Edwardian House-Trevor Yorke 2013 Edwardian houses, built between 1880 and 1914, remain some of our best constructed, elegant, and durable housing stock. Many were influenced by the romantic styles of Art Nouveau and the Arts and Crafts Movement. It was an age of mass production, but the pride in these homes shown by their builders is still evidenced by the dates of construction and the rural names given to them, often seen above the front door or carefully chiseled onto a plaque below the roof. This book focuses on the original exterior and interior features that would have been added by the builder but which may since have been replaced or removed. They include sash and casement windows, coloured glass, door plates and handles, letter boxes, porches, balconies, rainwater hoppers, fireplaces, stairs, wall mouldings, and fitted cupboards. A strong pride of ownership remains with today's owners. For anyone restoring features in their own Edwardian home, or who simply enjoys an admiration of period properties, then this book will be an invaluable guide. ."

The Ship of Dreams-Gareth Russell 2020-11-03 This original and "meticulously researched retelling of history's most infamous voyage" (Denise Kiernan, New York Times bestselling author) uses the sinking of the Titanic as a prism through which to examine the end of the Edwardian era and the seismic shift

modernity brought to the Western world. "While there are many Titanic books, this is one readers will consider a favorite" (Voyage). In April 1912, six notable people were among those privileged to experience the height of luxury—first class passage on "the ship of dreams," the RMS Titanic: Lucy Leslie, Countess of Rothes; son of the British Empire Tommy Andrews; American captain of industry John Thayer and his son Jack; Jewish-American immigrant Ida Straus; and American model and movie star Dorothy Gibson. Within a week of setting sail, they were all caught up in the horrifying disaster of the Titanic's sinking, one of the biggest news stories of the century. Today, we can see their stories and the Titanic's voyage as the beginning of the end of the established hierarchy of the Edwardian era. Writing in his signature elegant prose and using previously unpublished sources, deck plans, journal entries, and surviving artifacts, Gareth Russell peers through the portholes of these first-class travelers to immerse us in a time of unprecedented change in British and American history. Through their intertwining lives, he examines social, technological, political, and economic forces such as the nuances of the British class system, the explosion of competition in the shipping trade, the birth of the movie industry, the Irish Home Rule Crisis, and the Jewish-American immigrant experience while also recounting their intimate stories of bravery, tragedy, and selflessness. Lavishly illustrated with color and black and white photographs, this is "a beautiful requiem" (The Wall Street Journal) in which "readers get the story of this particular floating Tower of Babel in riveting detail, and with all the wider context they could want" (Christian Science Monitor).
