Consumer Behavior-Hawkins 2002 Marketing attempts to influence the way consumers behave. These attempts have implications for the organizations making the attempt, the consumers they are trying to influence, and the society in which these attempts occur. We are all consumers and we are all members of society, so consumer behavior, and attempts to influence it, are critical to all of us. This text is designed to provide an understanding of consumer behavior. This understanding can make us better consumer, better marketers, and better citizens. A primary purpose of this text is to provide the student with a usable, managerial understanding of consumer behavior.-Pref.

Naked Soul-Salil Jha 2015-01-09 "Naked Soul: The Erotic Love Poems" is an extraordinary storytelling in the form of erotic love poetry, speaking directly to the reader's heart through sensations that course throughout the body. This powerful collection of erotic and sensual love poems celebrates the erotic spirit in all its forms -- from intense passionate sexual desire to seductive victory. There are love poems for every mood and sentimental feeling, for every phase of love you are experiencing whether you are with a partner or not. Read it slowly. Read a poem at a time, or two-or all at once-but give it time to sink into your heart. Read them again. Visualize. Let the poem show you what may be lying dormant in your own heart. Any poetry lover who loves deep symbolism, storytelling and musing over deep verses will find this book very touching. No matter which phase of love you are growing in currently, this book will serve to sail you further towards the endless ocean of love.

Blueprint for Action-Paula J. Bloom 2015-03-01 Blueprint for Action provides a framework for understanding the dynamics of organizational change in early care and education settings. It helps administrators move beyond a "quick fix" notion of center improvement by serving as a guide for organizational analysis and action. The book details a comprehensive method for assessing program strengths and areas in need of improvement. The heart of this approach is an individualized model of supervision and staff development. Woven throughout the text are numerous vignettes connecting the concepts to real-life situations experienced by early childhood administrators. The book includes 26 assessment tools and 12 worksheets that directors can adapt for use in their own programs.

Turning Dust to Gold-Haym Benaroya 2016-05-31 The expansion of our civilization to the Moon and beyond is now within our reach, technically, intellectually and financially. Apollo was not our last foray into the Solar System and already science fiction is finding it difficult to keep ahead of science and engineering fact. In 1807, few people anticipated the Wright Brothers' human flight a hundred years later. In 1869, only science fiction writers would have suggested landing people on the Moon in 1969. Similarly, other great inventions in mechanics and in electronics were not envisaged and therefore the technologies to which those inventions gave birth were only foreseen by a tiny group of visionaries.

The Hearts of Horses-Molly Gloss 2008-12-08 This breakout novel from the author of The Jump-Off Creek tells the heartwarming story of a determined young woman with a gift for “gentling” wild horses. In the winter of 1917, a big-boned young woman shows up at George Bliss’s doorstep. She's looking for a job breaking horses, and he hires her on. Many of his regular hands are off fighting the war, and he glimpses, beneath her showy rodeo garb, a shy but strong-willed girl with a serious knowledge of horses. So begins the irresistible tale of nineteen-year-old Martha Lessen, a female horse whisperer trying to make a go of it in a man’s world. It was thought that the only way to break a horse was to buck the wild out of it, and broken ribs and tough falls just went with the job. But over several long, hard winter months, many of the townsfolk in this remote county of eastern Oregon witness Martha's way of talking in low, sweet tones to horses believed beyond repair—and getting miraculous, almost immediate results—and she thereby earns a place of respect in the community. Along the way, Martha helps a family save their horses when their wagon slides into a ravine. She gentles a horse for a dying man—a last gift to his young son. She clashes with a hired hand who is abusing horses in unspeakable ways. Soon, despite her best efforts to remain aloof and detached, she comes to feel enveloped by a sense of community and family that she’s never had before. With the elegant sweetness of Plainsong and a pitch-perfect sense of western life reminiscent of Annie Dillard, The Hearts of Horses is a remarkable story about how people and animals make connections and touch each other's lives in the most unexpected and profound ways.

Trusted Data-Thomas Hardjono 2019-11-12 How to create an Internet of Trusted Data in which insights from data can be extracted without collecting, holding, or revealing the underlying data. Trusted Data describes a data architecture that places humans and their societal values at the center of the discussion. By involving people from all parts of the ecosystem of information, this new approach allows us to realize the benefits of data-driven algorithmic decision making while minimizing the risks and unintended consequences. It proposes a software architecture and legal framework for an Internet of Trusted Data that provides safe, secure access for everyone and protects against bias, unfairness, and other unintended effects. This approach addresses issues of data privacy, security, ownership, and trust by allowing insights to be extracted from data held by different people, companies, or governments without collecting, holding, or revealing the underlying data. The software architecture, called Open Algorithms, or OPAL, sends algorithms to databases rather than copying or sharing data. The data is protected by existing firewalls; only encrypted results are shared. Data never leaves its repository. A higher security architecture, ENIGMA, built on OPAL, is fully encrypted. Contributors Michiel Bakker, Yves-Alexandre de Montjoye, Daniel Greenwood, Thomas Hardjoni, Jake Kendall, Cameron Kerry, Bruno Lepri, Alexander Lipton, Takeo Nishikata, Alejandro Noriega-Campero, Nuria Oliver, Alex Pentland, David L. India - The Shimmering Dream-Max Reisch 2018-09-27 This extraordinary account of a remarkable journey made in 1933, through Iraq, Iran and Baluchistan (now part of Pakistan) to India is packed full of wonder, adventure, determination and love of travel and motorcycles. But what really sets this book apart are the wonderful descriptions of the people and cultures, now nearly forgotten, yet still hugely relevant in today’s age: all brought evocatively to life by the stunning photos from 1933. At that time, the idea of travelling to India on a motorcycle through the Middle East was considered impossible; there were often no

roads, not even any paths, and they were attempting to cross the burning deserts in the middle of August, on a tiny two-stroke motorcycle with barely enough power for the bike and rider, let alone a pillion passenger! This book is more than a fantastic adventure; it also offers some perceptive insights into the peoples, places and cultures of the time, as well as being full of drama, both personal and mechanical, as the motorcycle is urged on across the shimmering sands. A true window on the past – and a book which is definitely a ‘must have’ for all travel and motorcycle enthusiasts.
