The Oxford Guide to the Romance Languages-Martin Maiden 2016-03-10 The Oxford Guide to the Romance Languages is the most exhaustive treatment of the Romance languages available today. Leading international scholars adopt a variety of theoretical frameworks and approaches to offer a detailed structural examination of all the individual Romance varieties and Romance-speaking areas, including standard, non-standard, dialectal, and regional varieties of the Old and New Worlds. The book also offers a comprehensive comparative account of major topics, issues, and case studies across different areas of the grammar of the Romance languages. The volume is organized into 10 thematic parts: Parts 1 and 2 deal with the making of the Romance languages and their typology and classification, respectively; Part 3 is devoted to individual structural overviews of Romance languages, dialects, and linguistic areas, while Part 4 provides comparative overviews of Romance phonology, morphology, syntax, semantics and pragmatics, and sociolinguistics. Chapters in Parts 5-9 examine issues in Romance phonology, morphology, syntax, syntax and semantics, and pragmatics and discourse, respectively, while the final part contains case studies of topics in the nominal group, verbal group, and the clause. The book will be an essential resource for both Romance specialists and everyone with an interest in Indo-European and comparative linguistics.

Antique Glass Bottles-Willy van den Bossche 2001 Includes examples from Great Britain, Italy, Germany, Belgium, The Netherlands, France, Spain, Portugal, Scandinavia, Austria, Switzerland and America Antique Collectors' Club is privileged to present a book written for all antique glass bottle collectors and enthusiasts. This major work is the first of its kind. It comprehensively charts the history and evolution of antique glass utility bottles between 1500 and 1850. Written by a leading collector and authority on the subject, who once worked in the bottle-making industry, this unmatched book is destined to become the indispensable reference work on this subject. An incredible visual history of the evolution of the glass bottle over a period of 350 years is presented here. The thorough text is accompanied by 368 remarkable original colour photographs of 773 bottles and seals. The author's achievement is staggering. He has succeeded in producing an accurate study of each and every main region of Europe that has produced glass utility bottles. The inter-relationships and influences are observed and a comparative guide covering almost all of the bottle-producing world has been created. In addition to this, the book boasts the most comprehensive bibliography on glass bottles ever produced, listing 1,150 titles. Almost all of the bottles illustrated in this volume have been carefully chosen from a variety of private collections. This trulymagnificent book demonstrates that collecting antique glass bottles is one of the most rewarding of all hobbies. This outstanding work will appeal to archaeologists, researchers, historians, writers, museums, libraries, bottle-makers, dealers and all others who have an interest, whether involved or remote, in collecting antiques.

Certified Nurse Educator (CNE) Review Manual-Dr. Maryann Godshall, PhD, RN, CCRN, CPN, CNE 2009-06-15 "Nurse Educators can no longer be just experts in their specific fields; they need to be able to teach a variety of students in a variety of settings. This book encompasses all topics necessary to assist nurses to become educators. I am not aware any other books that address this area so thoroughly." Score: 98, 5 stars --Doody's il truly believe that your book made it possible for me to successfully complete the CNE exam! It truly is the only book you need to pass the CNE exam - I'm living proof! Thanks so much! I learned a lot from your book and intend to keep it on my desk for future reference!í óSue Carroll, MSN, RN Sentara College of Health Sciences This is the only Certified Nurse Educator (CNE) examination prep book that addresses each of the key topics outlined in the actual NLN test blueprint. The review manual serves as an indispensable resource for novice and expert nurse educators seeking to master the content needed for CNE Certification. Each chapter contains only the most important information needed for the test, breaking each topic down into its parts to facilitate quick access to core content. No other review manual offers comprehensive coverage of everything nurse educators need to know for the CNE exam, including guidelines for classroom management, practal teaching strategies, and much more. Why you need this book: Chapter content presents nurse educator core competencies as outlined in the NLN test blueprint Features practice questions in each chapter and an answer key in the back of the book with full explanations of correct answers Includes comprehensive practice test at the end of the book, also with explanations of correct answers Contains essential information on practical teaching strategies, developing lesson plans, culturally diverse students, student evaluation, and much more This guide contains the essential knowledge that all nurse educators need to pass the test and excel in teaching, thus serving as an invaluable resource for systematic review of content before taking the NLN CNE examination.

Mapping the City-Naomi Miller 2003 The reader is invited to appreciate the importance of maps for understanding urban civilization. As a primary means of communication, maps are expressions of power and political propaganda, schemes for military operations, guides for pilgrimages, and vehicles for ideal city planning. Tied to their contexts, patrons, and creators (from Alberti to Leonardo), they reveal the history, structure and development of cities. The author further celebrates maps as works of art which not only serve practical needs but function as emblems of civic humanism.
