Behaviour of ring ideal in neutrosophic and soft sense-Tuhin Bera This article enriches the idea of neutrosophic soft ideal (NSI). The notion of neutrosophic soft prime ideal (NSPI) is also introduced here. The characteristics of both NSI and NSPI are investigated. Their relations are drawn with the concept of ideal and prime ideal in crisp sense. Any neutrosophic soft set (Nss) can be made into NSI or NSPI using the respective cut set under a situation. The homomorphic characters of ideal and prime ideal in this new class are also drawn critically.

A World Checklist of Birds-Burt L. Monroe 1997-02-27 Many field ornithologists record where and when they identify species of birds, especially when they encounter a species out of its normal range or for the first time. Until now, however, a checklist based on the Sibley-Ahlquist-Monroe classification has not been available. In this book, Burt L. Monroe, Jr., and Charles G. Sibley provide a list of 9,702 living avian species based on their 1990 book Distribution and Taxonomy of Birds of the World and its 1993 Supplement.

The Bird Almanac-David Michael Bird 2004 Observing birds often raises many intriguing questions. Such as what is the incubation time for those robin eggs sitting in the nest above the porch light? What kinds of flowers attract humming birds? What are the migratory distances of various species? What are the major causes of bird deaths? The Bird Almanac is an invaluable resource, impressive in scope and depth and complemented with tables and illustrations. This Second Edition has been reformatted for easier use and now features quick-find tabs and an index. The first section of the book comprehensively covers the history, biology and behavior of birds. Bird physiology, biological systems and anatomy are explained in easy-to-understand terms and annotated illustrations. Other topics include: Fossil history of birds  
Reproduction and mortality Threatened and endangered species Major birding festivals and competitions  
How to attract specific species to the backyard Extensive resources for bird-lovers including the top birding locations in America Birding code of ethics The second section consists of an authoritative world checklist of bird species. The birds are organized by taxonomic order and listed by common and Latin

name. The valuable information in The Bird Almanac fills in the gaps in knowledge of even the most seasoned birder.

Helm Dictionary of Scientific Bird Names-James A. Jobling 2010-06-30 Many scientific bird names describe a bird's habits, habitat, distribution or a plumage feature, while others are named after their discoverers or in honour of prominent ornithologists. This extraordinary work of reference lists the generic and specific name for almost every species of bird in the world and gives its meaning and derivation. In the case of eponyms brief biographical details are provided for each of the personalities commemorated in the scientific names. This fascinating book is an outstanding source of information which will both educate and inform, and may even help to understand birds better.
