Hunter of Dreams-Steven Duff 2002 Hunter of Dreams is the story of the so-called Underground Railroad, the escape route to Canada of American slaves in the 1850s and early '60s. The driving force behind Canadian involvement was Dr. Alexander Milton Ross of Belleville, Ontario, an extraordinary character, but one relatively unknown except to historians specializing in his era. Alexander Ross travelled in the Deep South, using his background in ornithology as a pretense at doing research. In reality, he was alerting slaves to the existence of the Underground Railroad and in the process, faced a number of dangerous situations. As well, he was involved on the fringes of John Brown's famous raid on Harpers Ferry. His work brought him to the attention of Abraham Lincoln, who commissioned him as a special agent to monitor the Confederate activities in Canada during the Civil War. Ross's work, declared Lincoln, shortened the Civil War by the better part of a year. Hunter of Dreamsreveals the story of the relatively unknown Alexander Ross, based on his own memoirs and contemporary magazine and newspaper articles; it is cast as a novel, told through James Ramsay, an imaginary friend of Dr. Ross's.

Jamie's America-Jamie Oliver 2010-10-05 The incredible diversity in American cooking was a real revelation to me. So although I went looking for "quintessential American food," my conclusion is that there is no such thing; instead there's a huge wealth of seriously exciting dishes. Many of us outside of America may think we already know all there is to know about it from movies or the occasional holiday, but the truth is that this doesn't even scratch the surface. In many ways, the country is still a bit of a mystery to us. This trip was my chance to explore the ingredients, food culture, and traditions within this incredible country. I felt that I knew cities like New York and Los Angeles pretty well, but this time I ventured beyond the neighborhoods I was familiar with and into areas better known for their immigrant communities. I was rewarded with some of the most incredible food I've ever tasted. The story was the same when I moved beyond the big cities. Whether it was Creole cooking in Louisiana or soul food in Georgia, the Mexican influences in Arizona or the hearty cowboy cuisine of Big Sky Country, every place I went had its unique treasures. I came back with more recipes than I knew what to do with, and although it was tough, I managed to narrow this book down to 120 of my absolute favorites. These are my takes on some of the best food I came across, as well as a few things I made up along the way. I hope you enjoy them, and maybe even discover new and inspiring sides to America you've never seen before. Enjoy!
