Corrections in the 21st Century-Frank Schmalleger 2021 "Corrections, when seen as the control and punishment of convicted offenders, has been an important part of organized society from the earliest days of civilization. It has not always had a proud past, however. In premodern times, atrocious physical punishment, exile, and unspeakable torture were the tools used all too often by those called upon to enforce society's correctional philosophies-especially the strongly felt need for vengeance. Corrections professionalism, although not yet as well-known as police professionalism, has garnered support from policymakers and is winning respect among the public. It serves as this textbook's organizing principle"--

Why Do We Quote?-Ruth Finnegan 2011-03-01 Quoting is all around us. But do we really know what it means? How do people actually quote today, and how did our present systems come about? This book brings together a down-to-earth account of contemporary quoting with an examination of the comparative and historical background that lies behind it and the characteristic way that quoting links past and present, the far and the near. Drawing from anthropology, cultural history, folklore, cultural studies, sociolinguistics, literary studies and the ethnography of speaking, Ruth Finnegan 's fascinating study sets our present conventions into crosscultural and historical perspective. She traces the curious history of quotation marks, examines the long tradition of quotation collections with their remarkable recycling across the centuries, and explores the uses of quotation in literary, visual and oral traditions. The book tracks the changing definitions and control of quoting over the millennia and in doing so throws new light on ideas such as imitation, allusion, authorship, originality and plagiarism .
