An African Elegy-Ben Okri 2015-04-30 Dreams are the currency of Okri's writing, particularly in this first book of poems, An African Elegy, but also in his books of short stories and prize-winning novel The Famished Road. Okri's dreams are made on the stuff of Africa's colossal economic and political problems, and reading the poems is to experience a constant succession of metaphors of resolution in both senses of the word. Virtually every poem contains an exhortation to climb out of the African miasma, and virtually every poem harvests the dream of itself with an upbeat restorative ending' - Giles Foden, Times Literary Supplement  
Contraception - Healthy Choices-Family Planning 2010-04-01 `It's a really great book: friendly, comprehensive, complete and up-to-date. It is an explanatory guide to help you judge and choose the contraception to use. I recommend the book highly.' Dr Cindy Pan, general practitioner, media broadcaster and author of Pandora's Box. Choosing a method of contraception isn't simply about preventing pregnancy. It's also about making the best choice for your future, your lifestyle, your health and your peace of mind. This updated edition of Contraception-Healthy Choices provides both women and men with information to help make that choice. Forms of contraception covered include condoms (male and female), progestogen-only injections, implants, diaphragms, cervical caps, intrauterine devices (IUDs), natural family planning, traditional methods and sterilisation. The book also includes an update on the contraceptive pill, a new chapter on the increasingly popular vaginal ring, and new information on emergency contraception. There is information on how pregnancy happens, reducing the incidence of sexually transmissible infections and abortion. Written in an easy-to-read Q&A format and illustrated throughout, Contraception-Healthy Choices is a practical and contemporary guide for people who want to make an contraception they use.  
Teaching and Learning Mathematics in Multilingual Classrooms-Anjum Halai 2015-12-17 Contemporary concerns in mathematics education recognize that in the increasingly technological and globalized world, with concomitant change in population demographics (e.g. immigration, urbanization) and a change in the status of languages (e.g. English as a dominant language of science and technology) multilingualism in classrooms is a norm rather than an exception. Shifts in perspective also view language not simply as an instrument for cognition with all learners equipped with this instrument in service of learning, although clearly in the classroom that remains of importance. Rather, it is now also being acknowledged that language use is inherently political, so that the language that gets official recognition in the classroom is invariably the language of the powerful elite, or the dominant societal language, or in the case of post-colonial contexts the language of the colonisers. From this socio-political role of language in learning quite different issues arise for teaching, learning and curriculum for linguistically marginalized learners than that of cognition (e.g. immigrants, second language learners, other). Policies on language in education are being considered and re-considered with specific reference to mathematics teaching and learning. Given the policy environment, globally the proposed publication is timely. This edited collection draws on recent, emerging insights and understandings about the approaches to improving policy and practice in mathematics education and mathematics teacher education in multilingual settings. It presents, and discusses critically, examples of work from a range of contexts and uses these examples to draw out key issues for research in education in language diverse settings including teaching, learning, curriculum and fit these with appropriate policy and equity approaches. With contributions from all over the world, especially novice researchers in low income countries, this book is a valuable resource for courses in Mathematics Education and related social sciences both at the graduate and undergraduate levels, as well as for students of international development.

Purple Hibiscus-Chimamanda Ngozi Adichie 2012-04-17 "One of the most vital and original novelists of her generation." —Larissa MacFarquhar, The New Yorker From the bestselling author of Americanah and We Should All Be Feminists Fifteen-year-old Kambili and her older brother Jaja lead a privileged life in Enugu, Nigeria. They live in a beautiful house, with a caring family, and attend an exclusive missionary school. They're completely shielded from the troubles of the world. Yet, as Kambili reveals in her tender-voiced account, things are less perfect than they appear. Although her Papa is generous and well respected, he is fanatically religious and tyrannical at home—a home that is silent and suffocating. As the country begins to fall apart under a military coup, Kambili and Jaja are sent to their aunt, a university professor outside the city, where they discover a life beyond the confines of their father's authority. Books cram the shelves, curry and nutmeg permeate the air, and their cousins' laughter rings throughout the house. When they return home, tensions within the family escalate, and Kambili must find the strength to keep her loved ones together. Purple Hibiscus is an exquisite novel about the emotional turmoil of adolescence, the powerful bonds of family, and the bright promise of freedom.

Bravo Zulu, Samantha!-Kathleen Benner Duble 2012-12-01 Independent-minded Sam does not like the fact that she has to spend a month of her summer vacation at her grandparents' place. Twelve-year-old Sam adores her grandmother, but Grandma will be at work most of the time during Sam's visit, leaving Sam with the Colonel, her prickly grandfather. Sam's relationship with him is shaky at best, and now that the Colonel has had to retire from his career as a military pilot, he is harder than ever to get along with. Sam soon finds that her grandfather's behavior is even stranger than she expected. He keeps disappearing for long stretches of time and won't let Sam go into the old barn. Sam is eager to solve the mystery, but when she discovers that the Colonel is building an airplane, they both have a decision to make. Will Sam let the cat out of the bag and ruin her grandfather's plan? Or will he relent and let Sam help him finish the plane? In this story filled with interesting facts and aeronautical information, author Kathleen Benner Duble skillfully mines the depth and complexity of human relationships and what happens when dreams, once deferred, may finally be realized.

Writing Matters-Kristine Brown 1989-02-16 Writing Matters is designed to develop students' writing ability and give them the confidence to use this ability in everyday life. Through extensive use of real-life examples it provides useful models for students and teachers to work from and discuss in the classroom. It emphasises that writing is a process and also that the demands of writing vary depending on the reader, the purpose, the content and the writing situation. Accordingly, the book is divided into two parts. Part 1 deals with basic procedures such as preparing, drafting and revising texts and also offers help in the often difficult areas of spelling and punctuation. Part 2 focuses on writing contexts ranging from the functional (letters of application, postcards, advertisements) to more creative, personal writing. The units in this part give practice in all these different types of writing. This book - guides students progressively towards proficient and effective writing - uses lively, authentic material as models - is relevant to students' real-life needs and interests - can be used flexibly as a course or as supplementary material. Written by experienced teachers specialising in writing skills development, Writing Matters can also be used by adult speakers of English as a first language and secondary school students.  
Diversity in Africa-Kurt April 2006-11-24 Africa's diversity is its greatest resource and challenge. In this book, leaders from business, government, academia and the voluntary sector discuss the implications of this diversity for leadership. Throughout, contributors relate organisational issues to the social, political and cultural contexts and focus on the role of effective leadership.  
Meet Shakespeare!-Jay Heale 1995-09-19 Aimed at both teachers and pupils at higher and lower secondary levels, this lively book offers a practical first introduction to the plays of Shakespeare.  
Can Language be Planned?-Joan Rubin 2019-03-31 This pioneer study goes well beyond the subject of linguistics to encompass economic, sociological, political, and educational approaches to language change. In the context of the development of national resources, the book focuses on language planning—the deliberate change and promotion of language structure and language use. It outlines a theoretical approach to the study of language planning and includes selected case studies which demonstrate the possibilities of broadening and improving national planning by taking linguistic and human resources into explicit account to enhance forecasting. The contributors to this volume include highly renowned experts in their respective academic fields as well as actual language planners. They were brought together on the instigation of a study group on language-planning processes sponsored by the East-West Center, University of Hawaii, with Ford Foundation support. Can Language Be Planned? is one result of their joint studies. An on-going cross-national research project on language-planning processes at Stanford University is another.  
Mergers in Higher Education-Jonathan D. Jansen 2002 Do mergers, in fact, save money? Can mergers redress inequalities in the higher education system? How does a merger impact on the resultant curriculum of the combined institutions? Are certain kinds of mergers, such as voluntary mergers, more successful than others?  
Learner's book-Gail Ellis 1989  
Learning for Success : Skills and Strategies for Canadian Students-Joan Fleet 1990 This book presents a comprehensive, systematic approach to the development of learning strategies.  
The Wiby Kids - How It All Began-Phiwayinkosi G. Mbuyazi 2011-09-01 The WIBY Kids - How It All Began tells the story of how four South African teenagers, Kwethu, Jo, Scott and Bobo, began their adventures of discovery in the world of what lies behind the technological wonders of the world today. Physics, mathematics, philosophy, history, culture and life a just a few aspects of knowledge and its practice that the four encounter along their journey. With the help of stimulating counsel from their mentor, Uncle Mike, an engineer by training, they form a club through which they begin dedicating their spare time to the search for understanding. Armed with curiosity and the audacity to ask questions, their mutual interactions (and with Uncle Mike) relentlessly lead them to explore how they can be participants in the world of innovation rather than being spectators and mere consumers. They draw inspiration from real-life examples of innovators such as Trevor Baylis, who, when confronted with the dire need for mass communications in Africa, went on to invent the wind-up radio and the associated technologies. The WIBY Kids - How It All Began is a story of how everyone can cultivate a dream and an innovative mind, and how even teenagers can begin taking necessary baby steps toward making a difference in their own world. The WIBY Kids are to science and technology what Harry Potter is to magic and wizardry.  
Zulu-Saul David 2004 This was the most controversial and brutal British imperial conflict of the nineteenth century. The real story of the Anglo-Zulu war was one of deception, dishonour, incompetence and dereliction of duty by Lord Chelmsford who invaded Zululand without the knowledge of the British Government. But it did not go to plan and there were many political repercussions. Using new material from archives in Britain and South Africa, Saul David blows the lid on this most sordid of imperial wars and comes to a number of startling new conclusions.

Language of Instruction in Tanzania and South Africa (LOITASA)-Birgit Brock-Utne 2003 This book covers research findings on the language and education situations in Tanzania and South Africa. It outlines the policies governing language of instruction for education in the two countries, and assesses the extent to which existing policies are being implemented. It presents the history of the development of language policies in the two countries and considers how they are actually working in practice at classroom level. The contributors further consider the economic viabilities of language policies, and the necessity to rationalise languages and dialects for education purposes.  
Dreaming of Light-Jayne Bauling 2013-03-13 Regile is a zama-zama working illegally in an abandoned mine near Barberton. Being eighteen, Regile has moved up the ranks and is now paid a salary to keep the other child workers in line.  
The Long Journey of Poppie Nongena-Elsa Joubert 2019-10-15 Poppie Nongenens arduous journey covers 40 years of South Africas history, sweeping through the riots of Sharpeville, Soweto and Cape Town, on to an indefinite but unpromising future. The plot reflects the brutality and injustice of the Apartheid system, while Elsa Jouberts characterisations reflects the courage and fortitude of people in the face of hardship and difficulty. Poppies contented childhood in the Capes countryside came to an end when she married a migrant worker, and was forced by the authorities to move with him and their young family to the unfamiliar and bewildering city of Cape Town. No sooner had she established her roots in the new township, when the laws changed and she was informed of her obligation to relocate to the Ciskei, her husbands homeland. He, as a migrant worker, was permitted to remain in the Cape to work. Over a ten-year period, Poppie fought the heinous pass law system, winning limited extensions to the permit that would allow her to live and work in Cape Town and enable her to keep the family together and provide an education for her children. Her own anger was shared by thousands and inevitably the brooding undercurrent of discontent exploded throughout South Africa. Suddenly, there were no further extensions. Poppie and her children were forcibly removed from their home and resettled in a new township, hundreds of miles away near East London.  
The Long Journey of Poppie Nongena is an epic tale of the endless adversity and struggle of a humble black woman under Apartheid laws. Poppie emerges from being a simple country girl to becoming an archetypal heroine of South Africa.  
A Grain of Wheat-Ngũgĩ wa Thiong'o 1968 In this ambitious and densely worked novel, we begin to see early signs of Ngugi's increasing bitterness about the ways in which the politicians are the true benefactors of the rewards of independence.  
Paragraph Development-Martin L. Arnaudet 1990-01-01 Paragraph Development helps students edit their own writing for clarity and accuracy and offers a three-phase strategy for building writing skills through planning, writing, and revising. The approach in each chapter is direct and functional: a model is provided and graphically explained, then students use the model to write their own paragraphs.-- Offers controlled information-transfer exercises, a choice of writing topics, and peer consultation and writing-evaluation methods.
