Eleven Exiles-Phyllis R. Blakeley 1982-01-01 Eleven Exiles is a personal account of the American Revolution. By focusing on eleven different people who were on the losing side of the American Revolution, and who had to make new lives for themselves in what remained of British North America. Eleven Exiles reflects the major themes of those turbulent years. What were the attitudes of these men and women toward the significant social and political ideas of the time? What motivated them to leave their home and move to a wildnerness? What challenges and hardships did they face?

Experiment Eleven-Peter Pringle 2012-05-08 In 1943, Albert Schatz, a young Rutgers College Ph.D. student, worked on a wartime project in microbiology professor Selman Waksman's lab, searching for an antibiotic to fight infections on the front lines and at home. In his eleventh experiment on a common bacterium found in farmyard soil, Schatz discovered streptomycin, the first effective cure for tuberculosis, one of the world's deadliest diseases. As director of Schatz's research, Waksman took credit for the discovery, belittled Schatz's work, and secretly enriched himself with royalties from the streptomycin patent filed by the pharmaceutical company Merck. In an unprecedented lawsuit, young Schatz sued Waksman, and was awarded the title of "co-discoverer" and a share of the royalties. But two years later, Professor Waksman alone was awarded the Nobel Prize. Schatz disappeared into academic obscurity. For the first time, acclaimed author and journalist Peter Pringle unravels the intrigues behind one of the most important discoveries in the history of medicine. The story unfolds on a tiny college campus in New Jersey, but its repercussions spread worldwide. The streptomycin patent was a breakthrough for the drug companies, overturning patent limits on products of nature and paving the way for today's biotech world. As dozens more antibiotics were found, many from the same family as streptomycin, the drug companies created oligopolies and reaped big profits. Pringle uses firsthand accounts and archives in the United States and Europe to reveal the intensely human story behind the discovery that started a revolution in the treatment of infectious diseases and shaped the future of Big Pharma.

Frantic Francis-Brett Perkins 2010-03-04 This book tells the little-known story of the man who forever changed the way football is played--and whose coaching lineage can be traced to such current names as Bill Walsh, Al Davis, and Mike Holmgren. Frantic Francis offers an unforgettable portrait of an eccentric character whose paranoid, manic, brusque, and profane ways shocked and confused even his players, but whose speedy, deceptive, and imaginative plays remade the sport of football. Although Schmidt's mania eventually sabotaged his career, his legacy was secure and the style he introduced continues to make football one of the most p.

Eleven More American Women Poets in the 21st Century-Claudia Rankine 2012-02-21 Eleven More American Women Poets in the 21st Century is an exciting sequel to its predecessors in the American Poets in the 21st Century series. Like the earlier anthologies, this volume includes generous selections of poetry by some of the best poets of our time as well as illuminating poetics statements and incisive essays on their work. This unique organization makes these books invaluable teaching tools. Broadening the lens through which we look at contemporary poetry, this new volume extends its geographical net by including Caribbean and Canadian poets. Representing three generations of women writers, among the insightful pieces included in this volume are essays by Karla Kelsey on Mary Jo Bang's modes of artifice, Christine Hume on Carla Harryman's kinds of listening, Dawn Lundy Martin on M. NourbeSe Phillip (for whom "english / is a foreign anguish"), and Sina Queyras on Lisa Robertson's confoundingly beautiful surfaces. A companion web site will present audio of each poet's work.

Out of the Mouths of Babes-Thomas A. Robinson 2011-07-01 The 1920s saw one of the most striking revolutions in manners and morals to have marked North American society, affecting almost every aspect of life, from dress and drink to sex and salvation. Protestant Christianity was being torn apart by a heated controversy between traditionalists and the modernists, as they sought to determine how much their beliefs and practices should be altered by scientific study and more secular attitudes. Out of the controversy arose the Fundamentalist movement, which has become a powerful force in twentieth-century America. During this decade, hundreds (and perhaps thousands) of young girl preachers, some not even school age, joined the conservative Christian cause, proclaiming traditional values and condemning modern experiments with the new morality. Some of the girls drew crowds into the thousands. But the stage these girls gained went far beyond the revivalist platform. The girl evangelist phenomenon was recognized in the wider society as well, and the contrast to the flapper worked well for the press and the public. Girl evangelists stood out as the counter-type of the flapper, who had come to define the modern girl. The striking contrast these girls offered to the racy flapper and to modern culture generally made girl evangelists a convenient and effective tool for conservative and revivalist Christianity, a tool which was used by their adherents in the clash of cultures that marked the 1920s.

Myanmar's Transition-Nick Cheesman 2012 With the world watching closely, Myanmar began a process of political, administrative and institutional transition from 30 January 2011. After convening the parliament, elected in November 2010, the former military regime transferred power to a new government headed by former Prime Minister (and retired general), U Thein Sein. With parliamentary processes restored in Myanmar's new capital of Naypyitaw, Thein Sein's government announced a wide-ranging reform agenda, and began releasing political prisoners and easing press censorship. Pivotal meetings between Thein Sein and Aung San Suu Kyi led to amendment of the Election Law and the National League for Democracy contesting by-elections in April 2012. The 2011 Myanmar/Burma update conference considered the openings offered by these political changes and media reforms and the potential opportunities for international assistance. Obstacles covered include impediments to the rule of law, the continuation of human rights abuses, the impunity of the Army, and the failure to end ethnic insurgency.

The Black Press in the Middle West, 1865-1985-Henry Lewis Suggs 1996 The first Black newspaper in America, Freedom's Journal appeared in 1827 and in its first editorial, it outlined an objective that is symbolic of the Black press in the Middle West: "We wish to plead our cause. Too long have others spoken for us." In this, the first comprehensive examination of the Black press in the Middle West, Suggs and his expert contributors rewrite the history of the Middle West and prove that Blacks were not only present, but that they helped to shape the history, character, and political agenda of the region.
