The addictiveness of Breakout. The intensity of Space Invaders. Once upon a time, you could only experience this kind of excitement at the arcade. But in 1977 that changed forever. You, and maybe a friend or a sibling, could instantly teleport from your own living room to a dazzling new world—with nothing more than a small plastic cartridge. This was the promise of the Atari 2600—and it was delivered in ways no one ever expected. No, the games it put on your TV weren’t what you saw when you plunked in your quarters at the convenience store or in the noisy, smoky business on the other side of town. But they brought the arcade home—and it hasn’t left since. With Adventure: The Atari 2600 at the Dawn of Console Gaming, Jamie Lendino takes you to the front lines of the home gaming revolution, exploring the history of the world-changing console and delves into the coin-op ports and original titles that still influence gaming today. Before your next trip to a magical universe with your Xbox One, PlayStation 4, or Nintendo Switch, see how the home gaming industry truly began. Keeping Records and Budgets-Ruth Bradley 2010-06-01 Trace Elements in Obstetrics and Gynecology-Naira Roland Matevosyan, Dr 2013-02-10 A trace element (TE) is a chemical element presented below ~0.1 wt. % and required in minute quantities to maintain proper physical functioning. TE analysis in clinical samples (plasma, urine, cerebro-spinal fluid, full-term placenta, hair, nails, buccal mucosa, semen, biopsy specimens) has received increasing attention. Based on 62 sources, current effort presents comparative knowledge about the attempts to accurately trace TE in clinical samples through Vis/NIR, PIXE, TXRF, GFAAS, ICP-MS. It informs the need for further research adjustments to reveal the reciprocal states of certain TE (Cu/Zn, Ca/Mg, Fe/ Pb) in correlation with their real-time counts in both maternal and neonatal umbilical cord plasma, and in relation to augmented oxidative stress. This would help to achieve consistency in interpreting obstetrical complications (preeclampsia, prematurity, or gestational diabetes). Generated hypotheses should target plausible mechanisms behind TE alterations and their stage-sensitive measures in gynecological cancer. New prospects are discussed in management and prognosis of endometriosis and premature ovarian failure (POF). Braxton Bragg-Earl J. Hess 2016-09-02 As a leading Confederate general, Braxton Bragg (1817-1876) earned a reputation for incompetence, for wantonly shooting his own soldiers, and for losing battles. This public image established him not only as a scapegoat for the South’s military failures but also as the chief whipping boy of the Confederacy. The strongly negative opinions of Bragg's contemporaries have continued to color assessments of the general's military career and character by generations of historians. Rather than take these assessments at face value, Earl J. Hess's biography offers a much more balanced account of Bragg, the man and the officer. While Hess analyzes Bragg's many campaigns and battles, he also emphasizes how his contemporaries viewed his successes and failures and how these reactions affected Bragg both personally and professionally. The testimony and opinions of other members of the Confederate army—including Bragg's superiors, his fellow generals, and his subordinates--reveal how the general became a symbol for the larger military failures that undid the Confederacy. By connecting the general's personal life to his military career, Hess positions Bragg as a figure saddled with unwarranted infamy and humanizes him as a flawed yet misunderstood figure in Civil War history. Performing Nature-Gabriella Giannachi 2005 The essays in this volume explore the borderland between ecology and the arts. Nature is here read by a number of contributors as 'cultural', by others as an 'independent domain', or even as a powerful process of exchange 'between the human and the other-than-human'. The four parts of the volume reflect these different understandings of nature and performance. Informed by psychoanalysis and cultural materialism, contributors to the first part, 'Spectacle: Landscape and Subjectivity', look at ways in which particular social and scientific experiments, theatre and film productions and photography either reinforce or contest our ideas about nature and human-human or human-animal relations and identities. The second part, 'World: Hermeneutic Language and Social Ecology', investigates political protest, social practice art, acoustic ecology, dance theatre, family therapy and ritual in terms of social philosophy. Contributors to the third part, 'Environment: Immersiveness and Interactivity', explore architecture and sculpture, site-specific and mediatised dance and paratheatre through radical theories of urban and virtual space and time, or else phenomenological philosophy. The final part, 'Void: Death, Life and the Sublime', indicates the possibilities in dance, architecture and animal behaviour of a shift to an existential ontology in which nature has 'the capacity to perform itself'. Communities Dominate Brands-Tomi T. Ahonen 2005 Communities Dominate Brands: Business and marketing challenges for the 21st century is a book about how the new phenomenon of digitally connected communities are emerging as a force to counterbalance the power of the big brands and advertising. The book explores the problems faced by branding, marketing and advertising facing multiple radical changes in this decade. Communities Dominate Brands discusses how disruptive effects of digitalisation and connectedness introduce threats and opportunities. The authors compellingly illustrate how modern consumers are forming communities and peer-groups to pool their power resulting in a dramatic revolution of how businesses interact with their customers. The book provides practical guidance of how to move from obsolete interruptive advertising to interactive engagement marketing and community based communications, with dozens of real business examples from around the world. Communities Dominate Brands addresses its topic from a marketing (including advertising and branding) perspective and maintains a rigorous focus on business and profit dimensions of the issues involved.The book discusses such recent phenomena as blogging, virtual environments, mobile phone based swarming and massively multiplayer games. The book introduces a new generation of consumers called Generation-C (for Community). The book also discusses such new concepts as the Connected Age, Reachability, the Four C’s, Alpha Users, and introduces Communities as an unavoidable new element into the traditional communication model. Combining the digital trends, modern management theories, and emerging new customer behaviour, Communities Dominate Brands arrives to its conclusion, that traditional marketing methods are increasingly ineffective and even becoming counterproductive. The power of the brands and the abuses by marketing have created a vacuum for a counterbalance, and digitally connected communities, the blogosphere, gamers, and especially the always-on connectedness of those on mobile phone networks, are emerging as the counterforce to redress the balance. The power of smart mobs and digitally enlightened communities will react rapidly to marketing excesses as the natural force balancing the power of the brands.The way a business can and must interact with the powerful new communities is through engagement marketing, by enticing the communities to interact with the brands. Communities Dominate Brands covers the major changes taking place in business and industry worldwide from leading digitally connected societies such as Finland, Korea, Japan, Hong Kong, UK and the USA. The authors discuss the business relevance of such community related technologies and phenomena such as blogging, CANs, iPod, MMOGs, MVNOs, PVRs, Ringing Tones, SMS text messaging, swarming, VOD. This is the definitive business book on the impact of new technologies, not explaining how technology works, but showing what businesses need to do to make money in the new digitally converging environment. Communities Dominate Brands analyses early successes of engaging communities by global brands such as Adidas, Apple, Audi, BBC, Boeing, Coca Cola, eBay, Ford, Google, Guinness, Hush Puppies, Lonely Planet, MTV, Nokia, Orange, Philips, Red Bull, Sony, Tesco, Tony & Guy, Vodafone, etc.The lessons are amplified with insights from rough punishment by communities suffered by Hutchison/Three networks, Kryptonite locks, Mazda, the Philippines Government, etc. Fully indexed, impeccably researched with documented sources, offering over 50 current business examples and over a dozen case studies, Communities Dominate Brands is a hands-on practical business handbook on how to adjust marketing to deal with communities. With tools such as the Four C’s and Reachability, the authors provide a competitive head-start to all who want to achieve customer satisfaction and return

business in the 21st century.

Crimes of a Guilty Land-Brooke Stewart 2013-04-11 The novel 'Crimes of a Guilty Land' follows the Hart and Beauchamp families through some turbulent years of the nineteenth century. It opens in the summer of 1825 when young Roger Hart, while enjoying his first visit to the beach in Rhode Island, witnesses a tragedy. The events of that day will haunt him for the rest of his life. Many years later, just prior to the Civil War, Roger Hart becomes involved in a risky undertaking to begin to teach the children of slave families in Virginia. That experience leads him to Harpers Ferry and the disastrous John Brown raid on the US Armory in 1859. There he meets the Beauchamp family who became involved in the John Brown affair with tragic results. The Hart and Beauchamp families find themselves bound together with romance and violence as the Civil War devastates the town of Harpers Ferry and as family members find themselves caught up in the Petersbug Battle of the Crater. Both of the families also become involved with a freed slave family that includes a young boy named Brownie. Ten years after the war, Roger finds himself describing all of those events to a curious Brownie. Brownie is anxious to hear his family's story while Hart is determined to pass on to the boy a sense of goodness and a respect for tolerance along with the need for an education. Hart succeeds, and Brownie grows to become a highly regarded teacher. The reader first meets Brownie as he looks back on his life. It is 1941 and America is at war again. But for Brownie, now a retired teacher in West Virginia, an old struggle is still being waged in this country as he witnesses the continued indignity and cruelty of segregation. A moment of violence causes him to reflect on his own life experience and he is drawn to write down his remembrances of his family's involvement in the struggles during the final years of slavery, the John Brown raid at Harpers Ferry, and then the Civil War and its aftermath. He reflects on how his family has experienced drama and tragedy as well as romance and humor during encounters with intolerance - including racial, religious and economic. Brownie recalls the last words of John Brown as he went to the executioner's gallows. Brown wrote on a slip of paper that "...the crimes of this guilty land will never be purged away but with blood." But after so much blood shed over so many years, Brownie is led to question how much progress has been made during his life time, and then on what a seventy five year old man might be able to contribute to changing things.
