Mercedes W113-Myles Kornblatt 2014-04-30 In 1963 the Mercedes W113 replaced two cars: the 300 SL racing legend and the successful 190 SL. In the process, the 230/250/280 SL two-seat coupe/roadster became an icon not only by carving out the perfect niche between its two predecessors, but also by being like no other car on the road. Mercedes W113 - The Complete Story explores both the technical and social side of how this legend was born. The book covers: the W113's predecessors - the 300 SL and the 190 SL; design and development of the 230, 250 and 280 SL models, including the distinctive concave 'Pagoda' roof and the 'Californian Coupe' rear seat option; Bela Barenyi's innovations that made the 230 SL the first 'safety sports car'; rallying successes for the W113; the R107 successor, with specialist advice on 'Pagoda' restorations, and the W113 in popular culture. Mercedes SL Series-Andrew Noakes 2004-10-30 Mercedes Benz has now been manufacturing SL sports cars for fifty years, and for all that time the cars adorned with those two special letters have been admired and coveted by car lovers the world over. It all started in 1954, with the fabulous and iconic 300SL Gullwing, a road car developed directly from the stunning 300SLR racing car. Other models followed, including the more affordable 190SL, the 'Pagoda' car of the sixties and the stylish ranges of the seventies and eighties. Mercedes now use the SL tag before rather than after the numbers in the cars' designations, but the line is as strong as ever, with a magnificent new range and an SLR supercar developed with McLaren that takes the family right back to its roots.

Driving Like Crazy-P. J. O'Rourke 2010-05-11 The #1 New York Times-bestselling humorist's tribute to car travel is "a ride worth taking, even for readers who don't know an oil pan from a frying pan" (The

Washington Times). From a veteran of both Car and Driver and National Lampoon magazines, this hilarious book chronicles the golden age of the automobile in America—and takes us on a whirlwind tour of the world’s most scenic and bumpiest roads in trouble-laden cross-country treks, from a 1978 Florida-to-California escapade in a 1956 special four-door Buick sedan, to a thousand-mile effort across Mexico in the Baja 1000 in 1983, to a journey through Kyrgyzstan in 2006 on the back of a Soviet army surplus six-wheel-drive truck. For longtime fans of the celebrated humorist, the collection features a host of O’Rourke’s classic pieces on driving, including “How to Drive Fast on Drugs While Getting Your Wing-Wang Squeezed and Not Spill Your Drink,” about the potential misdeeds one might perform in the front (and back) seat of an automobile; “The Rolling Organ Donors Motorcycle Club,” which chronicles a seven-hundred-mile weekend trip through Michigan and Indiana that O’Rourke took on a Harley-Davidson; his brilliant and funny piece from Rolling Stone on NASCAR and its peculiar culture recorded during an alcohol-fueled weekend in Charlotte, North Carolina, in 1977; and an hilarious account of a ride from Islamabad to Calcutta in Land Rover’s new Discovery Trek. “Never in neutral, O’Rourke offers laughter on wheels.” —Publishers Weekly “An insightful look not just at the American love affair with cars, but also at one man’s changing outlook on life, all of it fast-paced and over the top . . . Even readers who know nothing about cars and motorcycles will appreciate the joy and hilarity of this book.” —Booklist Supercharging Performance Handbook-Jeff Hartman

The Cult of Vulgarity-Theodore Dalrymple 2014-07 In his new book, 'The Cult of Vulgarity, ' Theodore Dalrymple charts how the out-of-touch elite have been responsible for pushing a culture of vulgarity in

both the print and broadcast media, acting on the mistaken impression that they are giving the public what they want. How Georgia Became O'Keeffe-Karen Karbo 2013-04-02 Most people associate Georgia O'Keeffe with New Mexico, painted cow skulls, and her flower paintings. She was revered for so long—born in 1887, died at age ninety-eight in 1986—that we forget how young, restless, passionate, searching, striking, even fearful she once was—a dazzling, mysterious female force in bohemian New York City during its heyday. In this distinctive book, Karen Karbo cracks open the O'Keeffe icon in her characteristic style, making one of the greatest women painters in American history vital and relevant for yet another generation. She chronicles O'Keeffe's early life, her desire to be an artist, and the key moment when art became her form of self-expression. She also explores O'Keeffe's passionate love affair with master photographer Alfred Stieglitz, who took a series of 500 black-and-white photographs of O'Keeffe during the early years of their marriage. This is not a traditional biography, but rather a compelling, contemporary reassessment of the life of O'Keeffe with an eye toward understanding what we can learn from her way of being in the world.

Driven-David Kiley 2004-04-07 An exclusive look at one of the world's most successful and controversial companies, and the mysterious family behind it. BMW is arguably the most admired carmaker in the world. It's financial performance is the envy of its competitors, and BMW products inspire near-fanatical loyalty. While many carmakers struggle with falling sales, profits and market share, demand for BMWs continues to grow, frequently outpacing production. Now, David Kiley-Detroit Bureau Chief at USA Today and author of Getting the Bugs Out, which covered Volkswagen's demise and rebirth, goes inside the fabled

German automaker to see how it does what it does so well. With unprecedented access to BMW executives, Kiley goes behind the walls of BMW's famed "Four Cylinders" headquarters in Munich at a time when the company is in its most aggressive, and some say riskiest, expansion in its history and when some of the company's new products, like the 7 Series sedan and Z4 roadster, are for the first time drawing as many barbs from critics as bouquets. Kiley covers intimate details of the boardroom dramas surrounding the company's nearly disastrous acquisition and subsequent sale of the British Rover Group and its expansion into selling MINI and Rolls Royce cars. Besides being a world-class carmaker, BMW is also considered one of the smartest consumer marketing companies and Kiley explores the extraordinary value and management of the BMW brand mystique. He also takes a revealing look at the mysterious and ultra-private Quandt family of Bad Homburg Germany, which owns a controlling stake in BMW: Johanna and Susanne Quandt, two of the wealthiest women in Europe and Stefan Quandt, one of the wealthiest bachelors on the continent. David Kiley (Ann Arbor, MI) is the Detroit Bureau Chief at USA Today who has covered the auto industry for 17 years. He has been featured on Nightline, CNBC, CNN, MSNBC, NPR and the Today show. He is also the author of *Getting the Bugs Out: The Rise, Fall, and Comeback of Volkswagen in America* (0-471-26304-4), also available from Wiley.

Just Needs a Recharge-Rob Siegel 2018-04-24 Air conditioning in vintage cars often falls into disrepair, as owners figure that it never really worked all that well when it was new, and assume that rejuvenation would be prohibitively expensive. In his new book, *Just Needs a Recharge: The Hack Mechanic Guide to Vintage Air Conditioning*, Rob Siegel details exactly what's needed to resurrect long-dead air conditioning in a vintage car, or install a/c in a car that never had it. In a level of detail not found in any other

automotive a/c book, Rob reveals what you need to know about flare and o-ring fittings, upgrading to a rotary-style compressor and a parallel-flow condenser, making or specifying custom hoses, and selecting refrigerant so that the a/c blows cold enough to be usable. Although the book draws from Rob's BMW experience (with specifics for the BMW 2002 and 3.0CS), and concentrates on vintage a/c systems (those that have flare fittings and originally contained R12), most of the information applies to any air conditioning system, foreign or domestic, vintage or modern. Written in Rob's entertaining Hack Mechanic narrative voice, and including 240 photographs and illustrations, the book covers theory, the choice of refrigerant (R12, R134a, other EPA-approved, non-EPA-approved), legality, tools for a/c work, fittings and sizes, the compressor, the evaporator assembly and expansion valve or orifice tube, the condenser and fan, the receiver/drier or accumulator, electrical connections and compressor cycling, connecting and using manifold gauges, the basic steps for a/c rejuvenation, from-scratch a/c retrofit, making and installing hoses, flushing the system, pressure-testing and leak detection, evacuating and charging the system troubleshooting, and other things that heat up the cabin.
