An Aviator's Field Book-Oswald Boelcke 2020-08-28 An unassuming book, still one of those which grip the reader from beginning to end. When the author started to write his daily impressions and adventures, it was to keep in touch with his people, to quiet those who feared for his safety every moment, and at the

same time to give them a clear idea of his life. Without boasting, modestly and naturally, he describes the adventures of an aviator in the great World War.

Island Tourism-Michael V. Conlin 1995-07-05 The special problems and opportunities presented by island tourism are major new areas of interest for both tourism academics and professionals, prompting much discussion and debate. This is the first book to focus on how management and organisational issues affect small islands and their tourism industries, and to examine the factors which affect tourism on small islands. International contributors, including practitioners and researchers examine this important topic and discuss a diversity of inter-related themes, including policy areas; public/private sector planning partnerships; product development; marketing; human resource management; and sustainability. These general issues are complemented with case studies which illustrate the application of island management principles. For undergraduates, graduates and professionals in the tourism field, this book is an essential guide to island tourism management.

Civilization's Crisis: A Set Of Linked Challenges-Avery John Scales 2017-04-20 Modern civilization faces a broad spectrum of daunting problems, but rational solutions are available for them all. This book explores the following issues: (1) Threats to the environment and climate change; (2) a growing population and vanishing resources; (3) the global food and refugee crisis; (4) intolerable economic inequality; (5) the threat of nuclear war; (6) the military-industrial complex; and (7) limits to growth. These problems are closely interlinked, and their possible solutions are discussed in this book. Contents: Economics, Ethics and Ecology Threats to the Environment and Climate Change Growing Population, Vanishing Resources The Global Food and Refugee Crisis Intolerable Economic Inequality The Threat of Nuclear War Facing a Set of Linked Problems Outlawing War The Evolution of Cooperation Education for Peace The Future of International Law The Choice is Ours to Make Readership: Readers interested in an overview of world issues and a brief history of their origins.

The Official History of the UK Strategic Nuclear Deterrent-Matthew Jones 2017-05-12 Volume II of The Official History of the UK Strategic Nuclear Deterrent provides an authoritative and in-depth examination of the British government's strategic nuclear policy from 1964 to 1970. Written with full access to the UK documentary record, Volume II examines the controversies that developed over nuclear policy following the arrival in office of a Labour government led by Harold Wilson in October 1964 that openly questioned the independence of the deterrent. Having decided to preserve the Polaris programme, Labour ministers were nevertheless committed not to develop another generation of nuclear weapons beyond those in the pipeline, placing major doubts over the long-term future of the nuclear programme and collaboration with the United States. Defence planners also became increasingly concerned that the deployment of Soviet anti-ballistic missile (ABM) defences around Moscow threatened to undermine the ability of Polaris to fulfil its role as a national strategic nuclear deterrent. During 1967, under heavy pressures to control defence spending, a protracted debate was conducted within Whitehall over the future of Polaris and how to respond to the evolving ABM challenge. The volume concludes with Labour's defeat at the general election of June 1970, by which time the Royal Navy had assumed the nuclear deterrent role from the RAF, and plans had already been formulated for a UK project to improve Polaris which could both ensure its continuing credibility and rejuvenate the Anglo-American nuclear relationship. This book will be of much interest to students of British politics, Cold War history, nuclear proliferation and international relations.

Leading the Unleadable-Alan Willett 2016-11-29 Is that one guy dragging you all down? The control-freak, the narcissist, the slacker, the cynic... Difficult people are the worst part of a manager's job. Whether it comes from direct reports or people above, outbursts, irrational demands, griping, and other disruptions need to be dealt with-and it's your responsibility to do it. Leading the Unleadable turns this dreaded chore into a straight forward process that gently, yet effectively, improves behaviors. Written by an insider in the tech industry, where personality issues routinely wreck projects, the book reveals a core truth: most people actually want to contribute results, not cause headaches. Once you realize the potential for change, the book's simple steps, examples, and scripts explain how to right even the most hopeless situations. You'll learn how to: \* Master the necessary mindset \* Explain the problem calmly in a short feedback

session \* Get a commitment to change, and follow up \* Coach others to replicate the process \* Develop the situational awareness required to spot trouble even earlier in the future Every manager has "problem people." What sets great managers apart is how they turn them into productive team players. Prepare to transform the troublesome into the tremendous.

Love's Encore-Sandra Brown 2014-05-06 In one reckless night, Camille Jameson's life was changed forever: a tall, handsome stranger, an evening of romance -- and enough regrets to last a lifetime. Two years later, Camille is a successful interior decorator with the opportunity to restore one of Mississippi's proudest plantations. She arrives excited and eager to face her greatest professional challenge to date -- until Zack Prescott saunters through the mansion's front door and back into her life. He is exactly as she remembers, except for the knowing look in his eyes that reminds her of what they once shared. Now, forced to live in unbearably close quarters, Camille and Zack will discover if they have the courage to face the past -- and, perhaps, build a future together . . .

Finding Our Forever-Brenda Novak 2017-04-01 New York Times bestselling author Brenda Novak welcomes readers to the town of Silver Springs, where surprises wait around every corner! The search for her birth mother brought Cora Kelly to the New Horizons Boys Ranch. Getting a job there was easy enough, but confiding in Aiyana, the ranch's owner, that she's really her daughter? Cora's not sure she can do that, not unless she's confident the news will be welcomed. And once she gets to know Elijah Turner—Aiyana's adopted son and ranch manager—that decision becomes even more difficult. Although Elijah can't deny his deep attraction to Cora, he's always struggled with trust. Anyone with his past would, and there's something about the ranch's newest employee that isn't exactly as it seems. But if the feelings she awakes in his guarded heart are any indication, she might be just what he's long been waiting for.

Macro Systems in the Social Environment-Dennis D. Long 2007 By using social-psychological literature and sociological theory to examine infancy through later adulthood, this text challenges students to probe the larger social context when viewing the complexities of human development. Long and Holle examine and emphasize the importance of organizations, communities, society, and global influences in assessing human behavior in the social environment. To facilitate the integration of theory and content, the authors use different theoretical orientations to organize the chapters. These are followed by an analysis of developmental issues, a case example, a section in which macro-level influences are highlighted, a reintegration of theory section, and suggested activities.

The Sawbones Book-Justin McElroy 2018-10-09 A compelling, often hilarious and occasionally horrifying exploration of how modern medicine came to be! Wondering whether eating powdered mummies might be just the thing to cure your ills? Tempted by those vintage ads suggesting you wear radioactive underpants for virility? Ever considered drilling a hole in your head to deal with those pesky headaches? Probably not. But for thousands of years, people have done things like this—and things that make radioactive underpants seem downright sensible! In their hit podcast, Sawbones, Sydnee and Justin McElroy breakdown the weird and wonderful way we got to modern healthcare. And some of the terrifying detours along the way. Every week, Dr. Sydnee McElroy and her husband Justin amaze, amuse, and gross out (depending on the week) hundreds of thousands of avid listeners to their podcast, Sawbones. Consistently rated a top podcast on iTunes, with over 15 million total downloads, this rollicking journey through thousands of years of medical mishaps and miracles is not only hilarious but downright educational. While you may never even consider applying boiled weasel to your forehead (once the height of sophistication when it came to headache cures), you will almost certainly face some questionable medical advice in your everyday life (we're looking at you, raw water!) and be better able to figure out if this is a miracle cure (it's not) or a scam.
