Professional Results with Canon Vixia Camcorders-Warren Bass 2012 Annotation We're in the midst of a digital media-making revolution--and the Canon Vixia G10 and XA10 camcorders are at the forefront. Blurring the line between "pro-sumer" and professional, the G10 and XA10 are sharper, cleaner, more compact, more portable, and boast more professional features than any prior palm-sized camcorder in their price range. This book is a comprehensive field guide to the concepts, strategies, equipment, and procedures for achieving the best results possible with Canon's top-of-the-line palm-sized camcorders. The guide focuses on the specific features of the Canon Vixia HF G10 and XA10, but users of other camcorders in the Vixia series, the Legria series (shooting PAL), and other camcorders will find a wealth of relevant information. With a high-definition palm-sized camcorder such as the Canon Vixia G10 or XA10, your potential is limited only by your imagination and your resourcefulness.

Oxidative Stress and Chronic Degenerative Diseases-Jose Antonio Morales-Gonzalez 2013-05-22 This work responds to the need to find, in a sole document, the affect of oxidative stress at different levels, as well as treatment with antioxidants to revert and diminish the damage. Oxidative Stress and Chronic Degenerative Diseases - a Role for Antioxidants is written for health professionals by researchers at diverse educative institutions (Mexico, Brazil, USA, Spain, Australia, and Slovenia). I would like to underscore that of the 19 chapters, 14 are by Mexican researchers, which demonstrates the commitment of Mexican institutions to academic life and to the prevention and treatment of chronic degenerative diseases.

Understanding Variable Stars-John R. Percy 2007-05-24 This book was first published in 2007. Variable stars are those that change brightness. Their variability may be due to geometric processes such as rotation, or eclipse by a companion star, or physical processes such as vibration, flares, or cataclysmic explosions. In each case, variable stars provide unique information about the properties of stars, and the processes that go on within them. This book provides a concise overview of variable stars, including a historical perspective, an introduction to stars in general, the techniques for discovering and studying variable stars, and a description of the main types of variable stars. It ends with short reflections about the connection between the study of variable stars, and research, education, amateur astronomy, and public interest in astronomy. This book is intended for anyone with some background knowledge of astronomy, but is especially suitable for undergraduate students and experienced amateur astronomers who can contribute to our understanding of these important stars.

Microsoft Exchange 2000 Infrastructure Design-Kieran McCorry 2001-10-12 Microsoft Exchange 2000 Infrastructure Design explains from a system designer's and administrator's perspective Microsoft's Active Directory and its interaction with Exchange 2000, details issues concerned with migration to Exchange 2000, and outlines the specific technology and design issues relating to connectivity with Exchange 2000. Readers will learn to use these technologies to seamlessly co-exist with their current environment, migrate to a native Exchange 2000 environment, and connect to the Internet as well as to other messaging systems. The book's blend of expert instruction and best practices will help any organization create optimal system designs and configurations to support different technical and business scenarios. McCorry and Livengood are experts in Microsoft technologies from Compaq, the world's leading integrator of Exchange systems. In Microsoft Exchange 2000 Infrastructure Design, they spell out the key technologies, features, and techniques IT professionals must master to build a unified and robust Exchange 2000 messaging service. This book details the framework organizations must put in place to most effectively move to Exchange 2000. Detailed explanations of Active Directory integration with Exchange 2000, migration to Exchange 2000 from another system and Exchange 2000 transport, connectivity, and tools Gives readers the benefit of authors' extensive experience Unique description of the software "plumbing" organizations must master to move to Exchange 2000 Stars and Their Spectra-James B. Kaler 1997-03-27 This unique and informative text describes how stars are classified according to their spectral qualities and temperature. James Kaler explains the alphabet of stellar astronomy, running from cool M stars to hot O stars, and tells the story of their evolution. Before embarking on a voyage of cosmic discovery, the author discusses the fundamental properties of stars, their atomic structure and the formation of spectra. Then, Kaler considers each star type individually and explores its spectra in detail. A review of unusual, hard-to-classify stars, and a discussion of data related to the birth, life and death of stars round out the text. This book is an important resource for all amateur astronomers and students of astronomy. Professionals will find it a refreshing read as well.

From the Sun to the Stars-James B Kaler 2016-08-22 The book begins at the Sun then travels through the solar system to see the stars, how they work, and ultimately what they mean to us. The idea is to provide an integrated view of the galaxy and its contents. Along the way we look at spectra, atmospheric phenomena, gravity and the laws of motion, telescopes and how they work, interstellar gas and dust, star birth and death, and planets orbiting other stars. Most popular books tend to focus on one particular topic. From the Sun to the Stars is one of the few that tells the story of the Sun against the background of other stars and other planets and, for that matter, of stars and other planets against the background of the Sun and solar system. This presents the subject with a breadth that few other books can match.

Dead Is Just a Rumor-Marlene Perez 2010-07-21 As the creepy little town of Nightshade prepares to celebrate its 200th anniversary—on Halloween, of course—many of its paranormal residents are receiving mysterious blackmail letters.

Psychic teen Daisy Giordano and her sisters set out to find out who is behind the threats. But launching an investigation isn't easy for Daisy with her overprotective father watching her every move. Though she's is happy to have him back after the years he spent being held captive by an anti-paranormal group called the Scourge, Dad is having difficult time adjusting to home life—and the fact that his little girl is now a senior in high school. He even disapproves of Daisy's boyfriend, Ryan. Can their relationship take the strain?And Daisy's got even more on her plate: A talented amateur chef, she has won cooking lessons with celebrity chef Circe Silvertongue. After nosing around (with a little help from Circe's pet pig), Daisy begins to suspect the temperamental chef's secrets aren't only in her ingredients. . . .The fourth installment in this favorite series is full of surprises and scares!

An Ice Cold Grave-Charlaine Harris 2007-09-25 The voices of the dead become inescapable clues for lightning-struck sleuth Harper Connelly in this "winning series" (Booklist) of murder—and beyond—from #1 New York Times bestselling author Charlaine Harris... Harper Connelly heads to Doraville, North Carolina to find a missing boy—one of several teenage boys who have disappeared over the last five years. And all of them are calling for Harper. She finds them, buried in the frozen ground. All she wants is to get out of town before she's caught in the media storm—until she herself is attacked and becomes part of the investigation. Soon Harper will learn more than she cared to about the dark mysteries and long-hidden secrets of Doraville—knowledge of the dead that makes her next in line to end up in an ice-cold grave...

Key Lime Pie Murder-Joanne Fluke 2011-01-01 New York Times Bestseller It promises to be a busy week for Hannah Swensen. Not only is she whipping up treats for the chamber of commerce booth at the Tri-County fair, she's also judging the baking contest; acting as a magician's assistant for her business partner's husband; trying to coax Moishe, her previously rapacious feline, to end his hunger strike, and performing her own private carnival act by juggling the demands of her mother and sisters. With so much on her plate, it's no wonder Hannah finds herself on the midway only moments before the fair closes for the night. After hearing a suspicious thump, she goes snooping—only to discover Willa Sunquist, a student teacher and fellow bake contest judge, dead alongside an upended key lime pie. But who would want to kill Willa and why? Now Hannah needs to crank up the heat, hoping that Willa's killer will get rattled and make a mistake. If that happens she intends to be there, even if it means getting on a carnival ride that could very well be her last. . . "Yummy. . .Fluke has developed a charming supporting cast who all feel like friends by the time the murder is solved. The dozens of tempting recipes Fluke includes are an added treat." --Publishers Weekly

Infant Perception and Cognition-Lisa M. Oakes 2011 "Lisa M. Oakes is Professor of Psychology and Faculty Researcher at the Center for Mind and Brain, University of California at Davis. She received her doctorate at the University of Texas at Austin. She was a faculty member in the Department of Psychology at The University of Iowa before joining the faculty at the University of California at Davis. Her work examines many aspects of infant cognition, including categorization, visual short-term memory, and visual perception." "Cara H. Cason is an Assistant Professor in the Department of Psychological and Brain Sciences at the University of Louisville. She received her doctorate at the University of Texas at Austin. Her research focuses on the developmental changes in infant perception and cognition, particularly face processing. In her most recent work she has focused on nonlinear changes in face processing and their relation to the development of motor skills." "Marianella Casasola is an Associate Professor in the Department of Human Development at Cornell University, where she has been teaching since earning her doctorate in Psychology at the University of Texas at Austin. Her research examines aspects of infant spatial cognition, young children's acquisition of spatial language, and the interplay between language and cognition during the first two years of development." "David H. Rakison is an Associate Professor in the Psychology Department at Carnegie Mellon University. He received his doctorate at the University of Sussex and completed a post-doctoral fellowship at the University of Texas at Austin. His research is in the area of infant perception and cognition with a focus on categorization, induction, the development of the animate-inanimate distinction, and mechanisms of cognitive change."--Jacket.

Granatstein, Rudyard Griffiths, Tina Loo, Peter Mansbridge, Ken McGoogan, Christopher Moore, Desmond Morton, Don Newman, Jacques Poitras, Dick Pound and Winona Wheeler.

User's Manual for Rocket Combustor Interactive Design (Roccid) and Analysis Computer Program. Volume 1: User's Manual-National Aeronautics and Space Adm Nasa 2018-11-08 The user's manual for the rocket combustor interactive

design (ROCCID) computer program is presented. The program, written in Fortran 77, provides a standardized methodology using state of the art codes and procedures for the analysis of a liquid rocket engine combustor's steady state combustion performance and combustion stability. The ROCCID is currently capable of analyzing mixed element injector patterns containing impinging like doublet or unlike triplet, showerhead, shear coaxial, and swirl coaxial elements as long as only one element type exists in each injector core, baffle, or barrier zone. Real propellant properties of oxygen, hydrogen, methane, propane, and RP-1 are included in ROCCID. The properties of other propellants can easily be added. The analysis model in ROCCID can account for the influence of acoustic cavities, helmholtz resonators, and radial thrust chamber baffles on combustion stability. ROCCID also contains the logic to interactively create a combustor design which meets input performance and stability goals. A preliminary design results from the application of historical correlations to the input design requirements. The steady state performance and combustion stability of this design is evaluated using the analysis models, and ROCCID guides the user as to the design changes required to satisfy the user's performance and stability goals, including the design of stability aids. Output from ROCCID includes a formatted input file for the standardized JANNAF engine performance prediction procedure. Muss, J. A. and Nguyen, T. V. and Johnson, C. W. Unspecified Center...

Awaken Your Authentic Leadership - Authentic Leadership Conversations for Meaningful Connection-Tana Lee Heminsley 2020-09-14 In her third book in the Awaken Your Authentic Leadership series, Authentic Leadership Conversations for Meaningful Connection, Tana Heminsley, CEO and Founder of Authentic Leadership Global(TM), continues to share groundbreaking insights, and practical tools for leading and living as an authentic and emotionally and socially intelligent leader.
