On a Global Mission: The Automobiles of General Motors International Volume 3-Louis F. Fourie 2016-12-27 Volume One traces the history of Opel and Vauxhall separately from inception through to the 1970s and thereafter collectively to 2015. Special attention is devoted to examining innovative engineering features and the role Opel has taken of providing global platforms for GM. Each model is examined individually and supplemented by exhaustive supporting specification tables. The fascinating history of Saab and Lotus begins with their humble beginnings and examines each model in detail and looks at why these unusual marques came under the GM Banner. Included is a penetrating review of Saab through to its unfortunate demise. Volume Two examines unique models and variations of Chevrolet and Buick manufactured in the Southern Hemisphere and Asia but never offered in North America. Daewoo, Wuling and Baojun are other Asian brands covered in detail. This volume concludes with recording the remarkable early success of Holden and its continued independence through to today. Volume Three

covers the smaller assembly operations around the world and the evolution of GM's export operations. A brief history of Isuzu, Subaru and Suzuki looks at the three minority interests GM held in Asia. The GM North American model specifications are the most comprehensive to be found in a single book. Global and regional sales statistics are included. GM executives and management from around the globe are listed with the roles they held. An index ensures that these volumes serve as the ideal reference source on GM.

Cars of the Soviet Union-Andy Thompson 2008 The story of the Soviet Union's cars has to be seen in the context of a planned society in which everything was planned well in advance, and consumer items were not a priority until well after the Second World War. This extraordinarily detailed study charts the history of Soviet cars from the birth of the Soviet Union in 1917 until its demise in 1990, with a conclusion about the post-Soviet era. It is the story of an insular, state-run car industry in which the carefully thought-out ideas of ministerial planners, rather than fickle customers in a free market, determined what cars were made in a country where the open road was often a 300-mile track across a windswept steppe.

Which Way Next-Richard Meredith 2004-02 Another true-life travel adventure from the Balding Backpacker; one of the epic tales of modern motoring history. In the late summer of 2003, middle-aged adventurer Richard Meredith and a young student companion borrowed a small family hatchback from General Motors and drove it halfway round the world. GM were hoping to publicise the bankrupt Daewoo car business they bought in South Korea after founder Kim Woo Choong had disappeared with \$2billion of company cash. But they got more than they bargained for - and so did the intrepid duo, defying sandstorms, rioters and gun-totting rebels as they meandered across Europe, battled through the ranks of Taliban and al-Qaeda forces in Afghanistan, and juddered across India into Laos and Vietnam.
