I Can Help You-Tom J. Perrin 2017-07-06 Charles Buckley sits quietly weeping. He's trying to come to terms with the cancer diagnosis. It's then that a light knock on his car window breaks him from the spell. A stranger stands looking at him and says the words that'll change Charles' life forever. He takes a chance. Quickly, the world around Charles becomes a place of menace and pain as he's given the power of revival. However, he can only save one person, and he must do it right or face 'dire consequences'. Struggling to deal with the burden, he is quickly sucked into a series of faith-altering and life changing scenarios which threaten not only him, but those he holds dearest in life.

Bottlenecks-David C. Evans 2017-02-11 Learn the psychological constrictions of attention, perception, memory, disposition, motivation, and social influence that determine whether customers will be receptive to your digital innovations. Bottlenecks: Aligning UX Design with User Psychology fills a need for entrepreneurs, designers, and marketing professionals in the application of foundational psychology to user-experience design. The first generation of books on the topic focused on web pages and cognitive psychology. This book covers apps, social media, in-car infotainment, and multiplayer video games, and it explores the crucial roles played by behaviorism, development, personality, and social psychology. Author David Evans is an experimental psychology Ph.D. and senior manager of consumer research at Microsoft who recounts high-stakes case studies in which behavioral theory aligned digital designs with the bottlenecks in human nature to the benefit of users and businesses alike. Innova tors in design and students of psychology will learn: The psychological processes determining users’ perception of, engagement with, and recommendation of digital innovations Examples of interfaces before and after simple psychological alignments that vastly enhanced their effectiveness Strategies for marketing and product development in an age of social media and behavioral targeting Hypotheses for research that both academics and enterprises can perform to better meet users’ needs Who This Book Is For Designers and entrepreneurs will use this book to give their innovations an edge on what are increasingly competitive platforms such as apps, bots, in-car apps, augmented reality content. Usability researchers and market researchers will leverage it to enhance their consulting and reporting. Students and lecturers in psychology departments will want it to help land employment in the private sector. Praise “Bottlenecks’ is a tight and eminently actionable read for business leaders in startups and enterprises alike. Evans gives us a rich sense of key psychological processes and even richer examples of them in action.” - Nir Eyal, Author of Hooked: How to Build Habit-Forming Products “Clients frequently ask our UX researchers and designers for deeper truths about why certain designs work and others fail. Bottlenecks offers practical explanations and evidence based on the idea that human cognition did not begin with the digital age.” - John Dirks, UX Director and Partner, Blink UX “Bottlenecks brings together two very important aspects of user experience design: understanding users and translating this into business impact. A must-read for anyone who wants to learn both.” - Josh Lamar, Sr. UX Lead, Microsoft Outlook
Red 4WD Tractors-Lee Klancher 2017 The story of the four-wheel-drive tractors built by Steiger, International Harvester, Case, and Case IH is told in dramatic fashion in this authoritative guide. Starting with the development of early four-wheel-drive systems at International Harvester, the book traces the evolution and design some of the most powerful and capable tractors of the twentieth century. With fresh detail on the 4300, 4100, Steiger-built IH tractors, and the 2+2 tractors including the Super 70 series, the book offers prototype drawings of several models--including the complete story of the never-before-published Magnum 2+2-- as well as inside stories and backroom drama that is a must for any enthusiast for farm history or tractors. Learn the complete story of Steiger tractors, which were originally designed and built in the barn of John, Douglass, and Maurice Steiger located near Red Lake Falls, Minnesota. Containing interviews with more than 50 of the people who built Steiger from its humble origin to a world leader, the book traces the evolution of the lime green Steigers in engrossing detail. The book also covers the J.I. Case 4WD line in great detail. In addition, the book tells the story of how each of these significant players in the industry combined under one banner and--together--created one of the current industry-leading technologies, the Quadtrac. The modern evolution of the Steigers and the introduction of the STX Series (and more) also receive in-depth coverage. The same team that created the award-winning books Red Tractors 1958-2013 and Red Combines 1915-2015 created this book, and notable new contributors include Sherry Schaefer (editor of Heritage Iron magazine) and noted historian Jim Allen. Contributors include Sherry Schaefer, Oscar H. Will III, Jim Allen, Kenneth Updike, Todd Markle, Gregg Montgomery, Guy Fay, Martin Rickatson, Sarah Tomac, Matthias Buschmann, Jean Cointe, Michael Osweiler, and Johann Dittmer.

Democracy in Eastern Asia-Edmund S. K. Fung 2013-11-20 With the ‘Asian Century’ now upon us, bringing with it many profound economic and political changes to the world order, it is very timely to assess the state of democracy in the Asian region. Focusing on Eastern Asia, this book provides such a review, highlighting lines of connections between the states and peoples of this complex and dynamic region. Featuring chapters on China, Japan, Taiwan, South Korea, Hong Kong, Indonesia, Malaysia, Singapore, Thailand, the Philippines, Cambodia, and Myanmar, this book provides a detailed analysis of the state of democracy in each country or territory, and shows how each is different and distinctive, whilst simultaneously drawing out important similarities. Further, it provides up to date analysis of political changes in the region relating to the processes of democratization, and, in some cases, to the ongoing quest for democracy. Critically examining the current state of political development in the region, the chapters explore the issues and problems that challenge the region’s governments in terms of democratic transition, democratic consolidation, democratic improvement and good governance. With contributions from leading international scholars, this book will be of great interest to students and scholars interested in Asian politics, and politics and democratization studies more broadly.
Alec Issigonis-Jonathan Wood 2005 Alec Issigonis, the brilliant British designer of the Morris Minor and the Mini, is one of the commanding figures in the history of automobile design and engineering. His ingenious and effective designs had a deep, lasting influence on the evolution of the motor car and on the wider history of industrial design, and he deserves to be ranked with the other giants of the field like Ferdinand Porsche in Germany and Dante Giacosa in Italy. But, until now, Issigonis's career as an engineer and designer, and his strong, single-minded character, have never been the subject of a full-length biography. Jonathan Wood's meticulously researched, penetrating study of this flawed genius of automobile design offers a rounded portrait of his life and work, and places him squarely in the context of his times. Vivid recollections of Issigonis's contemporaries, combined with a critical reassessment of his output, create a balanced view of a remarkable, controversial man. The author also offers a behind-the-scenes impression of the personal and corporate struggles within the declining British car industry, a complex process in which Issigonis played a famous role.
Official Prisoner Companion-Matthew White 2009-11-01 It is called, with deceptive simplicity, The Village. It is the world of tomorrow, or today. A man known only as Number 6 enters its storybook-like confines. He will learn, over and over again, that inside it there is no freedom, and from it there is no escape. He is without defenses, except for one invisible weapon: his uncrushable spirit.
The essence of security: reflections in office-Robert S. McNamara 1968
In-Flight Simulators and Fly-by-Wire/Light Demonstrators-Peter G. Hamel 2017-03-15 This book offers the first complete account of more than sixty years of international research on In-Flight Simulation and related development of electronic and electro-optic flight control system technologies (“Fly-by-Wire” and “Fly-by-Light”). They have provided a versatile and experimental procedure that is of particular importance for verification, optimization, and evaluation of flying qualities and flight safety of manned or unmanned aircraft systems. Extensive coverage is given in the book to both fundamental information related to flight testing and state-of-the-art advances in the design and implementation of electronic and electro-optic flight control systems, which have made In-Flight Simulation possible. Written by experts, the respective chapters clearly show the interdependence between various aeronautical disciplines and in-flight simulation methods. Taken together, they form a truly multidisciplinary book that addresses the needs of not just flight test engi neers, but also other aeronautical scientists, engineers and project managers and historians as well. Students with a general interest in aeronautics as well as researchers in countries with growing aeronautical ambitions will also find the book useful. The omission of mathematical equations and in-depth theoretical discussions in favor of fresh discussions on innovative experiments, together with the inclusion of anecdotes and fascinating photos, make this book not only an enjoyable read, but also an important incentive to future research. The book, translated from the German by Ravindra Jategaonkar, is an extended and revised English edition of the book Fliegende Simulatoren und Technologieträger , edited by Peter Hamel and published by Appelhans in 2014.
Lockheed Martin's Skunk Works-Jay Miller 1995 The first and only official history of the worlds most famous advanced aircraft design bureau youve been waiting for! In a major pulling back of the veil of secrecy, official histories of such noteworthy products as the U-2, A-12, D-21, SR-71 and F-117 are finally brought to light, authentically described by the company and the men who designed and built them. Lists all production quantities, serial numbers, build numbers, significant personalities and technical data. Exceptional!
They Can't Touch Him Now-James Williamson 2015-04-08 Jimmy was only nine years old when he was molested and sexually assaulted in London's dingy East End. He struggled to keep his dark secret, while coping with being adopted and his illiterate father's violent outbursts. Desperately needing to be loved, Jimmy accepts an offer of 'conditional kindness' from Tom, his scoutmaster. Now, after a lifetime of secrets, his story can be told as Tom is now dead, so.... "They Can't Touch Him Now"
Days on the Family Farm-Carrie A. Meyer 2013-11-30 From the beginning of the twentieth century to World War II, farm wife May Lyford Davis kept a daily chronicle that today offers a window into a way of life that has all but disappeared. May and her husband Elmo lived through two decades of prosperity, the Great Depression, and two World Wars in their Midwestern farming community. Like many women of her time, Davis kept diaries that captured the everyday events of the family farm; she also kept meticulous farming accounts. In doing so, she left an extraordinary record that reflects not only her own experiences but also the history of early twentieth-century American agriculture. May and Elmo’s story, engagingly told by Carrie A. Meyer, showcases the large-scale evolution of agriculture from horses to automobiles and tractors, a surprisingly vibrant family and community life, and the business of commercial farming. Details such as what items were bought and sold, what was planted and harvested, the temperature and rainfall, births and deaths, and the direction of the wind are gathered to reveal a rich picture of a world shared by many small farmers. With sustainable and small-scale farming again on the rise in the United States, Days on the Family Farm resonates with both the profound and mundane aspects of rural life—past and present—in the Midwest.
It's Hard to Hug a Cow-Su Colstrom 2016-05-16 It's Hard to Hug a Cow is about a Registered Red Angus cow that is not just seen through the eyes of a human as a milk producing, profit making animal but as a friend. The book starts out with realistic pencil drawings going to cartoon drawings with comedic intent during the anticipated act of hugging this adorable critter. This is a fun book for those who love farm animals not to mention the Registered Red Angus raisers. P.S. My friends call me the Dr. Seuss of cows!
The Sociology of Food-Jean-Pierre Poulain 2017-02-09 A classic text about the social study of food, this is the first English language edition of Jean-Pierre Poulain's seminal work. Tracing the history of food scholarship, The Sociology of Food provides an overview of sociological theory and its relevance to the field of food. Divided into two parts, Poulain begins by exploring the continuities and changes in the modern diet. From the effect of globalization on food production and supply, to evolving cultural responses to food – including cooking and eating practices, the management of consumer anxieties, and concerns over obesity and the medicalization of food – the first part examines how changing food practices have shaped and are shaped by wider social trends. The second part provides an overview of the emergence of food as an academic focus for sociologists and anthropologists. Revealing the obstacles that lay in the way of this new field of study, Poulain shows how the discipline was first established and explains its development over the last forty years. Destined to become a key text for students and scholars, The Sociology of Food makes a major contribution to food studies and sociology. This edition features a brand new chapter focusing on the development of food studies in the English-speaking world and a preface, specifically written for the edition.
Always Loyal- 2015-11 Inspired by a chapter in his 2014 book, "Bare Strength," which featured wounded amputee Marines, celebrated photographer Michael Stokes has created an entire photographic volume dedicated to U.S. Gulf War veterans. "Always Loyal," a large-scale, hardcover coffee table book, showcases the beautiful side of wounded soldiers, whose injuries and/or lost limbs are detailed in intimate, exclusive photographs and information that provide a highly unique appreciation for those brave souls who have fought for the United States of America. The goal of fitness photographer Stokes-who, inspired by a shoot with veteran and amputee Alex Minsky, wanted to put a different spin on how wounded veterans were depicted-was to create a book via crowdfunder KickStarter.com. The result of the book is pure art.
Twelve Years a Slave-Solomon Northup 2014-03-08 Now a major motion picture nominated for nine Academy Awards. Narrative of Solomon Northup, a Citizen of New-York, Kidnapped in Washington City in 1841, and Rescued in 1853. Don "The Snake" Prudhomme: My Life Beyond the 1320-Elana Scherr 2020-10-16 Don "The Snake" Prudhomme reveals for the first time ever his incredible life and career on and off of the drag strip.

Imagine spending a year with Don "The Snake" Prudhomme, having coffee together and talking about his life, his racing, his friends, and his family. He’d tell you about how he rose from being a high school drop-out who was painting cars to a respected Top Fuel dragster driver and successful businessman. You’d hear how he toured the country with Tommy Ivo and "The Hawaiian" Roland Leong, racing all the legends from "Big Daddy" Don Garlits to "The Golden Greek" [Chris] Karamesines. He'd say how he met Tom McEwen and recall how they became the Snake and the Mongoose, leading to a career in Funny Cars that netted him four championships in a row. He'd talk about the thrill of first wins and owning his own teams but also the struggles of bad seasons, crashes and fires, broken parts, and broken contracts. Along the way, he’d speak about the people in his life, such as engine-builder Keith Black and NHRA president Wally Parks, and those who were killed in the wild and unpredictable sport of nitro racing. It wouldn’t be only racing, though. Prudhomme would share lessons he learned about business and life from such varied sources as a neighbor in Granada Hills to Ford GT40 driver Dan Gurney. He also would talk about the importance of family: how his wife, Lynn, and daughter, Donna, changed his world and how finding out about his African-American roots opened his eyes to a culture and inheritance he’d always wanted. This is the experience you’ll get in Don "The Snake" Prudhomme: My Life Beyond the 1320.
The Four Foundations of Mindfulness in Plain English-Henepola Gunaratana 2012-08-07 In simple and straightforward language, Bhante Gunaratana shares the Buddha's teachings on mindfulness and how we can use these principles to improve our daily lives, deepen our mindfulness, and move closer to our spiritual goals. Based on the classic Satipatthana Sutta, one of the most succinct yet rich explanations of meditation, Bhante's presentation is nonetheless thoroughly modern. The Satipatthana Sutta has become the basis of all mindfulness meditation, and Bhante unveils it to the reader in his trademark "plain English" style. Contemplating the Four Foundations of Mindfulness--mindfulness of the body, of feelings, of the mind, and of phenomena themselves--is recommended for all practitioners. Newcomers will find The Four Foundations of Mindfulness in Plain English lays a strong groundwork for mindfulness practice and gives them all they need to get started right away, and old hands will find rich subtleties and insights to help consolidate and clarify what they may have begun to see for themselves. People at every state of the spiritual path will benefit from reading this book.

Tree Biology and Tree Care-Alex L. Shigo 1987 "Research on trees during the last 30 years has led to many new concepts of tree biology and tree care. People and trees need each other. Increasing demands on trees from people throughout the world make it necessary to be more effective in ways to help trees. Proper tree care depends on a sound understanding of tree biology. This book is an introduction to new concepts in tree biologyy and tree care."--Back cover.
Jewelry by Joan Rivers-Joan Rivers 1995-01 "Joan Rivers adores jewelry. She loves to shop for it, wear it, and design it. She also loves to talk about it, which is just what she does throughout this glittering volume. Her passion for jewelry - as romantic keepsake, fashion accessory, and personal statement - informs every page of Jewelry by Joan Rivers. She describes the pieces that she has always admired, particularly those that have influenced her own designs. She tells the fascinating stories of her favorite jewelry designers, from the fabulous Faberge to the phenomenal Bulgari brothers. She devotes a chapter to accessorizing with jewelry, offering countless tips on how to turn that plain outfit into a totally chic ensemble by knowing what jewelry to select, and demonstrating the different looks that jewelry can achieve in a series of fashion photographs taken exclusively for this book." "All of Joan River's love and knowledge of jewelry is reflected in the pieces she designs for her own line of costume jewelry - the Joan Rivers Classics Collection - hundreds of which are reproduced here in specially commissioned, full-color photographs. And she takes us behind the scenes to show us how her jewelry is crafted, from initial sketches to finished product."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. MINI 50 Years-Rob Golding 2007-04-15 It's not the size that matters, Austin Powers tells his son as they look over the MINI, "but how you use it." And the diminutive MINI has made it big -- from the beginning. This book tells the full story of the iconic car from its initial launch in the late 1950s through its current super-hip BMW-built incarnation -- right up to the revised version set for release in 2006. Packaged in a clever "under the hood" flap with magnetic clasp (the front flap opens to show the engine), MINI 50 Years captures both the sense of fun and style that have made Mini one of the most popular compacts in the history of the automotive industry. The threads that tie together the original MINI and today's are numerous and fascinating, and as interesting as the differences that set the two cars apart. MINI 50 Years follows them all. From the swingin’ star of movies—immortalized in the original film The Italian Job in 1961 and again in the 2003 remake, as well as in The Bourne Identity—to the racing champ and now the 21st-century hipster vehicle of choice, Minis are small, fun, memorable, and cool. Author and mini expert Rob Golding treats readers to every thrill that marks the MINI.
