Washington, D.C.-based journalist, I approached this project with passion and a unique perspective. I reported on Bias' death in 1986 as a community broadcaster while also working at the Washington Post. This is my third book on athletics history at the University of Maryland, where I was a two sport athlete in track and field in soccer. I was captain of the track team in 1979-80. The Algiers Motel Incident-John Hersey 2019-09-10 On the evening of July 25, 1967, on the third night of the 12th Street Riot, Detroit police raided the Algiers Motel. Acting on a report of gunfire, officers rounded up the occupants of the motel's annex—several black men and two white women—and proceeded to beat them and repeatedly threaten to kill them. By the end of the night, three of the men were dead. Three police officers and a private security guard were tried for their deaths; none were convicted. In *The Algiers Motel Incident*, first published in 1968, Pulitzer Prize-winning author John Hersey strings together interviews, police reports, court testimony, and news stories to recount the terrible events of that night. The result is chaotic and sometimes confusing; facts remain elusive. But, Hersey concludes, the truth is clear: three young black men were murdered "for being, all in all, black young men and part of the black rage of the time." With a new foreword by award-winning author Danielle L. McGuire, *The Algiers Motel Incident* is a powerful indictment of racism and the US justice system.

League of Denial-Mark Fainaru-Wada 2014 Draws on interviews, e-mails, and previously undisclosed documents to reveal how the NFL has endeavored to cover up evidence of the connection between football and brain damage for the past two decades.

The Merit Myth-Anthony P. Carnevale 2020-05-26 An eye-opening and timely look at how colleges drive the very inequalities they are meant to remedy, complete with a call—and a vision—for change Colleges fiercely defend America's deeply stratified higher education system, arguing that the most exclusive schools reward the brightest kids who have worked hard to get there. But it doesn't actually work this way. As the recent college-admissions bribery scandal demonstrates, social inequalities and colleges' pursuit of wealth and prestige stack the deck in favor of the children of privilege. For education scholar and critic Anthony P. Carnevale, it's clear that colleges are not the places of aspiration and equal opportunity they claim to be. The Merit Myth calls out our elite colleges for what they are: institutions that pay lip service to social mobility and meritocracy, while offering little of either. Through policies that exacerbate inequality, including generously funding so-called merit-based aid for already-wealthy students rather than expanding opportunity for those who need it most, U.S. universities—the presumed pathway to a better financial future—are woefully complicit in reproducing the racial and class privilege across generations that they pretend to abhor. This timely and incisive book argues for unrigging the game by dramatically reducing the weight of the SAT/ACT; measuring colleges by their outcomes, not their inputs; designing affirmative action plans that take into consideration both race and class; and making 14 the new 12—guaranteeing every American a public K-14 education. The Merit Myth shows the way for higher education to become the beacon of opportunity it was intended to be.

Homegoing-Yaa Gyasi 2016-06-07 Ghana, eighteenth century: two half sisters are born into different villages, each unaware of the other. One will marry an Englishman and lead a life of comfort in the palatial rooms of the Cape Coast Castle. The other will be captured in a raid on her village, imprisoned in the very same castle, and sold into slavery. One of Oprah's Best Books of the Year and a PEN/Hemingway award winner, *Homegoing* follows the parallel paths of these sisters and their descendants through eight generations: from the Gold Coast to the plantations of Mississippi, from the American Civil War to Jazz Age Harlem. Yaa Gyasi's extraordinary novel illuminates slavery's troubled legacy both for those who were taken and those who stayed—and shows how the memory of captivity has been inscribed on the soul of our nation. A New York Times Notable Book

The Fire Is Upon Us-Nicholas Buccola 2020-09 "In February 1965, novelist and 'poet of the Black Freedom Struggle' James Baldwin and political commentator and father of the modern American conservative movement William F. Buckley met in Cambridge Union to face-off in a televised debate. The topic was 'The American Dream is at the expense of the American Negro.' Buccola uses this momentous encounter as a lens through which to deepen our understanding of two of the most important public intellectuals in twentieth century American thought. The book begins by providing intellectual biographies of each debater. As Buckley reflected on the civil rights movement, he did so from the perspective of someone who thought the dominant norms and institutions in the United States were working quite well for most people and that they would eventually work well for African-Americans. From such a perspective, any ideology, personality, or movement that seems to threaten those dominant norms and institutions must be deemed a threat. Baldwin could not bring himself to adopt such a bird's eye point of view. Instead, he focused on the 'inner lives' of those involved on all sides of the struggle. Imagine what it must be like, he told the audience at Cambridge, to have the sense that your country has not 'pledged its allegiance to you?' Buccola weaves the intellectual biographies of these two larger-than-life personalities and their fabled debate with the dramatic history of the civil rights movement that includes a supporting cast of such figures as Robert Kennedy, Martin Luther King Jr., Malcolm X, Lorraine Hansberry, and George Wallace. Buccola shows that the subject of their debate continues to have resonance in our own time as the social mobility of blacks remains limited and racial inequality persists"--

How to Conquer the Ivy League by Someone Who Did-Jude Okonkwo 2017-08-09 Year after year, prospective college applicants hear of the decreasing acceptance rates of elite colleges and the rising competition to get those few seats available. Many students find themselves wondering how to stand out among all these talented applicants. These students tire themselves out, pursuing a million different activities and despair when the college process doesn't seem to reward their struggles. I decided to write this guide the summer before I began my schooling at Harvard in an attempt to help ameliorate some of these concerns and present a focused path through this college journey from a fellow student's perspective. I hope that by applying some of the advice I present these students will have a healthier, more rewarding and successful college admissions experience.

Black Ice-George Robert Fosty 2007 The Colored Hockey League of the Maritimes was formed in 1895 in Halifax, Nova Scotia, Canada. Comprised of the sons and the grandsons of runaway American slaves, the league helped pioneer the sport of ice hockey, changing this winter game from the primitive "gentleman's past-time" of the Nineteenth Century to the to the modern fast moving game of today. In an era when many believed Blacks could not endure cold, possessed ankles too weak to effectively skate, and lacked the intelligence for organized sport, these men defied the established myths. The Colored League was one of the most complex sports organizations ever created and was lead by Baptist ministers and church laymen. Natural leaders and proponents of Black Pride, these men represented a concept in spots never before seen. Their rule book was The Bible. Their game book, the coded words and oral history derived from the experiences of American slavery and the Underground Railroad. Their strategy, the principles and teachings of American Black leader Booker T. Washington (the founder of the Tuskegee Institute) and a believer in the

concept of racial equality through racial separation. Twenty-five years before the Negro Baseball Leagues in the United States, and twenty-two years before the birth of the National Hockey League, the Colored League would emerge as a premier force in Canadian hockey and supply the resilience necessary to preserve a unique culture which exists to this day. Unfortunately their contributions were conveniently ignored, or simply stolen, as White teams and hockey officials, influenced by the Black league, copied elements of the Black style or sought to take self-credit for Black hockey innovations. Seven years of research has gone into this book. This is the first book ever written on the Colored Hockey League of the Maritimes.

Disrupted-Dan Lyons 2016-04-05 An instant New York Times bestseller, Dan Lyons' "hysterical" (Recode) memoir, hailed by the Los Angeles Times as "the best book about Silicon Valley," takes readers inside the maddening world of fad-chasing venture capitalists, sales bros, social climbers, and sociopaths at today's tech startups. For twenty-five years Dan Lyons was a magazine writer at the top of his profession--until one Friday morning when he received a phone call: Poof. His job no longer existed. "I think they just want to hire younger people," his boss at Newsweek told him. Fifty years old and with a wife and two young kids, Dan was, in a word, screwed. Then an idea hit. Dan had long reported on Silicon Valley and the tech explosion. Why not join it? HubSpot, a Boston start-up, was flush with \$100 million in venture capital. They offered Dan a pile of stock options for the vague role of "marketing fellow." What could go wrong? HubSpotters were true believers: They were making the world a better place ... by selling email spam. The office vibe was frat house meets cult compound: The party began at four thirty on Friday and lasted well into the night; "shower pods" became hook-up dens; a push-up club met at noon in the lobby, while nearby, in the "content factory," Nerf gun fights raged. Groups went on "walking meetings," and Dan's absentee boss sent cryptic emails about employees who had "graduated" (read: been fired). In the middle of all this was Dan, exactly twice the age of the average HubSpot employee, and literally old enough to be the father of most of his co-workers, sitting at his desk on his bouncy-ball "chair."
