BASIC FINANCIAL ACCOUNTING (MCQ & A)-Toye Adelaja

Financial Accounting (For NEHU)-Sehgal Deepak This book presents the subject matter tailor-made for the latest syllabus of North-Eastern Hill University (NEHU) to enable its students to study the course material through a single book without having to refer to multiple sources and comprehend the subject in simple, understandable language. Key Features • Covers the syllabus of NEHU in toto • Designed on the DIYA (Do-It-Yourself-Approach) • Includes pedagogical elements like Review Questions, Practical Problems with Answers, True/False Questions and Illustrations • Includes previous year's question paper Questions, Exercises and Problems in Financial Accounting-D. L. Kolitz 2010-06 Divided into a selection of questions, exercises, and problems, this workbook will help keep accountants on top of current international economic affairs. The questions are multiple-choice and ensure understanding of a topic before moving onto the exercises and problems. The exercises can be used to develop proficiency in a topic where students are expected to reach the standard of the problems, and the problems are longer and more complex in nature, requiring an in-depth understanding of the topic. Combined, this complete approach provides a full view of the up-to-date requirements of the International Financial Reporting Standards.

Financial Accounting with International Financial Reporting Standards-Jerry J. Weygandt 2018-07-18

While there is growing interest in IFRS within the US, interest outside the US has exploded. Weygandt's fourth edition of Financial Accounting: IFRS highlights the integration of more US GAAP rules, a desired feature as more foreign companies find the United States to be their largest market. The highly anticipated new edition retains each of the key features (e.g. TOC, writing style, pedagogy, robust EOC) on which users of Weygandt Financial have come to rely, while putting the focus on international companies/examples, discussing financial accounting principles and procedures within the context of IFRS, and providing EOC exercises and problems that present students with foreign currency examples instead of solely U.S. dollars.

Quick Revision for Financial Accounting (For ICWA Intermediate: Paper 5)-Tulsian P.C. & Tulsian Bharat

2016 Tulsian's Quick Revision for Financial Accounting is a self-study handbook. Loaded with practical questions, this book is a perfect revision text - comprises structured questions based on pattern and scheme adopted in examinations.

Financial Accounting-Paul D. Kimmel 2010-10-25 This successful book continues to provide accountants with an understanding of the fundamental concepts necessary to use accounting effectively. The sixth edition offers new discussions on IFRS, including new codification numbers, examples of IFRS financial statements, and additional exercises. A look at more recent frauds such as the Bernie Madoff scandal have been added. Enhanced discussions of ethics and international accounting are presented. The coverage of non-cash items and their impact on decision making has been expanded. In addition, comprehensive case studies and problems help accountants tie the material together.

ACCA Paper F3 - Financial Accounting (INT) Study Text-BPP Learning Media 2009-07-01 The examiner has reviewed the Study Text, which concentrates on the key areas of the syllabus and takes account of the examiner's guidance on how topics will be examined. It includes a step-by-step approach to topics that students may find difficult, such as control account reconciliations and suspense accounts. There are lots of examples and questions in each chapter to help you practise the techniques.

Financial Accounting-David J. Spiceland 2013-09-06 Course: The financial accounting course is taken by all business majors, usually in their sophomore year. Financial accounting reports summarize the financial health, operating results, and changes in financial status for a business as viewed over a specific period of time. This information is used by outside parties such as stockholders, creditors, prospective investors, regulatory agencies, and the general public. The financial accounting market can be segmented into three categories: preparer (traditional), balanced, and user (innovative). Spiceland/Thomas/Herrmann falls into the balanced segment by offering a balance between the user and preparer orientation. The decision maker's perspective used throughout the book competes directly with Kimmel's pedagogical approach. Financial Accounting has been revised based on the great success of Financial Accounting 2e, Spiceland, Thomas, Herrmann. The content was developed with feedback from over 480 reviewers and focus group participants from across the country. The authors, David Spiceland, Wayne Thomas and Don Herrmann, have developed a unique text based on over 50 collective years of experience in the classroom. They've brought together best practices like highlighting Common Mistakes, offering frequent Let's Review exercises, integrating the course with a running Continuing Problem, demonstrating the relevance of the course to non-majors with a Career Corner, and communicating it all in a student-friendly Conversational Writing Style.

Accountants' Handbook, Volume 1-D. R. Carmichael 2007-06-04 This highly regarded reference is relied on by a considerable part of the accounting profession in their day-to-day work. This handbook is the first place many accountants look to find answers to practice questions. Its comprehensive scope is widely recognized and relied on. It is designed as a single reference source that provides answers to all reasonable questions on accounting and financial reporting asked by accountants, auditors, bankers, lawyers, financial analysts, and other preparers and users of accounting information.

Management Acc, 5E-Khan & Jain 2010

Accounting:Introduction to Financial Accounting-Henry Dauderis 2015-08-27 This text is intended for a first course in introductory financial accounting. It was updated to reflect current International Financial Reporting Standards (IFRS). For example, it reflects the recent change in IAS38, para. 98, allowing the use of multiple methods in amortizing intangible assets. It focuses on core Introductory Financial Accounting topics that match pre-requisite requirements for students advancing to Intermediate Financial Accounting. Excluded are advanced topics that are covered in Intermediate Financial Accounting, such as leases and bond amortization. The text takes a corporate approach (vs. beginning with a sole proprietorship emphasis and then converting to a corporate approach); this consistency throughout the book reduces confusion for the introductory student. The book covers all essential topics: the accounting cycle, merchandising, assigning costs to inventory, cash and receivables, property, plant and equipment, debt financing, equity financing, statement of cash flows, financial statement analysis, and proprietorships and partnerships. Additionally, this version of the open text is supported by Lyryx Learning, offering at an affordable price editorial services to develop and adapt the content, formative online assessment, course supplements, and daily support to both the students and instructors.
