Given, Vol. 1 (Yaoi Manga)-Natsuki Kizu 2020-02-11 Ritsuka Uenoyama is bored with it all—with school, with his basketball club, and even with his one true passion: playing guitar. That is, until the day he finds his favorite hidden napping spot occupied by a strange boy cradling a broken-stringed guitar. Love Like Hate is something like a traditional cross-cultural novel that’s been shocked into life by Dinh’s uncanny ability to tell us stories we didn’t even know we wanted to hear. -- Ed Park, editor of The Believer In Love Like Hate, Linh Dinh weaves a dysfunctional family saga that doubles as a portrait of Vietnam in the last half century. Protagonists Kim Lan and Hoang Long marry in Saigon during the Vietnam War, uniting in a setting that allows Dinh’s dark, deadpan humor to flourish. Describing his mushrooming cast of characters in unsentimental and sometimes absurd ways, Dinh embraces contradictions with the surreal exuberance of Matthew Sharpe and the stylistic élan of Italo Calvino.

Culinary Linguistics-Cornelia Gerhardt 2013-07-04 Language and food are universal to humankind. Language accomplishes more than a pure exchange of information, and food caters for more than mere subsistence. Both represent crucial sites for socialization, identity construction, and the everyday fabrication and perception of the world as a meaningful, orderly place. This volume on Culinary Linguistics contains an introduction to the study of food and an extensive overview of the literature focusing on its role in interplay with language. It is the only publication fathoming the field of food and food-related studies from a linguistic perspective. The research articles assembled here encompass a number of linguistic fields, ranging from historical and ethnographic approaches to literary studies, the teaching of English as a foreign language, psycholinguistics, and the study of computer-mediated communication, making this volume compulsory reading for anyone interested in genres of food discourse and the linguistic connection between food and culture. Borderland Infrastructures-Alessandro Rippa 2020-08-06 Across the Chinese borderlands, investments in large-scale transnational infrastructure such as roads and special economic zones have increased exponentially over the past two decades. Based on long-term ethnographic research, Borderland infrastructures. Trade, Development, and Control in Western China addresses a major contradiction at the heart of this fast-paced development: small-scale traders have lost their historic strategic advantages under the growth of massive Chinese state investment and are now struggling to keep their businesses afloat. Concurrently, local ethnic minorities have become the target of radical resettlement projects, securitization, and tourism initiatives, and have in many cases grown increasingly dependent on state subsidies. At the juncture of anthropological explorations of the state, border studies, and research on transnational trade and infrastructure development, Borderland infrastructures provides new analytical tools to understand how state power is experienced, mediated, and enacted in Xinjiang and Yunnan. In the process, Rippa offers a rich and nuanced ethnography of life across China’s peripheres.

Representations of Finnishness in Sweden-Lotta Weckström 2019-01-16 More than half a million Swedes - one in twenty - is of Finnish descent. This book explores Finnishness, multilingualism and identities of young people with Finnish background in Sweden. What does it mean to grow up in a Finnish family in Sweden? Who are "real Finns" and what does it take to be(come) one? Is a shared minority language essential for the survival of the minority, or can a minority culture stay viable without it? What is Finnishness and who, in the end, can define ethnicity? How to make sense of, and how to present interviews that are rich with imitations of accents, jokes and laughter? Representations of Finnishness in Sweden is an ethnographic interview study in the domain of applied language studies. This book is aimed at readers interested in sociolinguistics, linguistic ethnography, and the study of identities. Interviewees’ voices take a central position in this book and interview excerpts are used not only as illustrations, but also serve as starting points for discussing broader theoretical concepts. The author, Dr. Lotta Weckström, grew up bilingual - Finnish and Swedish - in Finland. She studied linguistics and migration studies in Germany and the Netherlands, and in this longitudinal study encompasses her expertise.

Hawaiian Grammar-Samuel H. Elbert 2001-04-01 Without question, this is the definitive grammar of the Hawaiian language. Indeed it is the first attempt at a comprehensive treatment of the subject since W.D. Alexander published his concise Short Synopsis of the Most Essential Points in Hawaiian Grammar in 1864. This grammar is intended as a companion to the Hawaiian Dictionary, by the same authors. The grammar was written with every student of the Hawaiian language in mind - from the casual interested layperson to the professional linguist and grammarian. Although it was obviously impossible to avoid technical terms, their use was kept to a minimum, and a glossary is included for those who need its help. Each point of grammar is illustrated with examples, many from Hawaiian-language literature.
