Intern Survival Guide-Thein Tun Aung 2014-05-16 This book was conceptualized after observing the struggles of interns during the first months of residency. As new medical graduates or foreign graduates, the transition to residency can be a daunting one. The tips and advice suggested in this book initially started out as a 2-page list. After rave reviews from interns at our hospital, it was expanded to include practical advice on a range of situations encountered by interns daily. The authors hope these pointers can empower new interns to approach the coming months with confidence and ever-increasing competence.

Intern Survival Guide-Htun Latt 2016-05-23 2017-2018 update. This little booklet has been fully revised this year. Two overlapped sections ("Additional things for admission order" and "floor orders") are finally combined. Some redundant sections are removed based on the feedback we received. More management sections (such as managing acute alcohol intoxication, sepsis, renal failure, etc) are added. New section on "Introduction to Cardiology Procedures" is added. All the sections are edited and at least one-third of the book has changed. The sole purpose of this booklet is to help new interns in the beginning of the year. It is mostly focused on inpatient medicine and ICU rotations - how to handle the most common floor calls, such as chest pain, uncontrolled HTN, vomiting and to help guide running RRT/ Code Blue. With advances in technology such as widespread use of electronic medical records, this booklet has been electronically formatted to meet the demands of dynamic medical system. We hope this booklet will make your intern year less stressful, so that you can focus on learning, the decision making process, and ultimately, better patient care.

The Medical & Surgical Residency Survival Guide-Daniel McMahon 2019-01-01 Are you a medical student about to graduate from medical school, an intern or junior resident muscling through the early years of your formative residency training? If so, this book was written for you. The transition from medical school to residency training is a challenging and transformative experience; life as a resident physician is drastically different to what most experience during their clinical rotations in medical school. You will undoubtedly approach the transition with a combination of emotions including enthusiasm and eagerness but also trepidation and apprehension. This survival guide will serve to temper these emotions and transform them into a sense of confidence as you progress. The book's focused, honest, and straightforward approach addresses the unique challenges encountered in residency training and discusses a number of strategies to facilitate tactful navigation of these challenging waters. This easily digestible volume concisely outlines a combination of principles that will help you become a highly motivated, adaptable, and successful trainee. The book spurs self-reflection that can be applied to develop the strength, perseverance, and endurance to succeed when the going gets tough. Each chapter contains valuable insight that trainees can draw from regardless of specialty. By utilizing and employing the tools discussed, opportunities presented throughout the course of your residency training and beyond can be translated into successes that you will continually be able to build upon, hone, and polish throughout your career as a respected and well-rounded physician and professional.

The School Psychologist's Survival Guide-Rebecca Branstetter 2012-05-01 A practical and accessible guide for helping school psychologists meet their everyday

challenges In this newest addition to the Jossey-Bass "Survival Guide" series, popular blogger Rebecca Branstetter offers help for school psychologists who must often travel to multiple school sites, deal with students with severe disabilities, meet with concerned parents, and manage school crises. The book is filled with practical advice, proven strategies, and useful tools, complete with reproducible forms, letters, and checklists for busy professionals. Filled with the tools, strategies, and ideas for school psychologists who must deal with the myriad challenges of working with a diverse group of students, often in multiple locations Another book in the popular Jossey-Bass "Survival Guide" Series Rebecca Branstetter is an experienced school psychologist and popular blogger ("Notes from the School Psychologist": studentsgrow.blogspot.com) This vital resource offers a down-to-earth guide for both novice and seasoned school psychologists. So, You Are a School Psychologist-Jerry L. Turner 2012-02-03 This book, written in Dr. Turner's unique college lecture style, has real world, practical suggestions that can be immediately implemented. His straightforward, "matter of fact" approach effectively conveys important points without "fluff." As a former teacher, counselor, and academic dean, his perspective on education is well rounded. His formal education includes two master's degrees, a doctorate in psychology and post-doctoral work in autism and behavior modification. "Dr. Turner's book is an excellent first step in the right direction. It is an example of his commitment to doing what is right for students. I found the sections on assessment and the IEP process particularly enlightening. This book would be an informative read for any individual involved in the IEP process.." - William Shupe, M.A., NPS Principal "Dr. Turner has written a comprehensive book that can save many interns, first year school psychologists, and even seasoned veterans valuable time if his strategies are utilized. Many people (professionals too) confuse activity with being successful and effective. However, many school psychologists are so busy running from meeting to meeting and are in "stomping out fires" mode and the day is over before they knew it started. They are very active, but not very effective. Dr. Turner shows us how planned activity and organization are effective. Dr. turner provides us with a common sense model of how to learn good professional habits and make them a part of our professional and daily life." - Roger McCoy, PPS school psychologist for Riverside County SELPA "This book is very thorough and innovative in the progressive future of school psychology. As a new School Psychologist entering the field, I love the detailed information and direction." - Alice Bass, School Psychologist Intern Dr. Turner is a licensed educational psychologist in California, lead school psychologist in a mid-size district, private pilot, Marine combat veteran, and adjunct college professor. He is a mentor to interns, guiding them through their 1200 intern hours required by the state. As a former member of the Board of Directors for the California Association of School Psychologists, he is aware of the many pressures and legal issues facing educational psychology and special education. Dr. Turner also received a research grant to study strengths-based interventions and is a promoter of shifting the perspective from "strengthening weaknesses" to "building on strengths."

Anesthesia Student Survival Guide-Jesse M. Ehrenfeld 2016-02-29 Edited and written by leading educators, this popular book for the anesthesiology rotation has been thoroughly updated and retains its distinctive case-based approach. Considerations for quality improvement and patient safety have been expanded throughout the book. Anesthesia Student Survival Guide provides a complete introduction to the specialty and is aimed at medical and nursing students as well as practitioners in critical care who seek a succinct overview of anesthesiology. From reviews of the First Edition: "...an excellent resource for the student wanting a deeper understanding of what is essentially a post-graduate subject, for example, an elective student." --British Journal of Anaesthesia "This is an excellent introduction to the specialty for third-year medical students, covering a broad range of material at a sufficient depth to be useful, and providing a good structure for a comprehensive course of self-directed study." --Doody's Review Service "The writing style is uniformly strong, which makes the book easy to read...[It] serves not only as an excellent resource for students and other learners seeking an introduction to anesthesia but also as a platform for teaching the basics. It will be a welcome addition to the libraries of teaching departments." --Canadian Journal of Anesthesia

The School Psychology Internship-Daniel S. Newman 2019-08-09 Dr. Newman has used his many years of experience working with interns and field supervisors to create this comprehensive guide to the school psychology internship. The second edition of this text includes updated research and tools, including a new job interview video, and new templates for developing a cover letter, CV, and remediation plan. Expanded content includes brand new chapters focused on applying for doctoral internships through the APPIC Match process, and successfully transitioning from the internship into the early career. Students and internship

supervisors alike will find this easy-to-use guide helpful in alleviating anxiety around common internship concerns. Emphasis is placed on the idea that the internship year is a dynamic and formative experience, not a static event, and that interns and supervisors both must be proactive planners, coordinators, and shapers of the experience. Interns and supervisors will find this guide to be a critical support for planning and enacting a high-quality school psychology internship.
