On Toleration-Susan Mendus 1987 Based on the W.B. Morrell Memorial lectures, this book discusses such questions as whether toleration is a requirement of morality or a dictate of prudence, what limits there are to toleration and what is required of us if we are to promote a truly tolerant society? How to Wrap Five Eggs-Hideyuki Oka 2008 Wolf Haas' Detective Brenner series has become wildly popular around the world for a reason: They're timely, edgy stories told in a wry, quirky voice that's often hilarious, and with a protagonist it's hard not to love. In this episode, Brenner-forced out of the police force-tries to get away from detective work by taking a job as the personal chauffeur for two-year-old Helena, the daughter of a Munich construction giant and a Viennese abortion doctor. One day, while Brenner's attention is turned to picking out a chocolate bar for Helena at a gas station, Helena gets snatched from the car. Abruptly out of a job, Brenner decides to investigate her disappearance on his own. With both parents in the public eye, there's no scarcity of leads-the father's latest development project has spurred public protest, and the mother's clinic has been targeted by the zealous leader of an anti-abortion group. Brenner and God is told with a dark humor that leaves no character, including Brenner, unscathed. Haas tells the story of a fallible hero who can be indecisive and world-weary, baffled and disillusioned by what he finds, but who presses forward nonetheless out of a stubborn sense of decency-a two-year-old is kidnapped, so you find her, because that's just what you do. Bringing Down this House-Patrick Odoniokhere 2008 For freedom to have a meaning, it must come through the sacrifice of the people. The book is a thorough work on Nigeria's historical and political evolution since the inception of its self-rule, with special appraisal on its political leaders. It provides insight on how Nigeria can be re-shaped by a new definition of power. Semantic Web Services-Dieter Fensel 2011-04-28 A paradigm shift is taking place in computer science: one generation ago, we learned to abstract from hardware to software, now we are abstracting from software to serviceware implemented through service-oriented computing. Yet ensuring interoperability in open, heterogeneous, and dynamically changing environments, such as the Internet, remains a major challenge for actual machine-to-machine integration. Usually significant problems in aligning data, processes, and protocols appear as soon as a specific piece of functionality is used within a different application context. The Semantic Web Services (SWS) approach is about describing services with metadata on the basis of domain ontologies as a means to enable their automatic location, execution, combination, and use. Fensel and his coauthors provide a comprehensive overview of SWS in line with actual industrial practice. They introduce the main sociotechnological components that ground the SWS vision (like Web Science, Service Science, and service-oriented architectures) and several approaches that realize it, e.g. the Web Service Modeling Framework, OWL-S, and RESTful services. The real-world relevance is emphasized through a series of case studies from large-scale R&D projects and a business-oriented proposition from the SWS technology provider Seekda. Each chapter of the book is structured according to a predefined template, covering both theoretical and practical aspects, and including walk-through examples and hands-on exercises. Additional learning material is available on the book website www.swsbook.org. With its additional features, the book is ideally suited as the basis for courses or self-study in this field, and it may also serve as a reference for researchers looking for a state-of-the-art overview of formalisms, methods, tools, and applications related to SWS. Smart Mini-Cameras-Tigran V. Galstian 2013-09-24 Achieve the Best Camera Design: Up-to-Date Information on MCMs Miniature camera modules (MCMs), such as webcams, have rapidly become ubiquitous in our day-to-day devices, from mobile phones to interactive TV systems. MCMs—or "smart" cameras—can zoom, adjust their frame rate automatically with illumination change, focus at different distances, compensate for hand shake, and transform captured images. With contributions from academics and field engineers, Smart Mini-Cameras discusses the structure, operation principles, applications, and future trends of miniature mobile cameras. It compares this technology with traditional digital still cameras and explains the specific requirements of MCM components (imposed by the size or type of application) in terms of optical design, image sensor, and functionalities. The book describes the implementation of several active functionalities, including liquid crystal auto focus (AF) and optical image stabilization (OIS). It also explores how new technologies, such as the curved detector and transforming optics, are stimulating novel trends, including a miniature panoramic lens on mobile phones. By providing you with an understanding of the components and performance tradeoffs of MCMs, this book will help you achieve the best camera design. It also answers frequently asked questions, such as the importance of the number of megapixels in a mobile phone camera and the value of AF and OIS features.

They marvel at Christmas trees, attack gift wrap, give presents (c'mon! a dead mouse counts!), receive presents, and eat too much. This holiday behavior was shrewdly documented by B. "Hap" Kliban (1935-1990), the closest man to a cat anyone has ever encountered. For the first time, his dozens of Yuletide Cat cartoons and paintings have been collected in this charming but revealing little book. As an extra added attraction, never-before-published Cat lyrics to well-known Christmas carols are included, researched and collected by Professor Winkie B. Earmites. Hark the Hungry Kitties Sing, We Wish You a Mousie Christmas, and Kitties We Have Heard on High are just a few of the rousing standards included. Click on the small picture above for an inside view.
