Having never lived in a real house before, Britt is thrilled. There's only one problem: Britt starts to suspect her family isn't supposed to be there. She's been noticing that Bran is acting weird and defensive -- he hides the Marquises' mail, won't let anyone touch the thermostat, and discourages Britt from meeting any of the neighbors. Factors such as the pervasive intrusion of globalizing political and economic developments, polarized and morally equivalent presentations seen in the media, and the sense of surety demanded in and promised by a culture dominated by science are some of the factors that have placed extreme pressure on all religious traditions. This has stimulated unprecedented responses by religious groups, ranging from fundamentalism to the syncretistic search for meaning. As religion takes on new forms, the balance between individual and community is disrupted and reconfigured. Religions often lose the capacity to recall their ultimate purpose or lead their adherents toward it. This is the situation we call "the crisis of the holy." It is a confluence of threats, challenges, and opportunities for all religions. This volume explores the contours of pressures, changes, and transformations and reflects on how all our religions are changing. By identifying commonalities across religions as they respond to these pressures, The Crisis of the Holy recommends ways religious traditions might cope with these changes and how they might join forces in doing so. Drawing on Cuban and U.S. archival materials and face-to-face interviews, Benson examines 1960s government programs and campaigns against discrimination, showing how such programs frequently negated their efforts by reproducing racist images and idioms in revolutionary propaganda, cartoons, and school materials. Building on nineteenth-century discourses that imagined Cuba as a raceless space, revolutionary leaders embraced a narrow definition of blackness, often seeming to suggest that Afro-Cubans had to discard their blackness to join the revolution. This was and remains a false dichotomy for many Cubans of color, Benson demonstrates. While some Afro-Cubans agreed with the revolution's sentiments about racial transcendence--"not blacks, not whites, only Cubans--others found ways to use state rhetoric to demand additional reforms. Still others, finding a revolution that disavowed blackness unsettling and paternalistic, fought to insert black history and African culture into revolutionary nationalisms. Despite such efforts by Afro-Cubans and radical government-sponsored integration programs, racism has persisted throughout the revolution in subtle but lasting ways.</p> <p>100 Detox Juice Recipes-John Sprint 2017-01-04 100 clinically-proven detox juice recipes from personal trainer John Sprint. Rigden 2009-05-29 Travelers differ.At one extreme are random travelers who see what they accidentally bump into.At the other extreme are the lock-step travelers who follow a banner (or a red umbrella) and look when and where a voice tells them to look. Between these extremes are the guide-book travelers who identify the whereabouts of those sites that interest them and they plan their sightseeing accordingly. If a traveler's interests are captivated by the arts, guide books can be very helpful. For example, the table of contents of a current guide book for travelers going to G- many has sections on architecture, art, literature, music and cinema.The index gives page references for famous writers, musicians, and artists.Yet, while Germany was a dominate force in physical science during the 19th and into the 20th centuries and while the names and photos of prominent German physical scientists who worked in this period are sprinkled through the pages of textbooks, only one scientist is mentioned by name:Albert Einstein is identified as the most famous citizen of Ulm.</p> <p>The Times Style and Usage Guide-Tim Austin 2003 This text aims to be a useful tool for writers, editors and proofreaders alike. So begins the story of Concord, Virginia, one of those places set between folds in the Earth. It's a place like almost any other Southern town, filled with self-righteous preachers, descendants of slaves, upstanding town leaders, and the ladies of the local bridge club. But Concord has something else: a dark heart. A church has been abandoned. Vultures have been roosting in the trees at George MacJenkins's house. Poisonous snakes follow Rachel Stetson into the river for a swim. And the ghost of Thomas Jefferson has recently spoken through a man chained to fate. Deftly spinning a web of stories from the voices of the town, Peter Neofotis creates a captivating portrait--comic, dramatic, bombastic, and tragic--of a place trapped in time and possessed by the valley landscape that surrounds it. In the tradition of great Southern gothic writing, Peter Neofotis brings to life the town of Concord, Virginia, allowing even the ancient voices there to swirl through the glazed brick streets like the Fork River. This collection of short stories is a pulse-raising debut by a writer who's created a place the reader will never forget.</p> <p>A Companion to the Global Renaissance-Jyotsna G.
