Tiny-Sam Crescent 2018-01-30 Tiny is the leader of The Skulls and the main protector of Fort Wills, but that wasn't always the case. He has a dark past, and it's about to come and bite him in the ass. Eva cannot stay with a man who'll keep her in the dark. She's the daughter of the man who runs the underground fighting circuit in Vegas, and there is iron in her that none of the Skulls suspects. Backing down from what she wants has never been in her nature, but Tiny is too far gone. There's no hope of holding him. When Tiny and his boys are attacked on a drug run, he has no choice but to head to the woman he loves. Tiny doesn't know which of his men are alive or dead. He only knows his past has finally caught up with him. But how can he go back home without his daughter's man? Lives will be tested, and lives will be lost. Tiny will be pushed to the breaking point, and he'll have to make a choice. Who can he save when all seems lost? The Death Shift-Peter Elkind 2016-01-10 One of the most shocking and insidious cases in the history of medicine: the crimes of one nurse were hidden by a hospital for years... It's 1980, and Genene Jones is working the 3 to 11 PM shift in the pediatric ICU in San Antonio's county hospital. As the weeks go by, infants under her care begin experiencing unexpected complications—and dying—in alarming numbers, prompting rumors that there is a murderer among the staff. Her eight-hour shift would come to be called "the death shift." This strange epidemic would continue unabated for more than a year, before Jones is quietly sent off—with a good recommendation—to a rural pediatric clinic. There, eight children under her care mysteriously stopped breathing—and a 15-month-old baby girl died. In May 1984, Jones was finally arrested, leading to a trial that revealed not only her deeply disturbed mind and a willingness to kill, but a desire to play 'God' with the lives of the children under her care. More shocking still, it was discovered that the hospital had shredded records and remained silent about Jones' horrific deeds, obscuring the full extent of her spree and prompting grieving parents to ask: Why? Elkind chronicles Jones' rampage, her trials, and the chilling aftermath of one of the most horrific crimes in America, and turns his piercing gaze onto those responsible for its cover-up. It is a tale with special relevance today, as prosecutors, distraught parents, and victims' advocates struggle to keep Jones behind bars, despite her scheduled mandatory release from a Texas prison in early 2018. "Intriguing...A horrifying true-life medical thriller..." —PUBLISHERS WEEKLY "Gripping...A remarkable journalistic achievement!"—NEWSWEEK "Murder, madness, and medicine...superb!"—LIBRARY JOURNAL "Shocking...true crime reporting at its most compelling."—BOOKLIST

Machine of Death-Ryan North 2010 Presents fantasy stories written by Internet authors that explore how people, cultures, and societies are affected by the predictions of the Machine, an object that provides short yet vague phrases about how a person will die.

Trump: The Art of the Deal-Donald J. Trump 2009-12-23 President Donald J. Trump lays out his professional and personal worldview in this classic work—a firsthand account of the rise of America's foremost deal-maker. "I like thinking big. I always have. To me it's very simple: If you're going to be thinking anyway, you might as well think big."—Donald J. Trump Here is Trump in action—how he runs his organization and how he runs his life—as he meets the people he needs to meet, chats with family and friends, clashes with enemies, and challenges conventional thinking. But even a maverick plays by rules, and Trump has formulated time-tested guidelines for success. He isolates the common elements in his greatest accomplishments; he shatters myths; he names names, spells out the zeros, and fully reveals the deal-maker's art. And throughout, Trump talks—really talks—about how he does it. Trump: The Art of the Deal is an unguarded look at the mind of a brilliant entrepreneur—the ultimate read for anyone interested in the man behind the spotlight. Praise for Trump: The Art of the Deal "Trump makes one believe for a moment in the American dream again."—The New York Times "Donald Trump is a deal maker. He is a deal maker the way lions are carnivores and water is wet."—Chicago Tribune "Fascinating . . . wholly absorbing . . . conveys Trump's larger-than-life demeanor so vibrantly that the reader's attention is instantly and fully claimed."—Boston Herald "A chatty, generous, chutzpa-filled autobiography."—New York Post

Tender Morsels-Margo Lanagan 2008-10-14 Tender Morsels is a dark and vivid story, set in two worlds and worrying at the border between them. Liga lives modestly in her own personal heaven, a world given to her in exchange for her earthly life. Her two daughters grow up in this soft place, protected from the violence that once harmed their mother. But the real world cannot be denied forever—magicked men and wild bears break down the borders of Liga's refuge. Now, having known Heaven, how will these three women survive in a world where beauty and brutality lie side by side?

Lash-Sam Crescent 2014-04-01 No one messes with The Skulls and gets away with it! The last thing Angel Marston ever wanted was be at the mercy of The Skulls. They're the local bikers and the club that helps keep the town safe, but they have their own kind of rules. They party hard and do whatever the hell they want. But her father's debts to the club mean Angel has no choice. Lash loves his club, but he wants a woman who hasn't slept with all the crew. Angel is just what he's looking for. She's sweet, young ... and a virgin. He wants her more than anything and has already staked his claim on her. When Lash touches her, Angel can't help but melt. He sets fires inside her body with his wandering hands and sinful lips. She can't say no, and she wants him desperately. But when all seems to be going so well for Angel and Lash, their pasts catch up to them. The Skulls have enemies who want the town and their women. Lash must decide who to put first, the club or his woman. Is Angel strong enough to stand by his side when the going gets tough? And what will happen when tragedy and pain both hit at once?

The Burdens of Disease-J. N. Hays 2009-10-15 A review of the original edition of The Burdens of Disease that appeared in ISIS stated, "Hays has written a remarkable book. He too has a message: That epidemics are primarily dependent on poverty and that the West has consistently refused to accept this." This revised edition confirms the book's timely value and provides a sweeping approach to the history of disease. In this updated volume, with revisions and additions to the original content, including the evolution of drug-resistant diseases and expanded coverage of HIV/AIDS, along with recent data on mortality figures and other relevant statistics, J. N. Hays chronicles perceptions and responses to plague and pestilence over two thousand years of western history. Disease is framed as a multidimensional construct, situated at the intersection of history, politics, culture, and medicine, and rooted in mentalities and social relations as much as in biological conditions of pathology. This revised edition of The Burdens of Disease also studies the victims of epidemics, paying close attention to the relationships among poverty, power, and disease.

Easy-Sam Crescent 2017-03-11 From the moment that Brass saw Eliza, he knew he was going to have her. But having her isn't the problem. Keeping her is. Eliza always looks so skittish, as if she is waiting for something bad to happen. When she finally tells him the truth about her father's control over her life, Brass knows he will do everything in his power to protect her—even take on her father. Eliza is used to men being bought off. No one wants to stay with the fat girl, and they would certainly rather have a big wad of fat money than have her. All she has ever wanted is a guy to love her, desire her, want her. Could that man be Brass? The Trojans are going through a trying time, and with it, they don't have the need for another old lady who could leave them. Brass not only has to prove to the club that Eliza is the one, he must prove it to the woman he loves. When her father finally comes to town intent on destroying everything connected to Eliza, can the Trojans band together to fight an unusual enemy, one with both power and money?

Gathering Blue-Lois Lowry 2000-09-25 Lois Lowry once again creates a mysterious but plausible future world. It is a society ruled by savagery and deceit that shuns and discards the weak. Left orphaned and physically flawed, young Kira faces a frightening, uncertain future. Blessed with an almost magical talent that keeps her alive, she struggles with ever broadening responsibilities in her quest for truth, discovering things that will change her life forever. As she did in THE GIVER, Lowry challenges readers to imagine what our world could become, how people could evolve, and what could be considered valuable. Every reader will be taken by Kira's plight and will long ponder her haunting world and the hope for the future.

Bad Deeds-Lisa Renee Jones 2017-08-08 Wall Street meets the Sons of Anarchy in Bad Deeds, the smoldering, scorching next novel in the explosively sexy Dirty Money series from New York Times bestselling author Lisa Renee Jones. His brother is desperate to rule the empire and this means war and all gloves are off. His brother only thought he knew what dirty meant. Shane is about to give it new meaning. There is another war brewing though, and that one, is inside him, his battle between right and wrong, light and dark, and in the heat of the night, it is Emily he turns to for escape. Driving her to new limits, pushing her to accept a part of him that even he cannot. In every one of Shane's seductive demands, Emily can taste and feel, his torment, his struggle to save his family and not lose himself. But he is losing himself, and that is a problem just as dangerous as her secret, that still lurk in the shadows, a threat to the Brandon Family waiting to erupt. No matter where she and Shane have traveled, or will travel in the future, she can't just sit back and watch him become everything he hates, everything he never wanted to become, everything she tried to save him from when she tried to run. It could be their undoing, the end. His end. This is war, blood will spill, and someone in the heart of the Brandon family will not survive.... Wall Street meets the Sons of Anarchy in *Damage Control*, the smoldering, scorching next novel in the explosively sexy *Dirty Money* series from New York Times bestselling author Lisa Renee Jones. The only thing more dangerous than a dark secret is a damaged heart... Shane Brandon has been pushed to the brink, torn between his corrupt family and his explosive, all-consuming desire for Emily Stevens, who he now knows is not who, and what, she seems. Has he trusted the wrong person? Will she, not his brother Derek, be the ultimate destruction of his family Empire. Emily tries to run from Shane, but he will stop her, confront her, force her to reveal all - one hot touch and kiss, at a time, under every intimate detail of who this woman is, and what she wants, is exposed. But as he tears away the dangers of the unknowns with the woman in his bed, and in his heart, *The Martina Cartel*, has set their sites on his company, his family, and the one piece of leverage they believe he won't gamble with: Emily. This is book THREE of FOUR in Shane and Emily's story.

Unbroken-Laura Hillenbrand 2014-07-29 Relates the story of a U.S. airman who survived when his bomber crashed into the sea during World War II, spent forty-seven days adrift in the ocean before being rescued by the Japanese Navy, and was held as a prisoner until the end of the war.

*The Knife of Never Letting Go*-Patrick Ness 2010-10-18 A dystopian thriller follows a boy and girl on the run from a town where all thoughts can be heard - and the passage to manhood embodies a horrible secret. Todd Hewitt is the only boy in a town of men. Ever since the settlers were infected with the Noise germ, Todd can hear everything the men think, and they hear everything he thinks. Todd is just a month away from becoming a man, but in the midst of the cacophony, he knows that the town is hiding something from him -- something so awful Todd is forced to flee with only his dog, whose simple, loyal voice he hears too. With hostile men from the town in pursuit, the two stumble upon a strange and eerily silent creature: a girl. Who is she? Why wasn't she killed by the germ like all the females on New World? Propelled by Todd's gritty narration, readers are in for a white-knuckle journey in which a boy on the cusp of manhood must unlearn everything he knows in order to figure out who he truly is.

*The Art of Life and Death*-Andrew Irving 2017 *The Art of Life and Death* explores how the world appears to people who have an acute perspective on it: those who are close to death. Based on extensive ethnographic research, Andrew Irving brings to life the lived experiences, imaginative lifeworlds, and existential concerns of persons confronting their own mortality and non-being. Encompassing twenty years of working alongside persons living with HIV/AIDS in New York, Irving documents the radical but often unspoken and unvoiced transformations in perception, knowledge, and understanding that people experience in the face of death. By bringing an "experience-near" ethnographic focus to the streams of inner dialogue, imagination, and aesthetic expression that are central to the experience of illness and everyday life, this monograph offers a theoretical, ethnographic, and methodological contribution to the anthropology of time, finitude, and the human condition. With relevance well-beyond the disciplinary boundaries of anthropology, this book ultimately highlights the challenge of capturing the inner experience of human suffering and hope that affect us all--of the trauma of the threat of death and the surprise of continued life.

*Blood and Earth*-Kevin Bales 2016 "BLOOD AND EARTH is a gripping account of the deadly link between slavery and environmental destruction. Kevin Bales is a social scientist, human rights activist, and journalist -- and he's also one of the world's leading experts on modern slavery. In his work he began to notice the connection between environmental decline and slavery: the two almost always went hand-in-hand, whether in the hellish gold mines of Ghana or the miraculously beautiful mangrove forests of Bangladesh. But why? He set off to find the answer on a fascinating and moving journey that took him into the lives of modern day slaves and along a supply chain that leads directly to the cell phones in our pockets. He found solutions that redeemed both the lives of the slaves in the world's most threatened places and the environments they live in. This is a clear-eyed, inspiring, and profoundly hopeful book that brings us dramatic stories from the world's environmental and human rights hotspots and offers solutions to our most pressing crises"--

*Preparing for the Unimaginable*-Usher, Laura 2018-01-16 While most government agencies are trained in how to react to a mass casualty event such as a terrorist attack or natural disaster, few are prepared to deal with the psychological fallout for first responders. *Preparing for the Unimaginable* fills that void. This book is the product of the National Alliance on Mental Illness's work with the Newtown, Connecticut, police force in efforts to cope with the shooting at Sandy Hook Elementary school that left twenty six people, including twenty children, dead. This unique publication offers expert advice and practical tips for helping officers to heal emotionally, managing the public, dealing with the media, building relationships with other first responder agencies, and much more. Complete with firsthand accounts of chiefs and officers that have guided their departments through mass casualty events, *Preparing for the Unimaginable* seeks to provide practical, actionable strategies to protect officer mental health before and after traumatic events.

*Alcoholics Anonymous*-Alcoholics Anonymous 2012-08

*A Long Way Gone*-Ishmael Beah 2007-02-13 In a heart-wrenching, candid autobiography, a human rights activist offers a firsthand account of war from the perspective of a former child soldier, detailing the violent civil war that wracked his native Sierra Leone and the government forces that transformed a gentle young boy into a killer as a member of the army. 75,000 first printing.

*Blood and Chaos*-S. M. Soto 2019-01-03 We thought the games were over, but they've only just begun...She was the puppet.He pulled the strings.Now the death toll is rising, what could this mean?It was all a game.Of feelings.Of pain.Death is just an illusion, or so they say. She was just a pawn on a piece of his demented board. But there's only one question left to settle the score...Can dead people really stay dead?

*Warcross*-Marie Lu 2019-08-13 Now in mass market paperback, discover a high stakes world with unexpected and sinister twists that's "visual, kinetic, and furiously paced" from Marie Lu, #1 New York Times bestselling author of the *Legend* series For the millions who log in every day, *Warcross* isn't just a game--it's a way of life. But soon her investigation uncovers a sinister plot, with major consequences for the entire *Warcross* empire.

*The Brain That Changes Itself*-Norman Doidge 2010 An astonishing new scientific discovery called neuroplasticity is overthrowing the centuries-old notion that the adult human brain is fixed and unchanging. It is, instead, able to change its own structure and function, even into old age. Psychiatrist and researcher Norman Doidge, M.D., travelled around the United States to meet the brilliant scientists championing neuroplasticity, and the people whose lives they've transformed -- people whose mental limitations or brain damage were previously seen as unalterable, and whose conditions had long been dismissed as hopeless. We see a woman born with half a brain that rewired itself to work as a whole; a woman labeled retarded who cured her deficits with brain exercises and now cures those of others; blind people who learn to see; learning disorders cured; IQs raised; ageing brains rejuvenated; stroke patients recovering their faculties; children with cerebral palsy learning to move more gracefully; entrenched depression and anxiety disappearing; and lifelong character traits changed. Doidge takes us onto terrain that might seem fantastic. We learn that our thoughts can switch our genes on and off, altering our brain anatomy. We learn how people of average intelligence can, with brain exercises, improve their cognition and perception, develop muscle strength, or learn to play a musical instrument -- simply by imagining doing so. Using personal stories from the heart of this neuroplasticity revolution, Dr Doidge has written an immensely moving, inspiring book that will permanently alter the way we look at our brains, human nature, and human potential.

*Civilized to Death*-Christopher Ryan 2020-08-11 The New York Times bestselling coauthor of *Sex at Dawn* explores the ways in which "progress" has perverted the way we live--how we eat, learn, feel, mate, parent, communicate, work, and die--in this "engaging, extensively documented, well-organized, and thought-provoking" (Booklist) book. Most of us have instinctive evidence the world is ending--balmy December days, face-to-face conversation replaced with heads-to-screens zomboidism, a world at constant war, a political system in disarray. We hear some myths and lies so frequently that they feel like truths: Civilization is humankind's greatest accomplishment. Progress is undeniable. Count your blessings. You're lucky to be alive here and now. Well, maybe we are and maybe we aren't. *Civilized to Death* counters the idea that progress is inherently good, arguing that the "progress" defining our age is analogous to an advancing disease. Prehistoric life, of course, was not without serious dangers and disadvantages. Many babies died in infancy. A broken bone, infected wound, snakebite, or difficult pregnancy could be life-threatening. But ultimately, Christopher Ryan questions, were these pre-civilized dangers more murderous than modern scourges, such as car accidents, cancers, cardiovascular disease, and a technologically prolonged dying process? *Civilized to Death* "will make you see our so-called progress in a whole new light" (Book Riot) and adds to the timely conversation that "the way we have been living is no longer sustainable, at least as long as we want to the earth to outlive us" (Psychology Today). Ryan makes the claim that we should start looking backwards to find our way into a better future.

The Summons of Death on the Medieval and Renaissance English Stage-Phoebe S. Spinrad 1987

Recovery from Schizophrenia-Richard Warner 2004-01 Recovery from Schizophrenia, from its first publication, was acclaimed as a work of major importance. It demonstrated convincingly, but controversially, how political, economic and labour market forces shape social responses to the mentally ill, mould psychiatric treatment philosophy, and influence the onset and course of one of the most common forms of mental illness. In this revised and updated third edition, Dr Warner analyses the latest research to extend the conclusions of the original work and tells us whether conditions and outcomes for people with schizophrenia are getting better or worse for people in Britain and America in recent years. In addition, he \* critiques recent approaches to preventing the occurrence of schizophrenia \* suggests innovative strategies for advancing the economic situation of people with mental illness \* describes the latest advances in the rehabilitation of people with schizophrenia \* provides a guide on how to combat the stigma of mental illness at local and national level. Recovery from Schizophrenia's radical analysis of the factors affecting the outcome of schizophrenia is essential reading for all psychiatrists, mental health professional, mental health advocates, social workers, rehabilitation personnel, and psychologists.

A Paraphrase on Part of the Book of Job-Edward Young 1726

Standoff-Jamie Thompson 2020-09-22 Standoff is award-winning journalist Jamie Thompson's gripping account of a deadly night in Dallas, told through the eyes of those at the center of the events, who offer a nuanced look at race and policing in America On the evening of July 7, 2016, protesters gathered in cities across the nation after police shot two black men, Philando Castile and Alton Sterling. As officers patrolled a march in Dallas, a young man stepped out of an SUV wearing a bulletproof vest and carrying a high-powered rifle. He killed five officers and wounded eleven others. It fell to a small group of cops to corner the shooter inside a community college, where a fierce gun battle was followed by a stalemate. Crisis negotiator Larry Gordon, a 21-year department veteran, spent hours bonding with the gunman—over childhood ghosts and death and shared experiences of racial injustice in America—while his colleagues devised an unprecedented plan to bring the night to its dramatic end. Thompson's minute-by-minute account includes intimate portrayals of the negotiator, a surgeon who operated on the fallen officers, a mother of four shot down in the street, and the SWAT officers tasked with stopping the gunman. This is a deeply affecting story of real people navigating a terrifying crisis and a city's attempts to heal its divisions.

Infamous-Sam Crescent 2016-03-22 Chemistry "Will their romance survive when the cameras stop rolling?" Action film star Adam Feltworth's last movie flopped big time, yet he's offered one last chance to star in a romantic drama alongside the up-and-coming actress, Sara Leigh. Chemistry is Sara's opportunity to break into the mainstream spotlight. Adam has never filmed sexy scenes with a full-figured woman. But he's been warned-it's this or retirement. When Adam holds Sarah during the screen test, a spark ignites that neither expects. Now Adam has a bigger problem. Not only does he need to save his floundering career, he needs to prove to Sarah that she's the only woman he desires...both on and off the screen. Fighting For My Billionaire Boss "Love is worth the fight." My boss, Brick Armitage, is one of the most eligible bachelors in the city. He's handsome, young, and the billionaire CEO of an online company. Brick may date the most beautiful women on the planet, but I'm determined to be the next woman he kisses, touches, pleases. To land the man I love, I'll become the delicate lady he seems to prefer. No cussing. No sprawling over the furniture. No punching the pretty out of Brick's trash-talking ex. But I fail big time and the footage of my brawling goes viral. Will I lose my sophisticated billionaire forever, or will he realize a scrapper is exactly who he needs? Rush of Insanity "She won't go down without a fight...and he's looking forward to it." Harper left the world famous solo artist, Judd Hart, over a year ago. No matter how much she cared for him, their worlds were miles apart. All they shared was great sex and the ability to drive each other crazy. So why is she at his concert? Letting Harper walk out on him was the biggest mistake of Judd's life. And now that he's sighted her amongst the crowd, he won't let her run away again. Not even if it means holding her hostage on his tour bus until he can seduce some sense into her. This time, he will do whatever it takes to convince her they have a future. Wicked For You "True love awaits. Passion burns bright..." Carrick is an Alpha werewolf preparing for the annual Pack Gathering. Pack law dictates he must have a mate by his thirty-sixth year or forfeit his rule. But what if he's already found her and lost her? Can this Alpha brave a sea of single wolfy females to find the one woman who enchanted his heart? "She's a kitty girl, in a wolfy world..." Sage is the curvy owner of the Hot Whips Cafe. Bound by pack law, even as an adopted cat, she must attend the Gathering for the Alpha to select a new mate. Attending the wolf ball wouldn't normally be high on her list, but since she can't get the image of a certain amber-eyed wolf out of her head, it is tonight."

Dying in Full Detail-Jennifer Malkowski 2017-02-03 In Dying in Full Detail Jennifer Malkowski explores digital media's impact on one of documentary film's greatest taboos: the recording of death. Despite technological advances that allow for the easy creation and distribution of death footage, digital media often fail to live up to their promise to reveal the world in greater fidelity. Malkowski analyzes a wide range of death footage, from feature films about the terminally ill (Dying, Silverlake Life, Sick), to surreptitiously recorded suicides (The Bridge), to #BlackLivesMatter YouTube videos and their precursors. Contextualizing these recordings in the long history of attempts to capture the moment of death in American culture, Malkowski shows how digital media are unable to deliver death "in full detail," as its metaphysical truth remains beyond representation. Digital technology's capacity to record death does, however, provide the opportunity to politicize individual deaths through their representation. Exploring the relationships among technology, temporality, and the ethical and aesthetic debates about capturing death on video, Malkowski illuminates the key roles documentary death has played in twenty-first-century visual culture.

Expanded Cinema-Gene Youngblood 2020-03-03 Fiftieth anniversary reissue of the founding media studies book that helped establish media art as a cultural category. First published in 1970, Gene Youngblood's influential Expanded Cinema was the first serious treatment of video, computers, and holography as cinematic technologies. Long considered the bible for media artists, Youngblood's insider account of 1960s counterculture and the birth of cybernetics remains a mainstay reference in today's hypermediated digital world. This fiftieth anniversary edition includes a new Introduction by the author that offers conceptual tools for understanding the sociocultural and sociopolitical realities of our present world. A unique eyewitness account of burgeoning experimental film and the birth of video art in the late 1960s, this far-ranging study traces the evolution of cinematic language to the end of fiction, drama, and realism. Vast in scope, its prescient formulations include "the paleocybernetic age," "intermedia," the "artist as design scientist," the "artist as ecologist," "synaesthetics and kinesthetics," and "the technosphere: man/machine symbiosis." Outstanding works are analyzed in detail. Methods of production are meticulously described, including interviews with artists and technologists of the period, such as Nam June Paik, Jordan Belson, Andy Warhol, Stan Brakhage, Carolee Schneemann, Stan VanDerBeek, Les Levine, and Frank Gillette. An inspiring Introduction by the celebrated polymath and designer R. Buckminster Fuller—a perfectly cut gem of countercultural thinking in itself—places Youngblood's radical observations in comprehensive perspective. Providing an unparalleled historical documentation, Expanded Cinema clarifies a chapter of countercultural history that is still not fully represented in the arthistorical record half a century later. The book will also inspire the current generation of artists working in ever-newer expansions of the cinematic environment and will prove invaluable to all who are concerned with the technologies that are reshaping the nature of human communication.

How to Do Your Own Painting and Wallpapering-Jackson Hand 1976

White Noise-Don DeLillo 1999-06-01 A brilliant satire of mass culture and the numbing effects of technology, White Noise tells the story of Jack Gladney, a teacher of Hitler studies at a liberal arts college in Middle America. Jack and his fourth wife, Babette, bound by their love, fear of death, and four ultramodern offspring, navigate the rocky passages of family life to the background babble of brand-name consumerism. Then a lethal black chemical cloud, unleashed by an industrial accident, floats over their lives, an "airborne toxic event" that is a more urgent and visible version of the white noise engulfing the Gladneys—the radio transmissions, sirens, microwaves, and TV murmurings that constitute the music of American magic and dread.

The Denial of Death-ERNEST. BECKER 2020-03-05 Winner of the Pulitzer prize in 1974 and the culmination of a life's work, The Denial of Death is Ernest Becker's brilliant and impassioned answer to the 'why' of human existence. In bold contrast to the predominant Freudian school of thought, Becker tackles the problem of the vital lie - man's refusal to acknowledge his own mortality. The book argues that human civilisation is a defence against the knowledge that we are mortal beings. Becker states that humans live in both the physical world and a symbolic world of meaning, which is where our 'immortality project' resides. We create in order to become immortal - to become part of something we believe will last forever. In this way we hope to give our lives meaning. In The Denial of Death, Becker sheds new light on the nature of humanity and issues a call to life and its living that still resonates decades after it was written.

Wicked Things-Callie Hart 2017-06-07 "This is the reason I called her my angry girl in the first place. I was teasing her back then, but the truth of the matter is that she impressed me. She blew me away with her strength of character and her fire. She's not just angry. She's fierce. She's determined. She's strong. She's brave as f#\*\$\$. She is everything she needs to be in order to withstand being in love with a man like me, and I am eternally grateful for that fact." Zeth Mayfair is on a mission to take care of business in New York. The only problem? The Babieri family seem intent on taking care of him. Permanently. Sloane Romera's just beginning to wrap her head around the idea of being a mother. When she's shoved into the back of a black panel van without so much as the chance to scream, she finally realizes she'll do whatever it takes to protect the growing child inside her. And when Zeth finds out what's happened to his Angry Girl...  
...Seattle had better prepare for fireworks.

Male Roles, Masculinities and Violence-Expert Group Meeting on Male Roles and M 2000 This book is based on an expert group meeting entitled 'Male Roles and Masculinities in the Perspective of a Culture of Peace', which was organised by UNESCO in Oslo, Norway in 1997, the first international discussion of the connections between men and masculinity and peace and war. The group consisted of researchers, activists, policy makers and administrators and the aim of the meeting was to formulate practical suggestions for change. Chapters in the book consist of both regional case studies and social science research on the connections of traditional masculinity and patriarchy to violence and peace building. The Culture of Peace initiatives in this book show how violence is ineffective, and the book contests the views in the socialisation of boy-children that aggressiveness, violence and force are an acceptable means of expression.
