Midnight Tides-Steven Erikson 2007-08-28 After decades of internecine warfare, the tribes of the Tiste Edur have at last united under the Warlock King of the Hiroth. There is peace—but it has been exacted at a terrible price: a pact made with a hidden power whose motives are at best suspect, at worst, deadly. To the south, the expansionist kingdom of Lether, eager to fulfill its long-prophesized renaissance as an Empire reborn, has enslaved all its less-civilized neighbors with rapacious hunger. All, that is, save one—the Tiste Edur. And it must be only a matter of time before they too fall—either beneath the suffocating weight

of gold, or by slaughter at the edge of a sword. Or so destiny has decreed. Yet as the two sides gather for a pivotal treaty neither truly wants, ancient forces are awakening. For the impending struggle between these two peoples is but a pale reflection of a far more profound, primal battle--a confrontation with the still-raw wound of an old betrayal and the craving for revenge at its seething heart. Race and Sport-Charles K. Ross 2004 sports african american studies Even before the desegregation of the military and public education and before blacks had full legal access to voting, racial barriers had begun to fall in American sports. This collection of essays shows that for many African Americans it was the world of athletics that first opened an avenue to equality and democratic involvement. Race and Sport showcases African Americans as key figures making football, baseball, basketball, and boxing

internationally popular, though inequalities still exist today. Among the early notables discussed is Fritz Pollard, an African American who played professional football before the National Football League established a controversial color barrier. Another, the boxer Sugar Ray Robinson, exemplifies the black American athlete as an international celebrity. African American women also played an important role in bringing down the barriers, especially in the early development of women's basketball. In baseball, both African American and Hispanic players faced down obstacles and entered the sports mainstream after World War II. One essay discusses the international spread of American imperialism through sport. Another shows how mass media images of African American athletes continue to shape public perceptions. Although each of these six essays explores a different facet of sports in America, together they comprise an analytical examination of African American society's tumultuous struggle for full participation both on and off the athletic field. Charles K. Ross, interim director of African American studies and an associate professor of history and African American studies at the University of Mississippi, is the author of *Outside the Lines: African Americans and the Integration of the National Football League*."

Tide, Feather, Snow-Miranda Weiss 2009-05-19 "Miranda Weiss's Tide, Feather, Snow is beautifully poetic, her observations are expansive, and the pace and rhythm in which she writes are perfect." — Lynne Cox, author of Grayson and Swimming to Antarctica "Tide, Feather, Snow is about the resplendence and subtleties of coastal Alaska, and about one woman's attempt to be fully present in them. Weiss serves as a skilled and poetic witness to a place undergoing incessant change." — Anthony Doerr, author of The Shell Collector A memoir of moving to Alaska—and staying—by a writer whose gift for writing about place and natural beauty is reminiscent of John McPhee (Coming into the Country) and Jonathan Raban (Passage to Juneau).

The Mercy of the Tide-Keith Rosson 2017-02-21 Riptide, Oregon, 1983. A sleepy coastal town, where crime usually consists of underage drinking down at a Wolf Point bonfire. But then strange things start happening a human skeleton is unearthed in a local park and mutilated animals begin appearing, seemingly sacrificed, on the town's beaches. The Mercy of the Tide follows four people drawn irrevocably together by a recent tragedy as they do their best to reclaim their lives leading them all to a discovery that will change them and their town forever. At the heart of the story are Sam Finster, a senior in high school mourning the death of his mother, and his sister Trina, a nine-year-old deaf girl who denies her grief by dreaming of a nuclear apocalypse as Cold War tensions rise. Meanwhile, Sheriff Dave Dobbs and Deputy Nick Hayslip must try to put their own sorrows aside to figure out who, or what, is wreaking havoc on their once-idyllic town. Keith Rosson paints outside the typical genre lines with his brilliant debut novel. It is a gorgeously written book that merges the sly wonder of magical realism and alternate history with the depth and characterization of literary fiction. This book will appeal to fans of genre-bending authors such as Dean Koontz, Karen Russell, Kelly Link, and Kevin Barry. "
