Armed Security Guard Training Manual-Bernard Martinage 2014-06-01 All states have different regulations, laws, licensing and requirements for security guards. This is especially true regarding the use of deadly force, power of detain, arrest and many other legal aspects of being a security guard. It is the responsibility of the school, instructor, to know the laws relating to security guard activities for the State, County or City in which they train, and for which they train. These laws and regulations are easy to find and free to print because they are of the public domain. While all states may have different laws, almost all states includes in their armed security guard training and educational requirements firearm knowledge and technical skills so the armed security guard can effectively use a firearm in the defense of self and others. This Armed Security Guard Training Manual was developed to meet the most stringent standard. It represents 40 hours of study materials,. It also includes 10 hours legal section that discusses Weapons and Firearms and the use of deadly force. These 10 hours of the curriculum are modeled after Florida laws, which regulates heavily security guard activities. This section constitutes an excellent moral guideline to work from, BUT, it is your responsibility to research and teach the law of your state, county, city, as well as ensure that you take the steps you need to meet your state's licensing requirements, if there are any. Last but not least, this kit, as you see it, is what we use every day to train our pupils at Safe N Secure.

The Universal Self-instructor and Manual of General Reference-Albert Ellery Berg 1883 "The Universal self-instructor is nothing less than it pretends to be: an Epitome of Forms, especially adapted for purposes of self-instruction and general reference in the various departments of Education, Commerce, Law, Home, Society, and Amusements. Every young man and young woman ; every business man, farmer, and mechanic ; every housewife and lady of society ;--in fact every intelligent member of the community should have it within reach for consultation on those numerous minor matters that a well-educated person is supposed to know. The Reading Public has been amply supplied for years with reference books of every description, but the present volume may be said to occupy a field peculiarly its own, as the people have never before been furnished with a publication embracing in a single volume such a quantity of practical information, and treating the wants of every-day life in a lucid, instructive and agreeable manner. Such articles as Elocution, Penmanship, Book-keeping, Letter-writing, Mercantile Law, Music, Stenography, Phrenology, Agriculture, Social Etiquette, Out-door Sports, In-door Amusements, Physical Culture, The Domestic Circle, Household Receipts, Parliamentary Law, etc., have been prepared by writers of reputation and large experience in the special subjects given them for treatment"--Preface.
