U.S. History-P. Scott Corbett 2017-12-19 Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

Guide to the Hoover Institution Archives-Charles G. Palm 1980

Original. 25,000 first printing.

Hoover the Fishing President-Hal Elliott Wert 2020-03-01 An intensely private and shy man, Hoover the person was largely unknown to the American public. In this extensively researched biography devoted to the angling side of Hoover, author Hal Elliott Wert examines the often overlooked life of our thirty-first president. In a presidency plagued by the Depression, in a time when the country was poised between the agrarian society of the past and the advent of a modern professional class, Herbert Hoover faced numerous challenges. A thinker and a doer who shaped the way we live today, Hoover found relief from the stresses of his professional life in his pastime, fishing. Herbert Hoover fished near his hometown of West Branch, Iowa, as a boy and then moved to Oregon, where he fished the Rogue, Willamette, McKenzie, and Columbia rivers. As a young man, he attended Stanford and fished and camped throughout the West during breaks. He fished and spent time in the outdoors throughout his life and especially in his years as president. He founded Cave Man Camp at Bohemian Grove north of San Francisco, a yearly getaway for powerful Republicans, and Camp Rapidan in Virginia while he was in the White House. In addition to freshwater fishing, Hoover enjoyed fishing the salt. On trips to Florida later in his life, he stalked bonefish and fished for permit and the larger species, such as sailfish.

The Story of Hoover Dam-United States. Bureau of Reclamation 1971

Story of Hoover Dam-United States. Bureau of Reclamation 1971

Hoover's guide to the top Chicago companies-Hoover's Incorporated 1996-02-01 Provides concise profiles of the 750 largest public and private companies in the Chicago area, with in-depth analyses of the seventy-five fastest-growing corporations, headquarters addresses, telephone and FAX numbers, officers' names, employment data, and more.

The Big Show in Bololand-Bertrand M. Patenaude 2002 The author sheds light on a little-known chapter of U.S.-Soviet relations, using diaries, memoirs, and letters to recall the efforts of nearly 300 relief workers in easing the suffering of Russians during one of the country's worst famines.

The Story of the Hoover Dam-Kelly Milner Halls 2014-01-01 This book relays the factual details of the story of the Hoover Dam, which was built in the 1930s. The narrative provides multiple accounts of the event, and readers learn details through the point of view of a Colorado River explorer, a dam worker, and a dam worker's daughter. The text offers opportunities to compare and contrast various perspectives in the text while gathering and analyzing information about a historical event.

The Challenge to Liberty-Herbert Hoover 1973

The Political Spectrum-Thomas Winslow Hazlett 2017-05-23 From the former chief economist of the FCC, a remarkable history of the U.S. government's regulation of the airwaves Popular legend has it that before the Federal Radio Commission was established in 1927, the radio spectrum was in chaos, with broadcasting stations blasting powerful signals to drown out rivals. In this fascinating and entertaining history, Thomas Winslow Hazlett, a distinguished scholar in law and economics, debunks the idea that the U.S. government stepped in to impose necessary order. Instead, regulators blocked competition at the behest of incumbent interests and, for nearly a century, have suppressed innovation while quashing out-of-the-mainstream viewpoints. Hazlett details how spectrum officials produced a "vast wasteland" that they publicly criticized but privately protected. The story twists and turns, as farsighted visionaries—and the march of science—rise to challenge the old regime. Over decades, reforms to liberate the radio spectrum have generated explosive progress, ushering in the "smartphone revolution," ubiquitous social media, and the amazing wireless world now emerging. Still, the author argues, the battle is not even half won.

Hoover's Guide to the Book Business- 1995

John Steuart Curry's Hoover and the Flood-Charles C. Eldredge 2007 In 1940, John Steuart Curry painted a scene of Herbert Hoover directing relief efforts after the Mississippi River flood of 1927 as part of a series of paintings depicting modern American history commissioned by Life magazine. Police Crime Control Strategies-Larry Hoover 2013-01-01 POLICE CRIME CONTROL STRATEGIES is a practical, realistic, one-of-a-kind book that provides readers with a balanced assessment of approaches to police crime reduction. Written by an expert in the field of law enforcement, this book covers the strengths and weaknesses of a variety of approaches including crime-specific, community-oriented, problem-oriented, hot spot targeting, concentrated patrol deployment, broken windows enforcement, and intelligence-guided. Opening chapters trace the accumulating evidence for the substantial impact upon crime that focused police efforts can have. Community and problem-oriented programs are reviewed in the context of their employment for crime reduction. State-of-the-art strategies are organized by three targeting foci: geographic, offense, and offender. The role of investigative units in proactive crime reduction is

critically assessed and Compstat as a framework receives special attention. Also discussed are crime strategy meetings, and staffing and deployment for crime control. Care is taken to review both the successes and failures of structured efforts both in suburban environments and major cities so that readers are provided with an unbiased overview of policing in the real world. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Hoover Dam-Barbara Vilander 1999 "Art historian Barbara Vilander's text places Glaha's efforts within the historical context of western landscape exploration and development and reveals how his particular qualifications led to his selection as the project photographer. Vilander then examines the many publications and venues in which the Bureau used Glaha's photographs to create support for the project. She also discusses how Glaha was recognized in his own era as an influential artist and teacher, and compares his work with that of other contemporary landscape photographers addressing western water management."--BOOK JACKET.

Hoover Dam-Joseph E. Stevens 2014-09-12 In the spring of 1931, in a rugged desert canyon on the Arizona-Nevada border, an army of workmen began one of the most difficult and daring building projects ever undertaken—the construction of Hoover Dam. Through the worst years of the Great Depression as many as five thousand laborers toiled twenty-four hours a day, seven days a week, to erect the huge structure that would harness the Colorado River and transform the American West. Construction of the giant dam was a triumph of human ingenuity, yet the full story of this monumental endeavor has never been told. Now, in an engrossing, fast-paced narrative, Joseph E. Stevens recounts the gripping saga of Hoover Dam. Drawing on a wealth of material, including manuscript collections, government documents, contemporary newspaper and magazine accounts, and personal interviews and correspondence with men and women who were involved with the construction, he brings the Hoover Dam adventure to life. Described here in dramatic detail are the deadly hazards the work crews faced as they hacked and blasted the dam's foundation out of solid rock; the bitter political battles and violent labor unrest that threatened to shut the job down; the deprivation and grinding hardship endured by the workers' families; the dam builders' gambling, drinking, and whoring sprees in nearby Las Vegas; and the stirring triumphs and searing moments of terror as the massive concrete wedge rose inexorably from the canyon floor. Here, too, is an unforgettable cast of characters: Henry Kaiser, Warren Bechtel, and Harry Morrison, the ambitious, headstrong construction executives who gambled fortune and fame on the Hoover Dam contract; Frank Crowe, the brilliant, obsessed field engineer who relentlessly drove the work force to finish the dam two and a half years ahead of schedule; Sims Ely, the irascible, teetotaling eccentric who ruled Boulder City, the straightlaced company town created for the dam workers by the federal government; and many more men and women whose courage and sacrifice, greed and frailty, made the dam's construction a great human, as well as technological, adventure. Hoover Dam is a compelling, irresistible account of an extraordinary American epic.

The Hoover Dam-Jeffrey Zuehlke 2011-08-01 The Hoover Dam is one of the largest dams in the world! it provides power and water to people in Arizona, Nevada, Utah, and California. Just how does the Hoover Dam work? and how many people did it take to build this amazing structure?

The Ideological Struggle for Pakistan-Ziad Haider 2013-09-01 This assessment of the struggle for Pakistan's identity, from its birth in 1947 to the present day, provides a political and cultural understanding of the role and use of Islam in its evolution. The author, a Pakistani scholar, shows how Pakistan's viability as a state depends in large part on its ability to develop a new and progressive Islamic narrative.

Thinking about the Future-George Shultz 2019-05-15 In a rich and varied career, George P. Shultz has aided presidents, confronted national and international crises, and argued passionately that the United States has a vital stake in promoting democratic values and institutions. In speeches, articles, congressional testimony, and conversations with world leaders, he has helped shape policy and public opinion on topics ranging from technology and terrorism to drugs and climate change. The result is a body of work that has influenced the decisions of nations and leaders, as well as the lives of ordinary people. In *Thinking About the Future*, Shultz has collected and revisited key writings, applying his past thinking to America's most pressing contemporary problems. Each chapter includes new commentary from the author, providing context, color, and behind-the-scenes glimpses of how decisions are made in the halls of power. In the more than half a century since Shultz entered public life, the world has changed dramatically. But he remains guided by the belief that "you can learn about the future—or at least relate to it—by studying the past and identifying principles that have continuing application to our lives and our world."

This Time of Darkness-H. M. Hoover 2003-03-14 In a forbidding future, Amy and Axel are children who live underground under the omniscient eye of the

Authorities and attempt a daring escape to the outside world.

China's Influence and American Interests-Larry Diamond 2019-08-01 While Americans are generally aware of China's ambitions as a global economic and military superpower, few understand just how deeply and assertively that country has already sought to influence American society. As the authors of this volume write, it is time for a wake-up call. In documenting the extent of Beijing's expanding influence operations inside the United States, they aim to raise awareness of China's efforts to penetrate and sway a range of American institutions: state and local governments, academic institutions, think tanks, media, and businesses. And they highlight other aspects of the propagandistic "discourse war" waged by the Chinese government and Communist Party leaders that are less expected and more alarming, such as their view of Chinese Americans as members of a worldwide Chinese diaspora that owes undefined allegiance to the so-called Motherland. Featuring ideas and policy proposals from leading China specialists, China's Influence and American Interests argues that a successful future relationship requires a rebalancing toward greater transparency, reciprocity, and fairness. Throughout, the authors also strongly state the importance of avoiding casting aspersions on Chinese and on Chinese Americans, who constitute a vital portion of American society. But if the United States is to fare well in this increasingly adversarial relationship with China, Americans must have a far better sense of that country's ambitions and methods than they do now.

City on Fire-Lisa Odham Stokes 1999 Traces the history of Hong Kong cinema in its social and historical context and discusses the plots, characters, and production techniques of a wide range of films

Herbert Hoover and the Great Depression - 1970

American Individualism-Margaret Hoover 2012-08-15 A Fox News analyst argues for a redefinition of conservatism that will modernize outdated Republican ideas and enable a younger generation to embrace the party, defining her views about Individualism while contending that universal, conservative beliefs can be adapted to revitalize Republican political strength.

Religion in the Oval Office-Gary Scott Smith 2015-02-27 In his highly praised book Faith and the Presidency, Gary Scott Smith cast a revealing light on the role religion has played in presidential politics throughout our nation's history, offering comprehensive, even-handed examinations of the role of religion in the lives, politics, and policies of eleven presidents. Now, in Religion in the Oval Office, Smith takes on eleven more of our nation's most interesting and influential chief executives: John Adams, James Madison, John Quincy Adams, Andrew Jackson, William McKinley, Herbert Hoover, Harry Truman, Richard Nixon, George H. W. Bush, Bill Clinton, and Barack Obama. Drawing on a wide range of sources and paying close attention to historical context and America's shifting social and moral values, he examines their religious beliefs, commitments, affiliations, and practices and scrutinizes their relationships with religious leaders and communities. The result is a fascinating account of the ways in which religion has helped shape the course of our history. From John Quincy Adams' treatment of Native Americans, to Harry Truman's decision to recognize Israel, to Bill Clinton's promotion of religious liberty and welfare reform, to Barack Obama's policies on poverty and gay rights, Smith shows how strongly our presidents' religious commitments have affected policy from the earliest days of our nation to the present. Together with Faith and the Presidency, Religion in the Oval Office provides the most comprehensive examination of the inseparable and intriguing relationship between faith and the American presidency. This book will be invaluable to anyone interested in the presidency and the role of religion in politics.

The Memoirs of Herbert Hoover-Herbert Hoover 1961

Top 10 Eyewitness Travel Guide - Las Vegas-Connie Emerson 2002-02 Discusses lodging, dining, and entertainment in Las Vegas, along with information on the casinos and side trips to other attractions.

American Individualism-Herbert Hoover 1922 In this book, Hoover expounds and vigorously defends what has come to be called American exceptionalism: the set of beliefs and values that still makes America unique. He argues that America can make steady, sure progress if we preserve our individualism, preserve and stimulate the initiative of our people, insist on and maintain the safeguards to equality of opportunity, and honor service as a part of our national character.

Herbert Hoover, Forgotten Progressive-Joan Hoff Wilson 1975 Biography of Herbert Hoover.
