A Space Between Worlds-J D Woodson 2016-09-30 Songstress Shanti's final performance is no different than any other. Gazing into the mirror, the Songstress laments her faceless curse. To hide her unsightliness, she dons a beautiful mask. She knows she doesn't belong in the darkness. Her desire is to live in a world of eternal light, to be seen for who she truly is. An enigmatic man who calls himself Avidia beckons Shanti, claiming to know how to conceive the world of light sleeping inside of her, and escape her current world of darkness, Cauraaha. Avidia poses the question that will be the key to her desire, as well as an unresolved pain: "What is your first memory?" Reno, a gentle florist, has his own stigma, a translucent coil of thorns wrapped around his arm, draining him of life at the utterance of the word "Promise." Hidden away in his heart is the knowledge of a past he doesn't wish to face, one that connects to Shanti, Avidia, and her curse. A dual narrative of introspection and self-discovery, A Space Between Worlds eloquently questions the truths of life and death, timeless bonds, and regret through lyrical imagination, philosophy, surrealism, and a journey through the unconscious mind.

Excuses Begone!-Wayne W. Dyer 2010 Toss Out Those Tired Old Excuses...Once and for All! Within the pages of this transformational book, Dr. Wayne W. Dyer reveals how to change the self-defeating thinking patterns that have prevented you from living at the highest levels of success, happiness, and health. Even though you may know what to think, actually changing those thinking habits that have been with you since childhood might be somewhat challenging. If I changed, it would create family dramas ... I'm too old or too young ... I'm far too busy and tired ... I can't afford the things I truly want ... It would be very difficult for me to do anything differently ... and I've always been this way ... may all seem to be true, but they're in fact just excuses. So the business of modifying habituated thinking patterns really comes down to tossing out the same tired old excuses and examining your beliefs in a new and truthful light. In this groundbreaking work, Wayne presents a compendium of conscious and subconscious crutches employed by virtually everyone, along with ways to cast them aside once and for all. You'll learn to apply specific questions to any excuse, and then proceed through the steps of a new paradigm. The old, habituated ways of thinking will melt away as you experience the absurdity of hanging on to them. You'll ultimately realize that there are no excuses worth defending, ever, even if they've always been part of your life-and the joy of releasing them will resonate throughout your very being. When you eliminate the need to explain your shortcomings or failures, you'll awaken to the life of your dreams. Excuses ... Begone!

And so begins the unforgettable season that deposits the noncooking, nonbiting, ever-whistling Rose Llewellyn and her font-of-knowledge brother, Morris Morgan, in Marias Coulee along with a stampede of homesteaders drawn by the promise of the Big Ditch--a gargantuan irrigation project intended to make the Montana prairie bloom. When the schoolmarm runs off with an itinerant preacher, Morris is pressed into service, setting the stage for the "several kinds of education"--none of them of the textbook variety--Morris and Rose will bring to Oliver, his three sons, and the rambunctious students in the region's one-room schoolhouse. A paean to a vanished way of life and the

eccentric individuals and idiosyncratic institutions that made it fertile, *The Whistling Season* is Ivan Doig at his evocative best.

Travis Shelton is seventeen the summer he wanders into the woods onto private property outside his North Carolina hometown, discovers a grove of marijuana large enough to make him some serious money, and steps into the jaws of a bear trap. After hours of passing in and out of consciousness, Travis is discovered by Carlton Toomey, the wise and vicious farmer who set the trap to protect his plants, and Travis's confrontation with the subtle evils within his rural world has begun. Before long, Travis has moved out of his parents' home to live with Leonard Shuler, a one-time schoolteacher who lost his job and custody of his daughter years ago, when he was framed by a vindictive student. Now Leonard lives with his dogs and his sometime girlfriend in a run-down trailer outside town, deals a few drugs, and studies journals from the Civil War. Travis becomes his student, of sorts, and the fate of these two outsiders becomes increasingly entwined as the community's terrible past and corrupt present bear down on each of them from every direction, leading to a violent reckoning—not only with Toomey, but with the legacy of the Civil War massacre that, even after a century, continues to divide an Appalachian community. Vivid, harrowing yet ultimately hopeful, *The World Made Straight* is Ron Rash's subtlest exploration yet of the painful conflict between the bonds of home and the desire for independence.

Jazz A-B-Z-Wynton Marsalis 2005 Profiles twenty-six of the jazz greats of all time, from Count Basie to Louis Armstrong, through a review of their work, their life stories, and their greatest hits by one of today's top jazz performers. A is for "almighty" Louis Armstrong, whose amazing artistry unfolds in an accumulative poem shaped like the letter he stands for. As for sax master Sonny Rollins, whose "robust style radiates roundness," could there be a better tribute than a poetic rondeau? In an extraordinary feat, Pulitzer Prize-winning jazz composer Wynton Marsalis harmonizes his love and knowledge of jazz's most celebrated artists with an astounding diversity of poetic forms—from simple blues (Count Basie) to a complex pantoum (Charlie Parker), from a tender sonnet (Sarah Vaughan) to a performance poem snapping the rhythms of Art Blakey to life.

Team Moon-Catherine Thimmesh 2006-06-26 "This behind-the-scenes look at the first Apollo moon landing has the feel of a public television documentary in its breadth and detail" (Publishers Weekly, starred review). Here is a rare perspective on a story we only thought we knew. For Apollo 11, the first moon landing, is a story that belongs to many, not just the few and famous. It belongs to the seamstress who put together twenty-two layers of fabric for each space suit. To the engineers who created a special heat shield to protect the capsule during its fiery reentry. It belongs to the flight directors, camera designers, software experts, suit testers, telescope crew, aerospace technicians, photo developers, engineers, and navigators. Gathering direct quotes from some of these folks who worked behind the scenes, Catherine Thimmesh reveals their very human worries and concerns. Culling NASA transcripts, national archives, and stunning NASA photos from Apollo 11, she captures not only the sheer magnitude of this feat but also the dedication, ingenuity, and perseverance of the greatest team ever—the team that worked to first put man on that great gray rock in the sky. Winner of the Robert F. Sibert Informational Book Award "An edge-of-your-seat adventure . . . Lavishly illustrated . . . This exhilarating book . . . will captivate." —Chicago Sun-Times "Thimmesh gives names and voices to the army that got Neil Armstrong and company to the moon and back. The result is a spectacular and highly original addition to the literature of space exploration." —The Horn Book "This beautiful and well-documented tribute will introduce a new generation to that triumphant time." —Kirkus Reviews (starred review)
