Henri's Scissors-Jeanette Winter 2013-08-27 An introduction to the life and paper-cutout art of Henri Matisse describes his early sketching hobby, famous paintings and the illness that confined him to a wheelchair and inspired his sophisticated paper-cutout masterworks.

Henri Matisse-Xavier-Gilles Néret 2014 The reputation of Henri Matisse (1869-1954) as the most important artist of the modern era is rivaled only by Picasso -- who himself said, "All things considered, there is only Matisse." Towards the end of his monumental career as a painter, sculptor, and lithographer, an elderly, sickly Matisse was unable to stand and use a paintbrush for a longer period of time. In this late phase of his life -- he was almost 80 years of age -- he developed the technique of creating brightly colored paper cut-outs. These gouaches decoupees (gouache cut-outs) represented a revolution in modern art, yet their simplicity was dismissed by many critics as the folly of a senile old man. Later critics realized that Matisse had found a brilliant solution to the age-old conflict between line and color -- one that would profoundly influence generations of artists to come.

Henri Matisse-Karl D. Buchberg 2014 Henri Matisse is one of the leading figures of modern art. His unparalleled cut-outs are among the most significant of any artist's late works. When ill health first prevented Matisse from painting, he began to cut into painted paper with scissors as his primary technique to make maquettes for a number of commissions, from books and stained glass window designs to tapestries and ceramics. Taking the form of a 'studio diary', the catalogue re-examines the cut-outs in terms of the methods and materials that Matisse used, and looks at the tensions in the works between finish and process; and drawings and colour.

Chatting with Henri Matisse-Henri Matisse 2013 In 1941 the Swiss art critic Pierre Courthion interviewed Henri Matisse while the artist was in bed recovering from a serious operation. It was an extensive interview, seen at the time as a vital assessment of Matisse's career and set to be published by Albert Skira's then newly established Swiss press. After months of complicated discussions between Courthion

and Matisse, and just weeks before the book was to come out--the artist even had approved the cover design--Matisse suddenly refused its publication. A typescript of the interview now resides in Courthion's papers at the Getty Research Institute. This rich conversation, conducted during the Nazi occupation of France, is published for the first time in this volume, where it appears both in English translation and in the original French version. Matisse unravels memories of his youth and his life as a bohemian student in Gustave Moreau's atelier. He recounts his experience with collectors, including Albert C. Barnes. He discusses fame, writers, musicians, politicians, and, most fascinatingly, his travels. Chatting with Henri Matisse, introduced by Serge Guilbaut, contains a preface by Claude Duthuit, Matisse's grandson, and essays by Yve-Alain Bois and Laurence Bertrand Dorléac. The book includes unpublished correspondence and other original documents related to Courthion's interview and abounds with details about avant-garde life, tactics, and artistic creativity in the first half of the twentieth century.

Featured frequently in the modern master's bold paintings, drawings, and cut-outs, and influencing the development of his work in sculpture, Matisse's objects formed a secret history hiding in plain sight. Works that span the artist's entire career are presented here alongside the objects that inspired them, from Asian vases and African masks to intricate textiles from the Islamic world. With lush illustrations and archival images, *Matisse in the Studio* provides exceptional insights into the world of the artist at work.

Seeing Out Loud-Jerry Saltz 2003 Literary Nonfiction. Art. In *SEEING OUT LOUD*, Saltz critically engages with notable works of art by over 100 notable artists ranging from Picasso, Matisse, and Warhol to Matthew Barney, Gerhard Richter, and Chris Ofili. These reviews appeared in the *Village Voice* between November 1998 and winter 2003. "Jerry Saltz is the best informed and hair-trigger liveliest of contemporary art critics, tracking pleasure and jump-starting intelligence on the fly. Jerry's fast takes usually stand up better in retrospect than other people's long views"---Peter Schjedahl. "Jerry Saltz looks at art from the perspective of the viewer, the ignorant, the lover, and the enemy. His writing is overwhelmingly passionate, yet without sentimentality. His words pierce the content and beauty of each work of art to test its endurance in time and memory"---Francesco Bonami, Curator, 2003 Venice Biennale.

The Vence Chapel-Henri Matisse 1999 *Henri Matisse: The Vence Chapel, The Archive of a Creation Conversations and Correspondence with Marie-Alain Couturier and Louis-Bertrand Rayssiguier* Edited and introduced by Marcel Billot Henri Matisse devoted four years of his life to designing the Vence Chapel, his "crowning achievement," as he himself stated on several occasions. Though the circumstances which led to the creation of this unique building are well known--the project originated with Sister Jacques-Marie, who nursed the aging painter back to health after his brush with death in 1942--the story of the Chapel's construction has long remained shrouded in mystery. Much of the material in this book is drawn from the Couturier Archives. The bulk of the archive consists of the notes of Brother Louis-Bertrand Rayssiguier, the young Dominican monk who drew the plan of the Chapel and worked closely with Matisse on all phases of its building and decorating. From December 1947 to June 1951, Rayssiguier met frequently with the artist and recorded their conversations verbatim. His notes allow the reader to follow day by day the unfolding of one of the supreme masterpieces of religious art in the twentieth century. Even more significantly, they give us a rare glimpse into the artist's private world. They chronicle his disappointments and his moments of elation, his habits and his foibles, his reactions to contemporary developments in the art world, as well as his deepest personal beliefs. Gifted with an unusually keen sense of observation, Rayssiguier shows us Matisse at work as well as Matisse relaxing in the intimacy of his own home. Completing this invaluable record, the correspondence between Matisse and Father Marie-Alain Couturier, the Dominican priest at the forefront of the post-World War II movement to commission works of religious art from leading modern painters and sculptors, details the creation of the Chapel's most remarkable feature--Matisse's bold stained-glass windows. An expert on stained glass and the chief editor of *L'Art sacré*, an influential review devoted to religious art around the world, Couturier took care of all the logistical and technical matters relating to these great windows. The numerous letters he and the artist exchanged are in themselves a fascinating exchange on the art and the significance of modern stained glass. This archive charts a unique journey to the heart of artistic creativity. The compilation of documents published here for the first time in English is abundantly illustrated with sketches by Matisse and photographic records that show the successive stages of the Chapel's completion.

Matisse-Volkmar Essers 2012 The Fauvist: Brilliant color, simple forms, and purity of expression are the hallmarks of Matisse's work Henri Matisse (1869-1954) is known not only as one of the most important French painters of the 20th century but also as co-founder and leading exponent of Fauvism. His work reflects an ongoing quest for the expressive power of pure, brilliant colors and simple forms; as a result, the realistic presentation of nature often retires to a secondary position. For Matisse, color did not serve as a tool for the expression of subjective feelings, but rather became the equivalent of light itself: it functioned as a pure medium in the creation of an autonomous pictorial space: "Out of my fruitful work with discovered tones there must emerge a vital color harmony, a harmony that is analogous to a musical composition." As a creative artist, Matisse was not only a painter, but also experimented with other materials: he produced glass windows and theater designs and created significant sculptures in bronze, ceramic and clay. In old age, confined to a wheelchair, he created collages with colored paper, glue, and scissors: his famed gouache cut-outs. About the Series: Each book in TASCHEN's Basic Art series features: a detailed chronological summary of the life and oeuvre of the artist, covering his or her cultural and historical importance a concise biography approximately 100 illustrations with explanatory captions Henri Matisse-Henri Matisse 2000

Henri Matisse, Drawings 1936-Henri Matisse 1936 A collection written over fifty years, Makes You Stop and Think is the latest work from the accomplished and renowned poet Daniel Hoffman. "The sonnet is a sacred // vessel, it takes a civilization / to conceive its shape or know / its uses," the poet Louise Bogan told "a crowd of bearded youths" and "rumpled girls."
