Strength for the Journey-Diana Butler Bass 2017-11 • Updated version of spiritual autobiography from an important voice in the church • Insights on how parishes have confronted issues of change As a standard in the field of spiritual autobiography, Diana Butler Bass' Strength for the Journey has been a guide for thousands of Christians who have also found themselves "journeying" along a path toward a faith different from that discovered in childhood. This new edition will retain all that drew readers to its pages alongside the voice of those next generation Christians now walking that path for themselves. In Strength for the Journey, Diana Butler Bass illustrates the dynamic strength and persistence of mainline Protestantism. While many baby boomers left the church, only to come back later in life, Bass was a "stayer" who witnessed the struggles and changes and found much there that was meaningful. Offering thought-provoking portraits of eight parishes she attended over two decades, she explores the major issues that have confronted mainline denominations, congregations, and parishioners during those years—from debates over women clergy to conflicts about diversity and community to scrimmages between tradition and innovation.

The Untold Journey-Natalie Robins 2017-05-16 A biography of a famed 20th century, Jewish New York author and literary and social critic who struggled in the shadow of her husband. Diana Trilling's life with Columbia University professor and literary critic Lionel Trilling was filled with secrets, struggles, and betrayals, and she endured what she called her "own private hell" as she fought to reconcile competing duties and impulses at home and at work. She was a feminist, yet she insisted that women's liberation created unnecessary friction with men, asserting that her career ambitions should be on equal footing with caring for her child and supporting her husband. She fearlessly expressed sensitive, controversial, and moral views, and fought publicly with Lillian Hellman, among other celebrated writers and intellectuals, over politics. Diana Trilling was an anticommunist liberal, a position often misunderstood, especially by her literary and university friends. And finally, she was among the "New Journalists" who transformed writing and reporting in the 1960s, making her nonfiction as imaginative in style and scope as a novel. The first biographer to mine Diana Trilling's extensive archives, Natalie Robins tells a previously undisclosed history of an essential member of New York City culture at a time of dynamic change and intellectual relevance. "Meticulously researched and documented, the biography is a detailed foray into the lives of a generation of writers and into the mind of literary critic, writer and intellectual Diana Trilling."—Ms. "Robins does a solid job of rehabilitating a significant literary and cultural figure of the 20th century, a woman who spent much of her career in her husband's shadow."—Kirkus Reviews

Rahab, Woman of Jericho-Diana Wallis Taylor 2020-08-04 Some biblical scholars maintain that Rahab, the woman who hid Joshua's two spies, was a harlot or prostitute. So how did she become one of the ancestors of Jesus Christ? Wouldn't the Father ensure a pure lineage for His Son? In this historical fiction, author Diana Wallis Taylor offers a beautiful story of intrigue that suggests Rahab was a descendent of Ephraim, one of the ten lost tribes of Israel. With no available Jewish men in her town, she marries Radames, a young Egyptian officer who is the new governor of Jericho. When the Israelites approach Canaan with their army, pharaoh sends word that he is withdrawing his troops.

Radames fabricates a story to tell Jericho's king, but Hammurabi doesn't believe it...and he has his eye on the beautiful Rahab. What will happen to Rahab after the lecherous king poisons her husband? How can she save her family from the invading Israelites? God parted the waters of the Jordan River for them—will He likewise provide miracles and blessings to her Ephraimite clan if they can rejoin their people?

Diana Inquest-John Morgan 2009 The Untold Story exposes high level corruption in the 21st century British justice system. It reveals how judicial corruption led to a seriously flawed verdict at the inquest into the deaths of Princess Diana and Dodi Fayed. It provides a thorough record of the key evidence that was heard by the inquest jury and details the 143 important witnesses who were not heard from during the inquest. The book reveals the critical relevance of the evidence from the original police statements that the jury were prevented from having access to. This untold story destroys the perception that the inquest achieved justice for the deceased occupants of the crashed Mercedes. It clearly outlines the methods employed by the royal coroner to continually manipulate the jury throughout the six months of the inquest. This is the gripping, true account of a judiciary hell-bent on ensuring that the jury would not be permitted to return a verdict of murder in the most significant and high profile inquest of our modern era.

To Speak for the Trees-Diana Beresford-Kroeger 2019-09-24 Canadian botanist, biochemist and visionary Diana Beresford-Kroeger's startling insights into the hidden life of trees have already sparked a quiet revolution in how we understand our relationship to forests. Now, in a captivating account of how her life led her to these illuminating and crucial ideas, she shows us how forests can not only heal us but save the planet. When Diana Beresford-Kroeger--whose father was a member of the Anglo-Irish aristocracy and whose mother was an O'Donoghue, one of the stronghold families who carried on the ancient Celtic traditions--was orphaned as a child, she could have been sent to the Magdalene Laundries. Instead, the O'Donoghue elders, most of them scholars and freehold farmers in the Lisheens valley in County Cork, took her under their wing. Diana became the last ward under the Brehon Law. Over the course of three summers, she was taught the ways of the Celtic triad of mind, body and soul. This included the philosophy of healing, the laws of the trees, Brehon wisdom and the Ogham alphabet, all of it rooted in a vision of nature that saw trees and forests as fundamental to human survival and spirituality. Already a precociously gifted scholar, Diana found that her grounding in the ancient ways led her to fresh scientific concepts. Out of that huge and holistic vision have

come the observations that put her at the forefront of her field: the discovery of mother trees at the heart of a forest; the fact that trees are a living library, have a chemical language and communicate in a quantum world; the major idea that trees heal living creatures through the aerosols they release and that they carry a great wealth of natural antibiotics and other healing substances; and, perhaps most significantly, that planting trees can actively regulate the atmosphere and the oceans, and even stabilize our climate. This book is not only the story of a remarkable scientist and her ideas, it harvests all of her powerful knowledge about why trees matter, and why trees are a viable, achievable solution to climate change. Diana eloquently shows us that if we can understand the intricate ways in which the health and welfare of every living creature is connected to the global forest, and strengthen those connections, we will still have time to mend the self-destructive ways that are leading to drastic fires, droughts and floods.
