Fanie Fourie's Lobola-Nape'a Motana 2007 Fanie Fourie is a true blue boere seun with an unrepentantly macho approach to love and life in general. But his world view undergoes an abrupt reinvention when he is 'bitten by the louse and bedbug of love' and falls head-over-heels for Dimakatjo Machabaphala, a beautiful black nurse. In pursuit of true love, these lovers must steer a path through the challenging intricacies of inter-cultural negotiation and leap the hurdles of racial bigotry, tenacious former lovers, and the like, finally to emerge triumphant as traditionally united man and wife. This delightful novel is filled with naughty humor and ironic reversals of stereotype. With a deft and humorous pen, the author evokes the colliding worlds of traditional and contemporary culture in a South Africa still struggling to renegotiate roles and relationships and shake off the complexes and prejudices of the past.

WHO Recommendations on Intrapartum Care for a Positive Childbirth Experience-World Health Organization 2018-06-25 This up-to-date, comprehensive and consolidated guideline on essential intrapartum care brings together new and existing WHO recommendations that, when delivered as a package, will ensure good-quality and evidence-based care irrespective of the setting or level of health care. The recommendations presented in this guideline are neither country nor region specific and acknowledge the variations that exist globally as to the level of available health services within and between countries. The guideline highlights the importance of woman-centered care to optimize the experience of labor and childbirth for women and their babies through a holistic, human rights-based approach. It introduces a global model of intrapartum care, which takes into account the complexity and diverse nature of prevailing models of care and contemporary practice. The recommendations in this guideline are intended to inform the development of relevant national- and local-level health policies and clinical protocols. Therefore, the target audience includes national and local public health policy-makers, implementers and managers of maternal and child health programs, health care facility managers, nongovernmental organizations (NGOs), professional societies involved in the planning and management of maternal and child health services, health care professionals (including nurses, midwives, general medical practitioners and obstetricians) and academic staff involved in training health care professionals.
