My Freshman Year-Rebekah Nathan 2006 Feeling out of touch with her students, an anthropology professor describes how she enrolled as a freshman student at college in order to gain new insight into modern-day undergraduate culture. Reprint. 40,000 first printing.

Trickster-Eileen Kane 2010-08-01 A young trainee anthropologist leaves her violent Mafia-run hometown—Youngstown, Ohio—to study an "exotic" group, the Paiute Indians of Nevada. This is 1964; she'll be "the expert," and they'll be "the subjects." The Paiute elders have other ideas. They'll be "the parents." They set themselves two tasks: to help her get a good grade on her project and to send her home quickly to her new bridegroom. They dismiss her research topic and introduce her instead to their spirit creature, the outrageously mischievous rule-breaking trickster, Coyote. Why do the Paiutes love Coyote? Why do Youngstown mill workers vote for Mafia candidates for municipal office? Tricksters become key to understanding how oppressed groups function in a hostile world. For more information visit [www.trickster.ie](http://www.trickster.ie).

Laibon-Elliot M. Fratkin 2011-10-16 Elliot Fratkin shares the story of his early anthropological fieldwork in Kenya in the 1970s. Using his fieldnotes and letters home to bring to life the voices of those he met, Fratkin invites the reader to experience his cross-cultural friendships with the enigmatic laibon (a diviner and healer of the Samburu and Maasai peoples) Lonyoki, his family, and the people of the nomadic community of Lukumai. Fratkin participated in the daily lives of the Ariaal livestock herders and accompanied the laibon as he performed divination and healing rituals throughout Marsabit and Samburu Districts. After Fratkin reunited Lonyoki with his son and wife, Lonyoki adopted Fratkin into his family, and Fratkin continues his close friendship with Lonyoki's son Lembalen today. Black-and-white photographs, a guide to the characters, words, and places, and a list of suggested readings supplement the engaging narrative. Laibon is more than a memoir; it delves into nitty-gritty details of fieldwork, speaks to larger questions about ethnographic research, and provides unparalleled insight into the world of the laibon."

Re-imagining Milk-Andrea S. Wiley 2015-11-19 Milk is a fascinating food: it is produced by mothers of each mammalian species for consumption by nursing infants of that species, yet many humans drink the milk of another species (mostly cows) and they drink it throughout life. Thus we might expect that this dietary practice has some effects on human biology that are different from other foods. In Re-imagining Milk Wiley considers these, but also puts milk-drinking into a broader historical and cross-cultural context. In particular, she asks how dietary policies promoting milk came into being in the U.S., how they intersect with biological variation in milk digestion, how milk consumption is related to child growth, and how milk is currently undergoing globalizing processes that contribute to its status as a normative food for children (using India and China as examples). Wiley challenges the reader to re-evaluate their assumptions about cows' milk as a food for humans. Informed by both biological and social theory and data, Re-imagining Milk provides a biocultural analysis of this complex food and illustrates how a focus on a single commodity can illuminate aspects of human biology and culture.

Sharing Our Worlds-Joy Hendry 2008-04-01 Women today are being instructed on how they can raise their self-esteem, love their inner child, survive their toxic families, overcome codependency, and experience a revolution from within. By holding up the ideal of a pure and happy inner core, psychotherapists refuse to acknowledge that a certain degree of unhappiness or dissatisfaction is a routine part of life and not necessarily a cause for therapy. Lesbians specifically are now guided to define themselves according to their frailties, inadequacies, and insecurities. An incisive critique of contemporary feminist psychology and therapy, Changing our Minds argues not just that the current practice of psychology is flawed, but that the whole idea of psychology runs counter to many tenets of lesbian feminist politics. Recognizing that many lesbians do feel unhappy and experience a range of problems that detract from their well-being, Changing Our Minds makes positive, prescriptive suggestions for non-psychological ways of understanding and dealing with emotional distress. Written in a lively and engaging style, Changing our Minds is required reading for anyone who has ever been in therapy or is close to someone who has, and for lesbians, feminists, psychologists, psychotherapists, students of psychology and women's studies, and anyone with an interest in the development of lesbian feminist theory, ethics, and practice.

Landscapes of Betrayal, Landscapes of Joy-Herb Childress 2000-04-20 Looks at how teenagers in one small town use spaces and give value and meaning to specific places.

Core Concepts in Cultural Anthropology-Robert H. Lavenda 2003 Designed to address the needs of anthropology professors who prefer to make extensive use of ethnographies and other supplementary readings in their courses, this is a concise, accurate introduction to the basic ideas and practices of contemporary cultural anthropology. Not a standard textbook, "Core Concepts" is more like an annotated bibliography of the terms and concepts that anthropologists use in their work. The book will prepare students to read ethnography more effectively and with less confusion and misunderstanding.

Cultural Anthropology-Ember 1999-06

The Interpretation of Cultures-Clifford Geertz 2017-08-15 In The Interpretation of Cultures, the most original anthropologist of his generation moved far beyond the traditional confines of his discipline to develop an important new concept of culture. This groundbreaking book, winner of the 1974 Sorokin Award of the American Sociological Association, helped define for an entire generation of anthropologists what their field is ultimately about.

Mirror for Humanity-Conrad Phillip Kottak 2003

Mirror for Humanity-Conrad Phillip Kottak 1999 This text is designed to provide a concise introduction to cultural anthropology, carefully balancing coverage of core topics with contemporary changes in the field.

Commentaries on the Laws of England-Sir William Blackstone 1900

Getting to Yes-Roger Fisher 1991 Describes a method of negotiation that isolates problems, focuses on interests, creates new options, and uses objective criteria to help two parties reach an agreement

The Adventures of Tom Sawyer-Mark Twain 2013-03-07 The Adventures of Tom Sawyer, by Mark Twain, is a popular novel about a young boy growing up in a village on the banks of the Mississippi River. Tom Sawyer, a mischievous orphan taken in by his aunt Polly, goes through a series of adventures involving his friends, Joe Harper and Huckleberry Finn. Tom is an escape master and a small crook in a long list of adventures, as a symbol of celebration of childhood.

Warriors Don't Cry-Melba Beals 2007-07-24 The author describes the threats and emotional abuse she endured from white student and adults along with her fears of endangering her family as she committed to being one of the first African American students to integrate Central High School in Little Rock, Arkansas in 1957.

Tricking and Tripping-Claire E. Sterk 2000

Dancing Skeletons-Katherine A. Dettwyler 2013-09-26 One of the most widely used ethnographies published in the last twenty years, this Margaret Mead Award winner has been used as required reading at more than 600 colleges and universities. This personal account by a biocultural anthropologist illuminates not-soon-forgotten messages involving the sobering aspects of fieldwork among malnourished children in West Africa. With nutritional anthropology at its core, Dancing Skeletons presents informal, engaging, and oftentimes dramatic stories that relate the author's experiences conducting research on infant feeding and health in Mali. Through fascinating vignettes and honest, vivid descriptions, Dettwyler explores such diverse topics as ethnocentrism, culture shock, population control, breastfeeding, child care, the meaning of disability and child death in different cultures, female circumcision, women's roles in patrilineal societies, the dangers of fieldwork, and facing emotionally draining realities. Readers will laugh and cry as they meet the author's friends and informants, follow her through a series of encounters with both peri-urban and rural Bambara culture, and struggle with her as she attempts to reconcile her very different roles as objective ethnographer, subjective friend, and mother in the field. The 20th Anniversary Edition includes a 13-page "Q&A with the Author" in which Dettwyler responds to typical questions she has received individually from students who have been assigned Dancing Skeletons as well as audience questions at lectures on various campuses. The new 23-page "Update on Mali, 2013" chapter is a factual update about economic and health conditions in Mali as well as a brief summary of the recent political unrest.

The Psychosocial Implications of Disney Movies-Lauren Dundes 2019-07-11 In this volume of 15 articles, contributors from a wide range of disciplines present their analyses of Disney movies and Disney music, which are mainstays of popular culture. The power of the Disney brand has heightened the need for academics to question whether Disney's films and music function as a tool of the Western elite that shapes the views of those less empowered. Given its global reach, how the Walt Disney Company handles the role of race, gender, and sexuality in social structural inequality merits serious reflection according to a number of the articles in the volume. On the other hand, other authors argue that Disney productions can help individuals cope with difficult situations or embrace progressive thinking. The different approaches to the assessment of Disney films as cultural artifacts also vary according to the theoretical perspectives guiding the interpretation of both overt and latent symbolic meaning in the movies. The authors of the 15 articles encourage readers to engage with the material, showcasing a variety of views about the good, the bad, and the best way forward.

Asking Questions about Cultural Anthropology-Robert L. Welsch 2018-08-31 Organized around anthropological questions, this contemporary text demonstrates how anthropological thinking can be used as a tool for deciphering everyday experiences. Designed to stimulate students' anthropological imaginations, this concise foundation of cultural anthropology can be enriched by the use of ethnographies, a reader, articles, field-based activities, and more.

Readings about The Social Animal-Joshua Aronson 2019-08-30 Exploring the key ideas in social psychology, this collection of classic and contemporary readings includes accounts of specific experimental findings as well as more general articles summarizing studies on such topics as attraction, prejudice, and aggression. The new edition adds 15 new readings while retaining a number of classics by leading psychological thinkers such as Stanley Milgram on obedience and Solomon Asch on conformity. Readings makes the perfect companion for the Aronson's highly praised book, The Social Animal as it follows the same major themes. The Reader can also be used with any introductory social psychology text or even in lieu of a text. Using both The Social Animal textbook and the reader is a unique and engaging combination for understanding social psychology and its research.

Rebel in the Ranks-Brad S. Gregory 2017-09-12 When Martin Luther published his 95 Theses in October 1517, he had no intention of starting a revolution. But very quickly his criticism of indulgences became a rejection of the papacy and the Catholic Church emphasizing the Bible as the sole authority for Christian faith, radicalizing a continent, fracturing the Holy Roman Empire, and dividing Western civilization in ways Luther—a deeply devout professor and spiritually-anxious Augustinian friar—could have never foreseen, nor would he have ever endorsed. From Germany to England, Luther's ideas inspired spontaneous but sustained uprisings and insurrections against civic and religious leaders alike, pitted Catholics against Protestants, and because the Reformation movement extended far beyond the man who inspired it, Protestants against Protestants. The ensuing disruptions prompted responses that gave shape to the modern world, and the unintended and unanticipated consequences of the Reformation continue to influence the very communities, religions, and beliefs that surround us today. How Luther inadvertently fractured the Catholic Church and reconfigured Western civilization is at the heart of renowned historian Brad Gregory's Rebel in the Ranks. While recasting the portrait of Luther as a deliberate revolutionary, Gregory describes the cultural, political, and intellectual trends that informed him and helped give rise to the Reformation, which led to conflicting interpretations of the Bible, as well as the rise of competing churches, political conflicts, and social upheavals across Europe. Over the next five hundred years, as Gregory's account shows, these conflicts eventually contributed to further epochal changes—from the Enlightenment and self-determination to moral relativism, modern capitalism, and consumerism, and in a cruel twist to Luther's legacy, the freedom of every man and woman to practice no religion at all. With the scholarship of a world-class historian and the keen eye of a biographer, Gregory offers readers an in-depth portrait of Martin Luther, a reluctant rebel in the ranks, and a detailed examination of the Reformation to explain how the events that transpired five centuries ago still resonate—and influence us—today.

The Malleus Maleficarum-Heinrich Kramer 2007-04-01 "A handbook for hunting and punishing witches to assist the Inquisition and Church in exterminating undesirables. Mostly a compilation of superstition and folklore, the book was taken very seriously at the time it was written in the 15th century and became a kind of spiritual law book used by judges to determine the guilt of the accused"--From publisher description.

Unbroken-Laura Hillenbrand 2014-07-29 Relates the story of a U.S. airman who survived when his bomber crashed into the sea during World War II, spent forty-seven days adrift in the ocean before being rescued by the Japanese Navy, and was held as a prisoner until the end of the war.

Conflict, Culture and History-Stephen J. Blank 1991

Enlarging the Scope of Peace Psychology-Mohamed Seedat 2016-12-06 With the major goal of building an inclusive international community that promotes peace-related research and action, this volume reflects on local, national and global peace engagement and works towards transdisciplinary understandings of the role of psychology in peace, conflict, and violence. Drawn primarily from 14th Biennial International Symposium on the Contributions of Psychology, the chapters focus on peacemaking--or the pursuit of harmony in human relations-- and peacebuilding--or equity in human relations-- with a special emphasis on voices from typically underrepresented areas in psychology, such as the Global South. In order to move beyond a Western-centered idea of peace psychology, the volume is divided into two major parts. The first half of the volume puts an emphasis on peace psychology research and praxis in a number of geohistorical contexts, including Malaysia, Northern Ireland, Thailand, and Kashmir, that bear on conflict, harmony and equity in human relations. Chapters in the second half of the volume fulfill the mandate of Biennial Symposia; namely, to create more equity in the production of peace theory and praxis by bringing forward the voices of scholars and change agents that are often unheard in peace discourses, including a number of scholars and chapters from South Africa. Additionally, throughout the chapters, the authors and editors of the volume emphasize emancipatory agendas as an important alternative to militarism and state-sponsored violence. With the aim of bringing forward voices from cultures and situations that are typically not included or highly visible in peace discourses, Enlarging the Scope of Peace Psychology in Invited and Invented Spaces: African and World-Regional Contributions is a thought-provoking, timely, and informative work. Psychologists, anthropologists, sociologists, political scientists, activists, public-policy makers, and all those interested in promoting peace and justice, are sure to find this an invaluable and illuminating resource.

Social Movements-Donatella della Porta 2009-02-09 Social Movements is a comprehensive introduction and critical analysis of collective action in society today. In this new edition, the authors have updated all chapters with the most recent scientific literature, expanded on topics such as individual motivations, new

media, public policies, and governance. Draws on research and empirical work across the social sciences to address the key questions in this international field. New edition expands on topics such as individual motivations, new media, public policies, and governance. Has been redesigned in a more user-friendly format.

Essentials of Organizational Behavior-Stephen P. Robbins 2003

In Conflict and Order-D. Stanley Eitzen 2012-07 Viewing our society from a conflict perspective. This introductory text, written from a conflict perspective, emphasizes four themes: diversity, the struggle by the powerless to achieve social justice, the changing economy, and globalization. In Conflict and Order: Understanding Society studies the forces that lead to stability and change in society and asks: Who benefits from the existing social arrangements, and who does not? How are human beings shaped by society? What are the forces that maintain social stability, produce social inequality, and resist social change? Male Roles, Masculinities and Violence-Expert Group Meeting on Male Roles and M 2000 This book is based on an expert group meeting entitled 'Male Roles and Masculinities in the Perspective of a Culture of Peace', which was organised by UNESCO in Oslo, Norway in 1997, the first international discussion of the connections between men and masculinity and peace and war. The group consisted of researchers, activists, policy makers and administrators and the aim of the meeting was to formulate practical suggestions for change. Chapters in the book consist of both regional case studies and social science research on the connections of traditional masculinity and patriarchy to violence and peace building. The Culture of Peace initiatives in this book show how violence is ineffective, and the book contests the views in the socialisation of boy-children that aggressiveness, violence and force are an acceptable means of expression. Land Conflicts-Babette Wehrmann 2008

Barron's AP Psychology with CD-ROM-Robert McEntarffer 2010-02-01 This updated manual presents one diagnostic test and two full-length practice tests that reflect the actual AP Psychology Exam in length, subject matter, and difficulty. All test questions are answered and explained. It also provides extensive subject review covering all test topics. Topics reviewed include research methods, the biological basis of behavior, sensation and perception, states of consciousness, learning, cognition, personality, abnormal psychology, and treatment of disorders. This manual also presents an overview of the test, extra multiple-choice practice questions, test-taking tips, and an analysis of the test's essay question with a sample essay. Enclosed with the manual is a CD-ROM that presents two more practice tests with answers, explanations, and automatic scoring, as well as extensive subject review.

Social Problems-William Kornblum 2003 With historical and multicultural sensitivity, this best-selling book probes the nature and causes of the major social changes confronting today's citizens. Using the latest research, current statistics, examples, charts, and tables, it delves into the social control and action issues inherent to each problem in a clear, easy-to-read format. Balancing viewpoints and supporting material with research and policy, the book covers topics in a micro-to-macro format, pointing out the interrelationships among today's social problems and approaching them from several perspectives. The first few chapters focus on individual behaviors such as drug use and crime. The middle chapters deal with inequality and discrimination, discussing such topics as poverty, prejudice, sexism, ageism, family life, and work. The final chapters discuss the problems of cities, environmental pollution, and war and terrorism: matters of global significance. Because the nature of the United States is changing, with health and health care crises, military invasions, economic downturn, shrinking public budgets and rising fiscal deficits, and environmental issues, this book becomes a necessary read for members of the medical profession that confront the tragedy of AIDS, law enforcement professionals who cope with crime and violence, elected officials and other political leaders who are expected to formulate sound social policies to address social problems, and citizens who wish to learn more about the social problems that are pervasive in our lives.
