The Best Camera Is The One That's With You-Chase Jarvis

2009-09-18 A beacon of creativity with boundless energy, Chase Jarvis is well known as a visionary photographer, director, and social artist. In *The Best Camera Is The One That's With You*, Chase reimagines, examines, and redefines the intersection of art and popular culture through images shot with his iPhone. The pictures in the book, all taken with Chase's iPhone, make up a visual notebook—a photographic journal—from the past year of his life. The book is full of visually-rich iPhone photos and peppered with inspiring anecdotes. Two megapixels at a time, these images have been gathered and bound into a book that represents a stake in the ground. With it, Chase underscores the idea that an image can come from any camera, even a mobile phone. As Chase writes, "Inherently, we all know that an image isn't measured by its resolution, dynamic range, or anything technical. It's measured by the simple—sometimes profound, other times absurd or humorous or whimsical—effect that it can have upon us. If you can see it, it can move you." This book is geared to inspire everyone, regardless of their level of photography knowledge, that you can capture moments and share them with our friends, families, loved ones, or the world at the press of a button. Readers of *The Best Camera Is*

The One That's With You will also enjoy the iPhone application Chase Jarvis created in conjunction with this book, appropriately named Best Camera. Best Camera has a unique set of filters and effects that can be applied at the touch of a button. Stack them. Mix them. Remix them. Best Camera also allows you to share directly to a host of social marketing sites via www.thebestcamera.com, a new online community that allows you to contribute to a living, breathing gallery of the best iPhone photography from around the globe. Together, the book, app, and website, represent a first-of-its-kind ecosystem dedicated to encouraging creativity through picture taking with the camera that you already have. The Best Camera Is The One That's With You—shoot!

Snap and Share-Adam Furgang 2014-12-15 They say a picture is worth a thousand words. If that's true, then what are a thousand pictures worth? Today, with the use of mobile smartphones and similar devices containing miniaturized cameras, snapping and sharing photos has never been easier—or more commonplace. Playing around with photo and video apps like Instagram, Vine, Flickr, and Snapchat has become a natural part of teenage life. But along with the fun comes responsibility. This volume guides readers through simple steps for using photo and video apps and offers ideas for unleashing creativity. It also addresses the potential risks of using these apps, such as cyberbullying, and suggests a code of conduct that should be enforced whenever anyone snaps and shares.

Photographic Lighting for Everybody-Steven H. Begleiter

2020-06-15 The best camera is the one you have with you. Whether that's a high-tech DSLR, a consumer point-and-shoot, or simply your SmartPhone, there's a common denominator that will determine the visual impact of the images you create: the light. Identifying beautiful light (or creating/modifying the light) takes experience, observation, and a knowledge the fundamentals of lighting.

Learning how to visualize the intended image in your mind's eye and translate that vision onto a two-dimensional plane is, as this book will show, far more important than what device you actually use to record that image. If you have ever looked at an amazing scene or subject but been disappointed by your photos of it—this is the book for you! Through examples and exercises, the author challenges you creatively, starting with the very basics of lighting and building a knowledge base that you can apply to your growth as a photographer at any stage, and with any camera.

The Home Edit-Clea Shearer 2019-03-19 NEW YORK TIMES BESTSELLER • From the stars of the Netflix series Get Organized with The Home Edit (with a serious fan club that includes Reese Witherspoon, Gwyneth Paltrow, and Mindy Kaling), here is an accessible, room-by-room guide to establishing new order in your home. Believe this: every single space in your house has the potential to function efficiently and look great. The mishmash of summer and winter clothes in the closet? Yep. Even the dreaded junk drawer? Consider it done. And the best news: it's not hard to do—in fact, it's a lot of fun. From the home organizers who made their orderly eye candy the method that everyone swears by comes Joanna and Clea's signature approach to decluttering. The Home Edit walks you through paring down your belongings in every room, arranging them in a stunning and easy-to-find way (hello, labels!), and maintaining the system so you don't need another do-over in six months. When you're done, you'll not only know exactly where to find things, but you'll also love the way it looks. A masterclass and look book in one, The Home Edit is filled with bright photographs and detailed tips, from placing plastic dishware in a drawer where little hands can reach to categorizing pantry items by color (there's nothing like a little ROYGBIV to soothe the soul). Above all, it's like having your best friends at your side to help you turn the chaos into calm. PLEASE NOTE: The paperback includes a starter set of labels for your refrigerator; the ebook and audiobook include a link to

download and print the labels from a computer (you will need 8-1/2 x 11-inch clear repositionable sticker project paper, such as Avery 4397). Featured in Glamour's 10 Books to Help You Live Your Best Life

The LIFE Pocket Guide to Digital Photography-The Editors of LIFE Books 2012-10-09 When LIFE published the first edition of this book in 2010, Scott Kelby, Editor-in-Chief of Photoshop User magazine (and a guru in the world of digital shooting), wrote, "Joe McNally has put together the LIFE Guide to Digital Photography, which is packed full of tips, tricks, how-to, and beautiful pictures from Joe's thirty-plus-year photo career. If you've ever experienced one of Joe's workshops or seminars, you know he's a fantastic teacher, and this book is an extension of that. While he does write about the basics of photography, if you know Joe, you know that he's found a way to work his own sense of humor and familiarity in with all the nuts and bolts to make it an entertaining read." Thousands of photo fans agreed, and eagerly joined Joe on his happy journey through the pixelated world of modern-day photography. In so doing, they learned from one of LIFE's master shooters-in fact, the final in the long line of distinguished LIFE staff photographers-who encouraged them that, with a little preparation and care, with a dash of enthusiasm and daring, anyone can make a better photo: Anyone can turn a "keeper" into a treasure. It has since become clear to Joe and the editors of LIFE that their Guide to Digital Photography was built to last-that its tips and tone had struck a chord with photography enthusiasts everywhere. One thing it wasn't, however, was built to fit in your camera bag when you were heading into the field. Now it is! Here's the digest-sized version, filled with the same wonderful collection of McNally photography, beautifully illustrating the points Joe is making. Everything you need to know about light and lenses, about color or composition, is in these pages. In *The Nikon Autofocus System, 2nd Edition*, photographer Mike Hagen, author of the bestselling *The Nikon Creative Lighting System*, takes his deep knowledge of Nikon technology and concentrates on its focus features. In this book, which covers all current Nikon DSLR models (including the D5 and D500), Hagen fully explains how Nikon autofocus works, including detailed discussions of all the autofocus modules, drive systems, and camera buttons and menus. He also devotes an entire chapter to explore how focus works with Nikon's lenses.

Armed with this general knowledge, Hagen then dives deep and offers camera setups, settings, and best practices for specific field techniques that address the photographic genres that are notoriously challenging for focus: action and sports (indoor and outdoor), wildlife (including birds in flight), and macro photography. He also covers genres such as portrait, landscape, underwater, low-light, and street photography. Hagen not only advises on the best ways to set up the camera and focus systems, he gives helpful tips and tricks throughout the book.

The Nikon Autofocus System also covers:

- Live view autofocus methods and settings
- Achieving great focus in video
- AF tracking
- AF shooting styles, such as back-button AF and shutter-release AF
- HDR, panoramas, and other techniques for shooting with a tripod
- An entire chapter on additional terms and techniques, such as hyperfocal distance, calibrating lenses, focus and flash photography, and more
