Introduction to Criminology-Pamela J. Schram 2017-02-13 Introduction to Criminology, Why Do They Do It?, Second Edition, by Pamela J. Schram Stephen G. Tibbetts, offers a contemporary and integrated discussion of the key theories that help us understand crime in the 21st century. With a focus on why offenders commit crimes, this bestseller skillfully engages students with real-world cases and examples to help students explore the fundamentals of criminology. To better align with how instructors actually teach this course, coverage of violent and property crimes has been integrated into the theory chapters, so students can clearly understand the application of theory to criminal behavior. Unlike other introductory criminology textbooks, the Second Edition discusses issues of diversity in each chapter and covers many contemporary topics that are not well represented in other texts, such as feminist criminology, cybercrime, hate crimes, white-collar crime, homeland security, and identity theft. Transnational comparisons regarding crime rates and the methods other countries use to deal with crime make this edition the most universal to date and a perfect companion for those wanting to learn about criminology in context.

Since it was first published in 2010, it has been cited in judicial decisions and has been adopted in campus-wide and

community-wide reads; it helped inspire the creation of the Marshall Project and the new \$100 million Art for Justice Fund; it has been the winner of numerous prizes, including the prestigious NAACP Image Award; and it has spent nearly 250 weeks on the New York Times bestseller list. Forensic Criminology-Wayne Petherick 2009-07-30 Forensic Criminology gives students of criminology and criminal justice an introduction to the forensic realm and the applied forensic issues they will face when working cases within the justice system. It effectively bridges the theoretical world of social criminology with the applied world of the criminal justice system. While most of the competing textbooks on criminology adequately address the application and the social theory to the criminal justice system, the vast majority do not include casework or real-world issues that criminologists face. This book focuses on navigating casework in forensic contexts by case-working criminologists, rather than broad social theory. It also allows criminology/criminal justice instructors outside of the forensic sciences the ability to develop and instruct a core course that might otherwise be considered beyond their expertise, or in conflict with forensic courses taught in chemistry, biology, or medical programs at their institutions because of its focus on criminology and criminal justice careers. With its practical approach, this textbook is well-suited for forensic criminology subjects being taught and developed in law, criminology, and criminal justice programs around the world. Approaches the study of criminology from an applied standpoint, moving away from the purely theoretical Contains relevant and contemporary case examples to demonstrate the application of forensic criminology Provides an integrated philosophy with respect to criminology, forensic casework, criminal investigations, and the law Useful for students and professionals in the area of criminology, criminal justice, criminal investigation, forensic science, and the law

Understanding Crime-Travis W. Hirschi 1980-10 Eight articles represent a variety of viewpoints on the causes of crime -- from the social learning tradition to the multiple factor approach to sociobiology and the behaviourist approaches. The editors' introduction puts the research reported here into the context of the long-standing debate. 'Sage Publications are to be congratulated on their excellent series of books called "Research Progress Series in Criminology"...one of the volumes Understanding Crime deals with current theory and research in criminology. It comes at the right time for there are two tendencies in the world today which are causing serious concern, the growth in crime and the spreading throughout the world of a devilish terrorism.' -- The Alliance News

Criminology Today-Frank Schmalleger 2012 Criminology Today: An Integrative Introduction 6e is a clear, contemporary and comprehensive introduction to the study of criminology. Talking to Strangers-Malcolm Gladwell 2019-09-10 A Best Book of the Year: The Financial Times, Bloomberg, Chicago Tribune, and Detroit Free Press Malcolm Gladwell, host of the podcast Revisionist History and author of the #1 New York Times bestseller Outliers, offers a powerful examination of our interactions with strangers -- and why they often go wrong. How did Fidel Castro fool the CIA for a generation? Why did Neville Chamberlain think he could trust Adolf Hitler? Why are campus sexual assaults on the rise? Do television sitcoms teach us something about the way we relate to each other that isn't true? While tackling these questions, Malcolm Gladwell was not solely writing a book for the page. He was also producing for the ear. In the audiobook version of Talking to Strangers, you'll hear the voices of people he interviewed--scientists, criminologists, military psychologists. Court transcripts are brought to life with re-enactments. You actually hear the contentious arrest of Sandra Bland by the side of the road in Texas. As Gladwell revisits the deceptions of Bernie Madoff, the trial of Amanda Knox, and the suicide of Sylvia Plath, you hear directly from many of the players in these real-life tragedies. There's even a theme song - Janelle Monae's "Hell You Talmhout." Something is very wrong, Gladwell argues, with the tools and strategies we use to make sense of people we don't know. And because we don't know how to talk to strangers, we are inviting conflict and misunderstanding in ways that have a profound effect on our lives and our world.

Causes of Delinquency-Travis Hirschi 2017-07-28 In Causes of Delinquency, Hirschi attempts to state and test a theory of delinquency, seeing in the delinquent a person relatively free of the intimate attachments, the aspirations, and the moral beliefs that bind most people to a life within the law. In prominent alternative theories, the delinquent appears either as a frustrated striver forced into delinquency by his acceptance of the goals common to us all, or as an innocent foreigner attempting to obey the rules of a society that is not in position to make the law or define conduct as good or evil. Hirschi analyzes a large body of data on delinquency collected in Western Contra Costa County, California, contrasting throughout the assumptions of the strain, control, and cultural deviance theories. He outlines the assumptions of these theories and discusses the logical and empirical difficulties attributed to each of them. Then draws from sources an outline of social control theory, the theory that informs the subsequent analysis and which is advocated here. Often listed as a Citation Classic, Causes of Delinquency retains its force and cogency with age. It is an important volume and a necessary addition to the libraries of sociologists, criminologists, scholars and students in the area of delinquency.
