Lettera a una professoressa-Scuola di Barbiana, 2017 Manifesto che ha reso celebre in tutto il mondo don Milani e la scuola di Barbiana, Lettera a una professoressa ha lasciato segni profondi nella cultura e nella società, nonostante travisamenti e strumentalizzazioni. Frutto di una scrittura collettiva sostenuta da un imponente lavoro preparatorio e di cesello linguistico, questo libro-icona rivendica il diritto allo studio di fronte a una realtà scolastica che riproduceva ferocemente le disuguaglianze sociali. E ancora oggi rivolge alla classe docente il suo appassionato appello morale e civile, il rivoluzionario messaggio di un sacerdote convinto che un maestro amante del vero e del giusto può cambiare il mondo. The Archipelago:John Foot 2018-05-17 'An enjoyable, highly readable history that manages to bring murky, often fendishly complex events into the light' Sunday Times Italy emerged from the Second World War in ruins. Divided, invaded and economically broken, it was a nation that some claimed had ceased to exist. By the 1960s, Italy could boast the fastest-growing economy in the world, as rural society disappeared almost overnight. In The Archipelago, acclaimed historian John Foot chronicles Italy's tumultuous history from the post-war period to the present. From the silent assimilation of fascists into society after 1945 to the artistic peak of neorealist cinema, he examines both the corrupt and celebrated sides of the country. While often portrayed as a failed state on the margins of Europe, Italy has instead been at the centre of innovation and change – a political laboratory. This new history tells the fascinating story of a country always marked by scandal but with the constant ability to re-invent itself. Comprising original research and lively insights, The Archipelago chronicles the crises and modernisations of over seventy years of post-war Italy, from its fields, factories, squares and housing estates to the political intrigue of Rome. Una scuola da rifare-Giuseppe Caliceti 2011 Handbook of Research on Didactic Strategies and Technologies for Education: Incorporating Advancements-Pumilia-Gnarini, Paolo M. 2012-09-30 "This book is designed to be a platform for the most significant educational achievements by teachers, school administrators, and local associations that have worked together in public institutions that range from primary school to the university level"--Provided by publisher. Children and the Capability Approach-M. Biggeri 2011-10-04 Exploring a wide variety of case studies and developmental issues from a capability perspective, this book is an original contribution to both development and children's studies that raises a strong case for placing children's issues at the core of human development. Le cose che ho imparato-Gianni Riotta 2011-11-15 Romanzo degli affetti che temiamo di aver perduto e insieme saggio sulle idee che ci dividono nel XXI secolo, Le cose che ho imparato è anche la confessione, candida e a tratti ironica, dello spaesamento di questa nostra stagione. Social Class, Language and Power-Carmel Borg 2013-11-19 This book foregrounds the ideas of an important European pedagogue whose writings provide insights for a critical social justice oriented approach to education. Lorenzo Milani has all the credentials to be regarded as potentially a key source of inspiration for critical pedagogy. Milani's approach to education for social justice gives importance to a number of issues, notably social class issues, race issues especially with his critique of North-South relations and cultural/technological transfer, the collective dimension of learning and action (emphasis is placed on reading and writing the word and the world collectively), student-teachers and teacher-students (a remarkable form of peer tutoring), reading and responding critically to the media (newspapers), the existential basis of one's learning (from the occasional to the profound motive) and the fusion of academic and technical knowledge. There is also an anti-war pedagogy that emerges from his defence of the right to 'consciousness objection' with its process of reading/teaching history against the grain. There is much in the work of Milani and his students to provide the basis for a an antidote to the prevailing contemporary system, a system which gives pride of place to testing, standardization, league tables and vouchers. -- Peter Mayo, University of Malta Aggiornamenti sociali- 2006

Leggere la Lettera. Il maestro don Lorenzo Milani 50 anni dopo-Luisa Amenta 2017

Lorenzo Milani, the School of Barbiana and the Struggle for Social Justice-Federico Botani 2014-01-30 This book sheds light on the work of one of the 20<SUP>th century's foremost critical educators, the Italian Lorenzo Milani (1923-1967), on the 90<SUP>th anniversary of his birth. It provides an exposition and critical analysis of the ideas contained in his writings, ideas that emerged from his experiences in two Tuscan localities. The work of Milani and the School of Barbiana that he directed provide signposts for a critically and sociologically engaged pedagogy. Important themes include education and class politics; education and imperialism; education and the culture of militarization; the collective dimensions of learning and writing; peer tutoring; critical media literacy; and reading history against the grain. These ideas are analyzed with reference to similar and contrasting ideas by other international educators, scholars and thinkers. As the book argues, Milani's oeuvre contains important ingredients for a social justice-oriented critical pedagogy. The spirit for this pedagogical approach is captured in the School of Barbiana's motto 'I care.'

The Binder of Lost Stories-Cristina Caboni 2020-01-21 From international bestselling author Cristina Caboni comes an exquisite and engrossing novel of two women, centuries apart, bound by a love of books and a longing for self-discovery. With her delicate touch, Sofia Bauer restores books to their original splendor. In this art she finds refuge from her crumbling marriage and the feeling that her once-vibrant life is slipping away. Then an antique German edition takes her breath away. Slipped covertly into the endpapers is an intriguing missive, the first part of a secret...from one bookbinder to another. Two hundred years ago, Clarice von Harmel defied the constraints of family and society to engage in a profession forbidden to women. Within three separate volumes, Clarice bound her own hidden story filled with pain, longing, and love beyond all reason. A confession that now crosses centuries to touch the heart of a stranger. With the help of book collector Tomaso Leoni, Sofia connects the threads of Clarice's past, page by page, line by line, town by town. She's determined to make Clarice's voice heard. With each new revelation, Clarice is giving Sofia the courage to find her own voice and hope for the future she thought was lost.

Learning and Social Difference-Peter Mayo 2015-11-17 Exploring how global changes affect education today, in the classroom and in local, national, and international contexts, this book explores the future of education's capacity for effectiveness in multicultural and multilingual contexts. The chapters deal with lifelong learning (a critique), immigration, antiracist education, parental involvement in schools, national curricula, Paulo Freire's legacy, insights from the work of Lorenzo Milani and the School of Barbiana, and Gramsci's writings on the school. There are both theoretical and empirically grounded chapters in this volume.

Adolescent Health and Wellbeing-Alessandro Pingitore 2019-11-14 This book presents a detailed and updated review of the widespread changes that take place during adolescence, adopting a preventive perspective that reflects physical, social, cognitive, and emotional changes. It addresses a broad range of aspects, including: the preventive programs and their systemic effects; the role of environment in influencing the healthy behaviors of adolescents and young adults; the use of e-Health technology in health and behavioral interventions for adolescents; and the clinical and prognostic implications of primordial prevention in healthy adolescents. All of these elements are subsequently reviewed using a multidimensional approach, in order to offer extensive information on the complex changes that characterize adolescents' physiological, psychological, and neurobiological development. In addition, the book depicts the preventive strategies currently used in various social settings (school, family, sport club, health policies) aimed not only at reducing lifestyle risk behaviors, but also at improving resilience, happiness, social involvement, self-esteem, and sociability. This update is essential in the light of the fact that, to date, prevention has mainly been directed towards adolescents with physical or mental disorders rather than their healthy peers. As such, the book offers a valuable tool for pediatricians, child and adolescents psychiatrists, and for all professionals involved in Health Promotion and Disease Prevention.

White as Silence, Red as Song-Alessandro D'Avenia 2018-09-04 Hailed as Italy's The Fault in Our Stars, this Italian bestseller is now available for the first time in English. "I was born on the first day of school, and I grew up and old in just two hundred days . . ." Sixteen-year-old Leo has a way with words, but he doesn't know it yet. He spends his time texting, polishing soccer maneuvers, and killing time with Niko and Silvia. Until a new teacher arrives and challenges him to give voice to his dreams. And so Leo is inspired to win over the red-haired beauty Beatrice. She doesn't know Leo exists, but he's convinced that his dream will come true. When Leo lands in the hospital and learns that Beatrice has been admitted too, his mission to be there for her will tend him on a thrilling but heartbreaking journey. He wants to help her but doesn't know how—and his dream of love will force him to grow up fast. Having already sold over a million copies, Alessandro D'Avenia's debut novel is considered Italy's The Fault in Our Stars. Now available in English for the first time, this rich, funny, and heartwarming coming-of-age tale asks us to explore the meaning—and the cost—of friendship, and shows us what happens when suffering bursts into the world of teenagers and renders the world of adults speechless.

Children and Peace-Nikola Balvin 2019-11-11 This open access book brings together discourse on children and peace from the 15th International Symposium on the Contributions of Psychology to Peace, covering issues pertinent to children and peace and approaches to making their world safer, fairer and more sustainable. The book is divided into nine sections that examine traditional themes (social construction and deconstruction of diversity, intergenerational transitions and memories of war, and multiculturalism), as well as contemporary issues such as Europe's "migration crisis", radicalization and violent extremism, and violence in families, schools and communities. Chapters contextualize each issue within specific social ecological frameworks in order to reflect on the multiplicity of influences that affect different outcomes and to discuss how the findings can be applied in different contexts. The volume also provides solutions and hope through its focus on youth empowerment and peacebuilding programs for children and families. This forward-thinking volume offers a multitude of views, approaches, and strategies for research and activism drawn from peace psychology scholars and United Nations researchers and practitioners. This book's multi-layered emphasis on context, structural determinants of peace and conflict, and use of research for action towards social cohesion for children and youth has not been brought together in other peace psychology literature to the same extent. Children and Peace: From Research to Action will be a useful resource for peace psychology academics and students, as well as social and developmental psychology academics and students, peace and development practitioners and activists, policy makers who need to make decisions about the matters covered in the book, child rights advocates and members of multilateral organizations such as the UN.

Sneaking a Look at God's Cards-G. C. Ghirardi 2005 Quantum mechanics, which describes the behavior of subatomic particles, seems to challenge common sense. Waves behave like particles; particles behave like waves. You can tell where a particle is, but not how fast it is moving—or vice versa. An electron faced with two tiny holes will travel through both at the same time, rather than one or the other. And then there is the enigma of creation ex nihilo, in which small particles appear with their so-called antiparticles, only to disappear the next instant in a tiny puff of energy. Since its inception, physicists and philosophers have struggled to work out the meaning of quantum mechanics. Some, like Niels Bohr, have responded to quantum mechanics' mysteries by replacing notions of position and velocity with probabilities. Others, like Einstein and Penrose, have disagreed and think that the entire puzzle reflects not a fundamental principle of nature but our own ignorance of basic scientific processes. Sneaking a Look at God's Cards offers the general reader a deep and real understanding of the problems inherent to the interpretation of quantum mechanics, from its inception to the present. The book presents a balanced overview of current debates and explores how the theory of quantum mechanics plays itself out in the real world. Written from the perspective of a leading European physicist, it looks extensively at ideas from both sides of the Atlantic and also considers what philosophers have contributed to the scientific discussion of this field. Sneaking a Look at God's Cards sets out what we know about the endlessly fascinating quantum world, how we came to this understanding, where we disagree, and where we are heading in our quest to comprehend the seemingly incomprehensible.

Anne Frank-Anne Frank 1972 Traces the life of a young Jewish girl who kept a diary during the two years she and her family hid from the Germans in an Amsterdam attic.

Greek Medical Papyri-Nicola Reggiani 2019-09-23 The volume collects papers presented at the International Conference "Greek Medical Papyri - Text, Context, Hypertext" held at the University of Parma on November 2-4, 2016, as the final event of the ERC project DIGMEDTEXT, aimed primarily at creating an online textual database of the Greek papyri dealing with medicine. The contributions, authored by outstanding papyrologists and historians of the ancient medicine, deal with a variety of topics focused on the papyrological evidence of ancient medical texts and contexts. The first part, devoted to "medical texts", contains some new reflections on important sources such as the Anonymus Londinensis and the Hippocratic corpus, as well as on specific themes like the pharmacological vocabulary, the official medical reports, the medical care in the Roman army. The second part collects papers about the "doctors' context", providing highlights from broader viewpoints like the analysis of the writing supports, the study of the ostraka from the Eastern Desert, the evidence of inscriptions and philosophical texts. The third part is entirely focused on the DIGMEDTEXT project itself: the team members present some relevant key issues raised by the digitisation of the medical papyri.

The Decoding the Disciplines Paradigm-David Pace 2017-02-27 Teaching and learning in a college setting has never been more challenging. How can instructors reach out to their students and fully engage them in the conversation? Applicable to multiple disciplines, the Decoding the Disciplines Paradigm offers a radically new model for helping students respond to the challenges of college and provides a framework for understanding why students find academic life so arduous. Teachers can help their pupils overcome obstacles by identifying bottlenecks to learning and systematically exploring the steps needed to overcome these obstacles. Often, experts find it difficult to define the mental operations necessary to master their discipline because they have become so automatic that they are invisible. However, once these mental operations have been made explicit, the teacher can model them for students, create opportunities for practice and feedback, manage additional emotional obstacles, assess results, and share what has been learned with others.

Majorana Case, The: Letters, Documents, Testimonies-Erasmo Recami 2019-11-25 This is a translated version (from Italian) on Ettore Majorana, one of the brightest Italian theoretical physicists of the 20th century who disappeared mysteriously in 1938. He was part of Enrico Fermi's scientific team in the 1930s.

Special Educational Needs and Inclusive Practices-Fabio Dovigo 2017-01-28 "Today, school is becoming a rapidly changing learning environment. Thinking about students as a homogeneous population is no longer allowed, as diversity – in terms of culture, language, gender, family organisation, learning styles and so on – has emerged as a key challenge for education today.The debate on Special Educational Needs largely reflects this challenge, as working in school implies careful reconsideration of what we mean by "normal" and "special". Current educational intervention is generally based on a deficit and "within-child" model of facing SEN, whereas very little attention is given to the role of learning environments. The focus is on the child more than on the whole class, and on cognition and technical provisions more than on affective, sociocultural and community dimensions of learning. Conversely, regarding students and their needs as "hidden voices" allows us to adopt a transformative approach which sees diversity as a stimulus for the development of educational practices that might benefit all children and help school to become an inclusive and "moving" organisation.The aim of the book is twofold: on the one hand, it offers a systematic overview of the inclusive education state-of-the-art in six countries (Germany, Italy, Norway, Sweden, UK, and USA) based on the contributions by well-known scholars such as Christy Ashby, Barbara Brokamp, Fabio Dovigo, Kari Nes, Mara Westling Alodi, Tony Booth, and Beth Ferri; on the other hand, the book analyses five cases of good practices of inclusion related to different subjects and school levels."

Keeping Track-Jeannie Oakes 2005-05-10 Selected by the American School Board Journal as a "Must Read" book when it was first published and named one of 60 "Books of the Century" by the University of South Carolina Museum of Education for its influence on American education, this provocative, carefully documented work shows how tracking—the system of grouping students for instruction on the basis of ability—reflects the class and racial inequalities of American society and helps to perpetuate them. For this new edition, Jeannie Oakes has added a new Preface and a new final chapter in which she discusses the "tracking wars" of the last twenty years, wars in which Keeping Track has played a central role. From reviews of the first edition: "Should be read by anyone who wishes to improve schools."—M. Donald Thomas, American School Board Journal "[This] engaging [book] . . . has had an influence on educational thought and policy that few works of social science ever achieve."—Tom Loveless in The Tracking Wars "Should be read by teachers, administrators, school board members, and parents."—Georgia Lewis, Childhood Education "Valuable. . . . No one interested in the topic can afford not to attend to it."—Kenneth A. Strike, Teachers College Record

Marie Curie-Alice Milani 2019 Originally published: [Padua]: BeccoGiallo, 2017.

The Innocent-Ian McEwan 2014-05-13 The setting is Berlin. Into this divided city, wrenched between East and West, between past and present, comes twenty-five-year-old Leonard Marnham, assigned to a British-American surveillance team. Though only a pawn in an international plot that is never fully revealed to him, Leonard uses his secret work to escape the bonds of his ordinary life -- and to lose his unwanted innocence. The promise of his new life begins to be fulfilled as Leonard becomes a crucial part of the surveillance team, while simultaneously being initiated into a new world of love and sex by Maria, a beautiful young German woman. It is a promise that turns to horror in the course of one terrible evening -- a night when Leonard Marnham learns just how much of his innocence he's willing to shed.

The One-Straw Revolution-Masanobu Fukuoka 2010-09-08 Call it "Zen and the Art of Farming" or a "Little Green Book," Masanobu Fukuoka's manifesto about farming, eating, and the limits of human knowledge presents a radical challenge to the global systems we rely on for our food. At the same time, it is a spiritual memoir of a man whose innovative system of cultivating the earth reflected his deep faith in the wholeness and balance of the natural world. As Wendell Berry writes in his preface, the book "is valuable to us because it is at once practical and philosophical. It is an inspiring, necessary book about agriculture because it is not just about agriculture." Trained as a scientist, Fukuoka rejected both modern agribusiness and centuries of agricultural practice, deciding instead that the best forms of cultivation mirror nature's own laws. Over the next three decades he perfected his so-called "do-nothing" technique: commonsense, sustainable practices that all but eliminate the use of pesticides, fertilizer, tillage, and perhaps most significantly, wasteful effort. Whether you're a guerrilla gardener or a kitchen gardener, dedicated to slow food or simply looking to live a healthier life, you will find something here—you may even be moved to start a revolution of your own.

In Praise Of Imperfe-Rita Levi-Montalc 1988-05-08 The autobiography of Levi-Montalcini, who won the Nobel Prize for Medicine in 1986. Born in Torino into a middle-class Jewish family, she experienced the rise of fascism and antisemitism into the 1930s-40s (discussed on pp. 73-105). After the promulgation of the racial laws in 1938, it was impossible for her to pursue research at the Neurological Clinic and she continued her work in private. She survived the war hiding in a small town in Italy and later emigrated to the United States.

There are No Accidents-Robert H. Hopcke 1998 Explores the role of synchronicity in all aspects of life and shows how to analyze synchronistic experiences to help gain self-understanding

Writing about Lives in Science-Paola Govoni 2014-05-14 Following discussions on scientific biography carried out over the past few decades, this book proposes a kaleidoscopic survey of the uses of biography as a tool to understand science and its context. It offers food for thought on the role played by the gender of the biographer and the biographee in the process of writing. To provide orientation in such a challenging field, some of the authors have accepted to write about their own professional experience while reflecting on the case studies they have been working on. Focusing on (auto)biography may help us to build bridges between different approaches to men and women's lives in science. The authors belong to a variety of academic and professional fields, including the history of science, anthropology, literary studies, and science journalism. The period covered spans from 1732, when Laura Bassi was the first woman to get a tenured professorship of physics, to 2009, when Elizabeth H. Blackburn and Carol W. Greider were the first women's team to have won a Nobel Prize in science.
