Her Alien Doctors-Sara Fields 2017-07-19 Theirs to Examine. Theirs to Master. After nineteen-year-old Jenny Monroe is caught stealing from the home of a powerful politician, she is sent to a special prison in deep space to be trained for her future role as an alien's bride. Despite the public bare-bottom spanking she receives upon her arrival at the detention center, Jenny remains defiant, and before long she earns herself a trip to the notorious medical wing of the facility. Once there, Jenny quickly discovers that a sore bottom will now be the least of her worries, and soon enough she is naked, restrained, and shamefully on display as three stern, handsome alien doctors examine and correct her in the most humiliating ways imaginable. The doctors are experts in the treatment of naughty young women, and as Jenny is brought ever closer to the edge of a shattering climax only to be denied again and again, she finds herself begging to be taken in any way they please. But will her captors be content to give Jenny up once her punishment is over, or will they decide to make her their own and master her completely? Publisher's Note: Her Alien Doctors is a stand-alone novel which is the second book in the Captive Brides series. It includes spankings and sexual scenes. Taming Their Pet-Sara Fields 2017-12-13 Theirs to Tame. Theirs to Train. When the scheming of her father's political enemies makes it impossible to continue hiding the fact that she is an unauthorized third child, twenty-year-old Isabella Bedard is sent to a detainment facility in deep space where she will be prepared for her new life as an alien's bride. Her situation is made far worse after some ill-advised mischief forces the strict warden to ensure that she is sold as quickly as possible, and before she knows it, Isabella is standing naked before two huge, roughly handsome alien men, helpless and utterly on display for their inspection. More disturbing still, the men make it clear that they are buying her not as a bride, but as a pet. Zack and Noah have made a career of taming even the most headstrong of females, and they waste no time in teaching their new pet that her absolute obedience will be expected and even the slightest defiance will earn her a painful, embarrassing bare-bottom spanking, along with far more humiliating punishments if her behavior makes it necessary. Over the coming weeks, Isabella is trained as a pony and as a kitten, and she learns what it means to fully surrender her body to the bold dominance of two men who will not hesitate to claim her in any way they please. But though she cannot deny her helpless arousal at being so thoroughly mastered, can she truly allow herself to fall in love with men who keep her as a pet? Publisher's Note: Taming Their Pet is a stand-alone novel which is the third book in the Captive Brides series. It includes spankings and sexual scenes. If such material offends you, please don't buy this book.

Alien Captive: A Sci Fi Warrior Romance-Golden Angel 2018-08-28 Who knew reading sexy alien abduction stories could get a girl into trouble? Or that an e-reader could also be the gateway to another galaxy? I definitely didn't... but here I am anyway, mated to the Tsenturion High Commander just like the unwilling human heroines in my favorite sci-fi romances. The Commander demands obedience. He intends to claim me, train me, and turn me into his perfect little pleasure trophy. He doesn't believe in love. I don't believe in giving in without a fight. There's no amount of discipline or ecstasy that could break me to his will... I hope. Alien Captive is a hot alien abduction romance, starring one feisty human and the Tsenturion Warrior strong enough to master her. Disclaimer: the authors are not responsible for any actual alien abductions that may result should you purchase this book.

Married to the Alien Doctor-Alma Nilsson 2019-06-11 Traded. She had been traded by her own captain to the Alliance Empire. She and the rest of the female crew from the human starship Dakota were to be married off, as the Alliance was suffering from a demographics issue, there weren't enough Alliance women. Dru didn't care what kind of problems the Alliance had, she didn't come this far, in her short life, to end up as a grey, alien man's slave, no matter how powerful his civilization was. But that was the problem, humans were next to nothing and the Alliance Empire ruled the galaxy. Ket of Imperial House Vo had not thought much about the human women being brought to the Alliance, until his eyes rested on the young red-haired beauty and he knew it was the gods' will that she become his wife. He would make her submit to his strict Alliance culture and make her humbly accept her new life in the Empire. He knew from the moment he saw her picture that she was his destiny. The Alliance Series is set in a fictional future where humans are small-time players in the big-time galaxy. There are no heroes or women being rescued, instead readers are led through an intricate maze of alien courting customs, duplicitous strict religious codes, vicious culture shock and uncomfortable compromises. Each book follows a completely different woman on her individual journey through this alien world, as such they can all be read as stand-alone books.

The Alien's Mark-Megan Michaels 2017-05-17 Sometimes submission comes at the end of a leash.... Blythe Wainwright thought she had her life together. At twenty-eight, as an anthropologist studying other planets in the galaxy, she had become comfortable with the predictability of her life. However, that steady calm ended the day their ship crashed onto the shores of the coastal town of Endermere, on the Planet Pra'kir. Suddenly, her fate, and that of her four other shipmates, was in the hands--and at the mercy--of the Pra'kirians. With no wife or children, Dr. Xan Breckett had been married to his career, climbing the ranks, becoming a respected member of the medical field. But he had aspirations for himself with no clear indication of how to attain them until the Council of Nine gave him one of the aliens that had crashed onto their shores from Terra. The red-haired beauty assigned to him might be the key to opening doors... doors he didn't know existed. But until he attained his career goals he'd train his ward--and pet-- along with Ganza, the nurse, and his assistant, Billex. Blythe's biting had been a nuisance in detention, but Xan knew how to treat a human whose only form of communication seemed to be biting, like an animal. He'd cure her of the vile behavior (and others, as well) no matter what harsh methods it took. Though she was a grown woman, Blythe found herself held captive as a ward and pet in a household reminiscent of Victorian Earth. Under the authority of a very large, stern Pra'kirian - and one who expected complete and abject obedience she feared she had little hope of mercy. But if she obeyed her stern captor, could she find contentment - and perhaps even happiness? SHE SURVIVED THE CRASH... THEY'LL MAKE HER WISH SHE HADN'T

Alien Daddy-Rachel Burns 2019-09-05 Carina was set up, forced to commit a minor offense so the government could call her a criminal and sell her to a group of alien giants who want to breed with humans so their next generation won't

be as tall, or as wide, or as muscular. Their height makes other species fear them. They have decided this generation of young men should mate with human women. The alien women on the planet are being sent to Opioium where they mate with another species with smaller men. The problem is that planet Spiegelium is on the other side of the universe. To get there, the women have to travel decades in a deep sleep, which stops their aging process. When the women arrive, their muscles have become so weak that they can hardly move. The men have to care for them, seeing to their every need, much as a daddy would care for his baby girl. In fact, the Spiegelium word for husband is Dadee. As the Earthlings get stronger, the alien daddies have to adjust the girls' upbringing. Sometimes they have to be strict with their little girls, and other times they have to hug them and assure them that they are very loved, and other times, they just need an orgasm. The alien men instantly fall in love with the women laid into their arms. They hold their wives to their hearts and patiently wait for them to regain their strength so they can truly become man and wife, while developing a deep connection to their wives. Samtka is ready to take a wife. He goes to the hospital where the Earthling wives arrive. At first, he has doubts, but when the doctor lays Carina in his arms, he knows that his two beating hearts have found a home in her dark blue eyes. Warning: This science fiction book has a very sexy Alien Alpha Daddy Dom and a woman set up for a crime, made weak by traveling through space, and is forced to depend on her alien for help with everyday things like washing herself. This book includes intense sex scenes, and it contains strong elements of Adult Age Play, including bottle feedings and diapers when needed.

Alien Alpha's Bride-Nina Rains 2018-07-24 What if midnight struck and suddenly you were the captive of alien masters? Would the warriors and alphas of unknown planets have bad intentions? When I was 7, I thought about becoming an astronaut and explore space. Of course, when I imagined myself in space, I was always wearing this full body suit, floating around the moon with several hunks beside me, cheering me on. The good news: I reached space. The bad news: it wasn't in the way I hoped. I was kidnapped. By a dildo. It's embarrassing and it's a long story. But that's how it happened. When I met an alien prince, I thought he'd experiment on me. You know, laid flat on the medical table with a scalpel and weird alien technology to see how Earth-people were like. Oh, he experimented on me alright. But I was with him all the way. Because you see, we were wrong. Aliens weren't green blob things. They're tall hunks with 6 pack abs, thick thighs, wide chest, and really looooong...you know. Eat your heart out, Chris Evans. Publishers note: This is a full length, standalone scifi romance novelette with lots of steam. It contains intimate and romantic scenes with an alien alpha prince with a comical flavor. As always, the book has no cheating or cliffhangers and has a happily ever after. This book has it all to satisfy your thirst for excitement, fun and love.

A Gift for the King-Sara Fields 2016-04-05 For an ordinary twenty-two-year-old college student like Lana, the idea of being kidnapped from Earth by aliens would have sounded absurd... until the day it happened. To her shock, she soon learns that she is to be stripped naked and sold as a slave to the highest bidder. When she resists the intimate, deeply humiliating procedures necessary to prepare her for the auction, Lana merely earns herself a long, hard, bare-bottom spanking, but her passionate defiance catches the attention of her captor and results in a change in his plans. Instead of being sold, Lana will be given as a gift to Dante, the region's powerful king. Dante makes it abundantly clear that he will expect absolute obedience and that any misbehavior will be dealt with sternly, yet in spite of everything Lana cannot help feeling safe and cared for in the handsome ruler's arms. Even when Dante's punishments leave her with flaming cheeks and a bottom sore from more than just a spanking, it only sets her desire for him burning hotter. But though Dante's dominant lovemaking brings her pleasure beyond anything she ever imagined, Lana fears she may never be more than a plaything to him, and her fears soon lead to rebellion. When an escape attempt goes awry and she is captured by Dante's most dangerous enemy, she is left to wonder if her master cares for her enough to come to her rescue. If the Universe Is Teeming with Aliens ... WHERE IS EVERYBODY?-Stephen Webb 2002-10-04 In a 1950 conversation at Los Alamos, four world-class scientists generally agreed, given the size of the Universe, that advanced extraterrestrial civilizations must be present. But one of the four, Enrico Fermi, asked, "If these civilizations do exist, where is everybody?" Given the fact that there are perhaps 400 million stars in our Galaxy alone, and perhaps 400 million galaxies in the Universe, it stands to reason that somewhere out there, in the 14 billion-year-old cosmos, there is or once was a civilization at least as advanced as our own. Webb discusses in detail the 50 most cogent and intriguing solutions to Fermi's famous paradox.

Learning to Be Little Again-Meredith O'Reilly 2015-04-14 Twenty-four-year-old Juliana once loved being a little, until the cruelty of the man she had called daddy broke her heart and she decided to never be little again. But when she fails to take care of herself and becomes ill, a worried friend brings her to Dr. Robert O'Connor, claiming that he will understand what she needs. Juliana is embarrassed and nervous, but to her surprise, Robert gives her a teddy bear and tells her a fairy tale to help her relax. Though the exam is intimate and thorough, Juliana feels safe the whole time and hopes afterwards that she'll see more of the handsome doctor. From the moment Robert heard about Juliana's past, he wanted nothing more than to take away her pain and make sure she never has to worry about anyone hurting her again. He is thrilled when he asks her out and she shyly agrees. Though Juliana claims she doesn't want to be a little anymore, he longs to prove to her that age play with him is nothing to fear. Robert is a patient man, and before long Juliana is calling him "daddy", playing with her dolls, and coloring. He delights in taking care of her every need, dressing her in footie pajamas, and brushing her hair. Even when Juliana is disobedient and Robert has to put his baby girl over his knee and spank her bare bottom, it is always followed by plenty of loving hugs and cuddles. Soon Juliana is eating more and sleeping better, and feels healthier than she has in a long time. But when the man who once mistreated her skips bail and threatens to hurt her if she continues to see her new daddy, she becomes terrified. Will she ever be free to relax in her daddy's arms, knowing he will keep his little girl safe from everything and love her no matter what? Publisher's Note: Learning to be Little Again is a stand-alone sequel to Little Samantha's Choice. Pet Cat-girl-Daisy Rose 2019-06-25 Rehabilitation has always been hard for Jason, even if he is the best in his line of work. His superior says because he's too soft for it, but he knows the real reason why. It's because he likes it too much, he likes when they send him the broken ones, the shifters that have been conditioned to be treated like the animals inside them. It is only natural for someone in his profession to be handed the hardest cases. When he starts reading about Anna in the papers, how the poor shifter has ears and a tail like a cat and has forgotten most of what it means to be human, he knows it is only a matter of time until she is handed to him. What they don't know is that Anna is exactly what he wants in a mate and he has no desire to change anything about her. ~~~~~ Excerpt ~~~~~ He's sure he has the trust part of the exercise down. She is comfortable enough with him that she doesn't even pause when he turns his back to her in his quest to get his own meal. It doesn't take her long at all to demolish her own meal, finishing it up and then settling on her knees, licking the back of her hand to wipe her face. He takes his time with his own meal, taking bites of the deliberately underdone steak and licking up the blood before it can drip down his chin. She crawls closer to him on the table, tail wagging curiously behind her, ears perked back. He wonders if she has to beg for scraps this way during her captivity. She makes a soft inquiring noise that garners his attention. "Yes, Kitten?" he asks, looking up. Then, he chuckles. She has mayonnaise smeared over her chin and cheek, pieces of salmon stuck on her nose. "Look at you," he says, pinching her chin between his forefinger and thumb and tilting her head up. "You've made such a mess of yourself, Kitten." He draws her forward without thinking and licks over her cheek and chin, cleaning her up the way wolves do, the flat of his tongue running over her cheek and closed eye. She tastes sweet, the mayo clinging to her skin, with an undertone of her own sweet scent and the clean taste of the salad side dish his chef had prepared for her. She leans into his touch eagerly, purring as he grooms her with his tongue. "There you go," he says, wiping his own saliva from her cheek fondly. He's going about this all the wrong ways deliberately, encouraging her animal instincts by piling his own on top of it. Tomorrow, he thinks to himself. He will start the program tomorrow. Today, he will enjoy having her like this, mostly human with a mind that is more animal. She crawls off the table once he is done with grooming her face and curls up at his feet, smelling heavily of contentment.
