The South African Law of Persons and Family Law-A. H. Barnard 1986-01-01

The Day the Cowboys Quit-Elmer Kelton 1999-04-15 The conflict between the Eastern investor and the Yankee character results in the 1883 West Texas cowboy strike

An Introduction to African Philosophy-Sam O. Imbo 1998-03-26 Organized topically rather than historically, this book provides an excellent introduction to the subject of African Philosophy. Samuel Oluoch Imbo synthesizes the ideas of key African philosophers into an accessible narrative. The author focuses on five central questions: What are the definitions of African philosophy? Is ethno-philosophy really philosophy? What are the dangers of an African philosophy that claims to be 'unique'? Can African philosophy be done in foreign languages such as English and French? Are there useful ways to make connections between African philosophy, African American philosophy, and women's studies? By making cross-disciplinary and transnational connections, Imbo stakes out an important place for African philosophy. Imbo's book is an invaluable introduction to this dynamic and growing area of study.

Entrepreneurial Law-George W. Kunev 2019-05-27 This text is designed to provide insight into the transactional legal needs of the entrepreneur. It is written to provide both business and law students with a foundational understanding of the doctrinal areas of the law that impact the entrepreneurial endeavor.

Substantively, coverage begins with taking the entrepreneur from the initial business plan through choice of business entity and corporate governance considerations. It then moves to address the use, analysis, and drafting of transactional documents typically used in the conduct of business. This is followed by chapters covering applied intellectual property law and protection of intellectual property. Coverage concludes with a focus on methods of financing the business entity.

Islamic Marriages and Related Matters-South African Law Commission 2001

Introduction to Law-Henry R. Cheeseman 2005 This complete introduction to law places emphasis on ethics and international issues, showing readers how to engage in ethical, analytical reasoning with every topic from legal fundamentals to areas of substantive law. The features of this book encourage readers to apply critical thinking, organizational and summation skills, and legal research tools to solve specific legal problems. The American court system, criminal law and ethics, contracts and E-Commerce, family law, real and personal property, agency, employment, and equal opportunity law, intellectual property and internet law, and administrative law, consumer, investor, and environmental protection. For paralegals, legal assistants, lawyers, and all legal professionals.

Citizen Participation and Democratic Governance, in Our Hands-Rajesh Tandon 2007 Contributed articles with special reference to India..

Interpretation Of Statutes-Kafaltiya A.B. 2008

Research Methods for Law-Mike McConville 2017-01-18 Introduces students to legalistic, theoretical, empirical, comparative and cross-disciplinary research methods, grounded in working examples New for this edition New chapter on inter- and cross-disciplinary research essential reading for international students and students with a non-law first degree undertaking research in the areas of law, criminology, psychology and sociology Research ethics has been expanded to a full chapter that includes current plagiarism and imperfect disclosure Brings existing chapters up to date with the newest thinking in legal research Drawing on actual research projects, Research Methods for Law discusses how legal research as process impacts on research as product. The author team has a broad range of teaching and research experience in law, criminal justice and socio-legal studies, and give examples from real-life research products to illustrate the theory.

New Entrepreneurial Law-Piet A. Delpont 2014

Historical Foundations of South African Private Law-Ph. J. Thomas 1998

Environmental Engineering IV-Artur Pawlowski 2013-05-21 Environmental engineering has a leading role in the elimination of ecological threats, and deals, in brief, with securing technically the conditions which create a safe environment for mankind to live in. Due to its interdisciplinary character it can deal with a wide range of technical and technological problems. Since environmental engineering uses the knowledge of the basic sciences - biology, chemistry, biochemistry and physics - it is able to neutralise pollution in all the elements of the environment, i.e. the hydrosphere, atmosphere and lithosphere. Moreover, environmental engineering deals with the design and maintenance of systems of water supply, sewage disposal, heating, ventilation and air-conditioning in buildings. Environmental Engineering IV contains 77 peer reviewed papers selected from 527 presented at the 4th Congress of Environmental Engineering (Lublin, Poland, 2-5 September 2012). The contributions are divided into 7 chapters: • Water supply • Water and wastewater treatment • Neutralization of solid wastes and sludge • Air protection and quality • Indoor microclimate • Energy • Biology and technology Environmental Engineering IV assesses the state of scientific research in various areas of environmental engineering, evaluates the organizational, technical and technological progress made in contributing to ecological security, and determines the place of environmental engineering in sustainable development, taking into account current political and economic conditions, and is a valuable source of information for the environmental engineering professional and academic community.

The Mexican American Heritage-Carlos M. Jimenez 1997-05-01 A fresh & comprehensive look at Mexican history, will be found in this text filled with extensive writing exercises. The Mexican-American Heritage encompasses tens of thousands of years, from the prehistoric native people, to the extremely advanced civilizations of the Aztecs, Toltecs & Mayans; to the times of Cesar Chavez' farmworker movement, & the struggle of Mexican-Americans as they fight for a better life. An excellent way to understand the Mexican-American heritage.

Capital Structure and Corporate Governance-Lorenzo Sasso 2013-08-01 Despite a clear distinction in law between equity and debt, the results of such a categorization can be misleading. The growth of financial innovation in recent decades necessitates the allocation of control and cash-flow rights in a way that diverges from the classic understanding. Some of the financial instruments issued by companies, so-called hybrid instruments, fall into a grey area between debt and equity, forcing regulators to look beyond the legal form of an instrument to its practical substance. This innovative study, by emphasizing the agency relations and the property law claims embedded in the use of such unconventional instruments, analyses and discusses the governance regulation of hybrids in a way that is primarily functional, departing from more common approaches that focus on tax advantages and internal corporate control. The author assesses the role of hybrid instruments in the modern company, unveiling the costs and benefits of issuing these securities, recognizing and categorizing the different problem fields in which hybrids play an important role, and identifying legal and contracting solutions to governance and finance problems. The full-scale analysis compares the U.K. law dealing with hybrid instruments with the corresponding law of the most relevant U.S. jurisdictions in relation to company law. The following issues, among many others, are raised: decisions under uncertainty when the risks of opportunism of the parties is very high; contract incompleteness and ex post conflicts; protection of convertible bondholders in mergers and acquisitions and in assets disposal; use of convertible bonds to reorganise and restructure a firm; timing of the conversion and the issuer's call option; majority-minority conflict in venture capital financing; duty of loyalty; fiduciary duties to preference shareholders; and financial contract design for controlling the board's power in exit events. Throughout, the analysis includes discussion, comparison, and evaluation of statutory provisions, existing legal standards, and strategies for protection. It is unlikely that a more thorough or informative account exists of the complex regulatory problems created by hybrid financial instruments and of the different ways in which regulatory regimes have responded to the problems they raise. Because business parties in these jurisdictions have a lot of scope and a strong incentive to contract for their rights, this book will also be of uncommon practical value to corporate counsel and financial regulators as well as to interested academics.

Comparative Administrative Law-René Seerden 2018-01-31 Previous edition: Third edition, copyright 2012.

Social Dimensions of Law and Justice-Julius Stone 1966

WJEC Level 3 Applied Certificate and Diploma Criminology: Study and Revision Guide-CAROLE A. NEASHAM HENDERSON (LAURA.) 2019-02-05

The Law of Business Structures-Farouk H. I. Cassim 2013 The law of business structures provides a comprehensive but simplified treatment of the different types of business structures in South African law. The book examines the law of partnerships, business trusts, close corporations and companies, whether large

or small, and whether formed for a profit-making or a non-profit-making objective. The chapters on company law provide a detailed discussion and explanation of core company law topics. Discussions of modern corporate governance best practices, insider trading and market manipulation are also included. Excessive theoretical analysis has been avoided, but important legal concepts and principles are nevertheless carefully explained and analysed. Case law and references to legislation have been kept to a minimum, but discussions of the important cases and relevant legislation are included.--Résumé de l'éditeur.

Statutory Interpretation-Christo J. Botha 1998

Textbook on Administrative Law-Peter Leyland 2012-09-20 The seventh edition of Textbook on Administrative Law continues to provide students with an accessible and stimulating guide to the subject. Practical in approach, the authors concentrate on fully analysing core topics, while at the same time setting them within a contextual and thematic framework.

A Theory of Minimalism-Marc Botha 2017-10-19 The explosion of minimalism into the worlds of visual arts, music and literature in the mid-to-late twentieth century presents one of the most radical and decisive revolutions in aesthetic history. Detested by some, embraced by others, minimalism's influence was immediate, pervasive and lasting, significantly changing the way we hear music, see art and read literature. In *The Theory of Minimalism*, Marc Botha offers the first general theory of minimalism, equally applicable to literature, the visual arts and music. He argues that minimalism establishes an aesthetic paradigm for rethinking realism in genuinely radical terms. In dialogue with thinkers from both the analytic and continental traditions - including Kant, Danto, Agamben, Badiou and Meillassoux - Botha develops a constellation of concepts which together encapsulate the transhistorical and transdisciplinary reach of minimalism. Illustrated by a range of historical, canonical and contemporary minimalist works of different media, from the caves of early Christian ascetics to Samuel Beckett's late prose, Botha offers a bold and provocative argument which will equip readers with the tools to engage critically with past, present and future minimalism, and to recognize how, in a culture caught between the poles of excess and austerity, minimalism still matters.

Corporate Citizenship-Alfred Bimha 2017-01-15 Corporate citizenship is a prominent international issue as contemporary corporations are no longer expected to perform financially, but are also expected to have an ethical relationship of responsibility between the corporate itself and the society in which it operates and performs its business activities. Provides an up-to-date theoretical content pertaining to corporate citizenship, providing local and global examples and case studies.

Administrative Law and Judicial Deference-Matthew Lewans 2016-01-28 In recent years, the question whether judges should defer to administrative decisions has attracted considerable interest amongst public lawyers throughout the common law world. This book examines how the common law of judicial review has responded to the development of the administrative state in three different common law jurisdictions - the United Kingdom, the United States of America and Canada - over the past 100 years. This comparison demonstrates that the idea of judicial deference is a valuable feature of modern administrative law, because it gives lawyers and judges practical guidance on how to negotiate the constitutional tension between the democratic legitimacy of the administrative state and the judicial role in maintaining the rule of law.

Essentials of Marketing-Annekie Brink 2004 Innovative and up-to-date marketing strategies are presented in rich detail in this new edition of a successful text. The finer points of consumer behavior, product placement, and integrated marketing are discussed and illustrated with examples drawn on practical workplace experience.

Modern Romance Literatures- 1967

Language Origin: A Multidisciplinary Approach-Jan Wind 2013-03-09 *Language Origin: A Multidisciplinary Approach* presents a synthesis of viewpoints and data on linguistic, psychological, anatomical and behavioral studies on living species of Primates and provides a comparative framework for the evaluation of paleoanthropological studies. This double endeavor makes it possible to direct new research on the nature and evolution of human language and cognition. The book is directed to students of linguistics, biology, anthropology, anatomy, physiology, neurology, psychology, archeology, paleontology, and other related fields. A better understanding of speech pathology may stem from a better understanding of the relationship of human communication to the evolution of our species. The book is conceived as a timely contribution to such knowledge since it allows, for the first time, a systematic assessment of the origins of human language from a comprehensive array of scientific viewpoints.

Strategic Management: Concepts-Frank Rothaermel 2016-01-15

Administrative Justice in South Africa-Michael Kidd 2015 *Administrative Justice in South Africa: An Introduction* offers a clear, comprehensive and practical explanation of administrative justice in South Africa, and includes discussion of the important process of judicial review. Practical in its approach, the text provides valuable focus on the application of principles to case law, problem-solving methodology, and specific procedural aspects of administrative justice. The text offers a clear pedagogical framework which develops independent, critical and reflective engagement with the subject matter. A strong conceptual and enquiring approach enriches knowledge, and engages readers in an interactive, topical and challenging manner. Additional educational resources support teaching, further assisting students to develop the academic skills required to master their studies. *Administrative Justice in South Africa: An Introduction* is suited as core course material for students who are studying administrative law as a module of the LLB degree. It is also a useful resource for legal practitioners who may wish to engage with foundational and current principles of the field.

Reflective Public Administration-J. S. Wessels 2014

Communication and Media Ethics-Patrick Lee Plaisance 2018-09-10 Ethics in communication and media has arguably reached a pivotal stage of maturity in the last decade, moving from disparate lines of inquiry to a theory-driven, interdisciplinary field presenting normative frameworks and philosophical explications for communicative practices. The intent of this volume is to present this maturation, to reflect the vibrant state of ethics theorizing and to illuminate promising pathways for future research.

Gray's Anatomy for Students E-Book-Richard Drake 2009-04-04 It didn't take long for students around the world to realize that anatomy texts just don't get any better than *Gray's Anatomy for Students*. Only in its 2nd edition, this already popular, clinically focused reference has moved far ahead of the competition and is highly recommended by anyone who uses it. A team of authors with a wealth of diverse teaching and clinical experience has updated and revised this new edition to efficiently cover what you're learning in contemporary anatomy classes. An improved format, updated clinical material, and remarkable artwork by renowned illustrators Richard Tibbitts and Paul Richardson make anatomy easier than ever for you to master. Unique coverage of surface anatomy, correlative diagnostic images, and clinical case studies demonstrate practical applications of anatomical concepts. And, an international advisory board, comprised of more than 100 instructors, ensures that the material is accurate, up to date, and easy to use. Uses more than 1,000 innovative original illustrations— by renowned illustrators Richard Tibbitts and Paul Richardson—to capture anatomical features with unrivalled clarity, and makes body structures easy to locate and remember from one illustration to another through consistent use of color. Includes over 300 clinical photographs, including radiological images depicting surface anatomy and common clinical applications of anatomic knowledge. Presents an organization by body region that parallels the approach used in most of today's anatomy courses. Features conceptual overviews summarizing each body region's component parts, functions, and relationship to other bodily organs. Uses clinical cases to underscore the real-life relevance of the material. Features a rewritten abdomen section for greater clarity. Provides updates and revisions to clinical material to provide you with the absolute latest knowledge in the field. Includes expanded discussions of cranial nerves for added clinical relevancy. Uses a new internal design and presents an improved index for easier retrieval of information. Provides more information on the general aspects of anatomy via introduction chapter.

The Road to Mecca-Athol Fugard 1993-01-01 A South African pastor and a young teacher from Cape Town battle over the fate of an eccentric elderly widow.

The Dream House-Craig Higginson 2016-04 A farmhouse is being reproduced a dozen times, with slight variations, throughout a valley. Three small graves have been dug in the front garden, the middle one lying empty. A woman in a wheelchair sorts through boxes while her husband clammers around the old demolished buildings, wondering where the animals have gone. A young woman - called 'the barren one' behind her back - dreams of love, while an ageing headmaster contemplates the end of his life. At the entrance to the long dirt driveway, a car appears and pauses - pointed towards the house like a silver bullet, ticking with heat. So begins *The Dream House*, Craig Higginson's riveting and unforgettable novel set in the Midlands of KwaZulu-Natal. Written with dark wit, a stark poetic style and extraordinary tenderness, this is a story about the state of a nation and a deep meditation on memory, ageing, meaning, family, love and loss. This updated 2016 edition contains new content, with Craig Higginson exploring the background to *The Dream House*, his varied experiences in a farmhouse in KwaZulu-Natal and the subsequent and poignant motivations for this moving novel.

Applied Sport Psychology-Jean Williams 2014-02-14 *Applied Sport Psychology* was written to introduce readers to psychological theories and techniques that can be used to enhance performance and personal growth of sport participants from youth to elite levels. The four-part organization covers learning, motivation, and social interaction; mental training for performance enhancement; implementing training programs; and enhancing health and well-being. This edition reflects the latest research, practice, and anecdotal examples in applied sport psychology. *Applied Sport Psychology* is particularly well suited as a text for classes in applied sport psychology and psychology of coaching. The book is also a valuable reference for practicing coaches, sport psychologists, and psychologists.

Introduction to Law-Joanne Banker Hames 1998 Appropriate for courses in Introduction to Law, Introduction to American Law, and Introduction to Paralegalism, this book provides students with an introduction to law. It explains the basics of the US legal system, focuses on organization and operation, and introduces students to the major areas of law practice and legal principles that apply.
