Beginning Smartphone Web Development-Gail Frederick 2010-04-15 Today's Web 2.0 applications (think Facebook and Twitter) go far beyond the confines of the desktop and are widely used on mobile devices. The mobile Web has become incredibly popular given the success of the iPhone and BlackBerry, the importance of Windows Mobile, and the emergence of Palm Pre (and its webOS platform). At Apress, we are fortunate to have Gail Frederick of the well-known training site Learn the Mobile Web offer her expert

advice in *Beginning Smartphone Web Development*. In this book, Gail teaches the web standards and fundamentals specific to smartphones and other feature-driven mobile phones and devices. Shows you how to build interactive mobile web sites using web technologies optimized for browsers in smartphones Details markup fundamentals, design principles, content adaptation, usability, and interoperability Explores cross-platform standards and best practices for the mobile Web authored by the W3C, dotMobi, and similar organizations Dives deeps into the feature sets of the most popular mobile browsers, including WebKit, Chrome, Palm Pre webOS, Pocket IE, Opera Mobile, and Skyfire By the end of this book, you'll have the training, tools, and techniques for creating robust mobile web experiences on any of these platforms for your favorite smartphone or other mobile device.

Hydrology-H. M. Raghunath 2006 An attempt is made to place before students (degree and post-degree) and professionals in the fields of Civil and Agricultural Engineering, Geology and Earth Sciences, this important branch of Hydrosience, i.e., Hydrology. It deals with all phases of the Hydrologic cycle and related topics in a lucid style and in metric system. There is a departure from empiricism, with emphasis on collection of hydrological data, processing and analysis of data, and hydrological design on sound principles and matured judgement. Large number of hydrological design problems are worked out at the end of each article, to illustrate the principles involved and the design procedure. Problems for assignment are given at the end of each chapter, along with objective type and intelligence questions.

Trading Classic Chart Patterns-Thomas N. Bulkowski 2003-04-30 Use popular chart patterns profitably In his follow-up to the well-received *Encyclopedia of Chart Patterns*, Thomas Bulkowski gives traders a practical game plan to capitalize on established chart patterns. Written for the novice investor but with techniques for the professional, *Trading Classic Chart Patterns* includes easy-to-use performance tables, vivid case studies, and a scoring system that makes trading chart patterns simple. This comprehensive guide skillfully gives investors straightforward solutions to profitably trading chart patterns. *Trading Classic Chart Patterns* also serves as a handy reference guide for favorite chart patterns, including

broadening tops, head-and-shoulders, rectangles, triangles, and double and triple bottoms. Filled with numerous techniques, strategies, and insights, Trading Classic Chart Patterns fits perfectly into any pattern trader's arsenal. Thomas N. Bulkowski (Keller, TX), an active investor since 1981, is the author of the highly acclaimed Encyclopedia of Chart Patterns (Wiley: 0471295256) as well as numerous articles for Technical Analysis of Stocks & Commodities. Trained as a computer engineer, Bulkowski worked for over a decade at Tandy Corporation. Prior to that, he worked on the Patriot air defense system for Raytheon. New technology and the advent of around the clock trading have opened the floodgates to both foreign and domestic markets. Traders need the wisdom of industry veterans and the vision of innovators in today's volatile financial marketplace. The Wiley Trading series features books by traders who have survived the market's ever changing temperament and have prospered—some by reinventing systems, others by getting back to basics. Whether a novice trader, professional or somewhere in-between, these books will provide the advice and strategies needed to prosper today and well into the future.

Black Edge—Sheelah Kolhatkar 2017-02-07 NEW YORK TIMES BESTSELLER • “An essential exposé of our times—a work that reveals the deep rot in our financial system . . . Everyone should read this book.”—David Grann, author of Killers of the Flower Moon ONE OF THE BEST BOOKS OF THE YEAR—The New York Times and The Economist • Finalist for the New York Public Library’s Helen Bernstein Book Award for Excellence in Journalism The hedge fund industry changed Wall Street. Its pioneers didn’t lay railroads, build factories, or invent new technologies. Rather, they made their billions through financial speculation, by placing bets in the market that turned out to be right more often than not. In hedge fund circles, Steven A. Cohen was revered as one of the greatest traders who ever lived. But that image was shattered when his fund, SAC Capital, became the target of a seven-year government investigation. Prosecutors labeled SAC a “magnet for market cheaters” whose culture encouraged the relentless pursuit of “edge”—and even “black edge,” which is inside information—and the firm was ultimately indicted and pleaded guilty to charges related to a vast insider trading scheme. Cohen, himself,

however, was never charged. *Black Edge* is a riveting legal thriller that raises urgent questions about the power and wealth of those who sit at the pinnacle of high finance and how they have reshaped the economy. Longlisted for the Andrew Carnegie Medal for Excellence in Nonfiction and the Financial Times and McKinsey Business Book of the Year Award “A modern version of *Moby-Dick*, with wiretaps rather than harpoons.”—Jennifer Senior, *The New York Times* “If you liked James B. Stewart’s *Den of Thieves*, Sheelah Kolhatkar’s thrilling *Black Edge* should be next on your reading list.”—*The Wall Street Journal* “Excellent.”—*The Economist* “A true-life thriller with Shakespearian stakes . . . Her chilling account of a blighted industry is as mesmerizing as a human story as it is as a financial one.”—*Fortune* “A tour de force of groundbreaking reporting and brilliant storytelling.”—Jeffrey Toobin, *New York Times* bestselling author of *American Heiress*

Understanding Uniqueness and Diversity in Child and Adolescent Mental Health-Matthew Hodes

2018-06-08 *Understanding Uniqueness and Diversity in Child and Adolescent Mental Health* examines the

determinates of individual differences in children and young people, along with the origins of maladjustment and psychiatric disorders. It addresses the ways in which interventions and mental health services can be developed and shaped to address individual differences amongst children. Topics cover the influence of economic adversities and gender differences on child development and life course, as well as the range of risk and protective factors associated with the onset and persistence of problems, including sections on anxiety disorders in infants, bipolar disorder, and tics and Tourette's. Additional sections focus on the potential for individualizing treatments as illustrated by pharmacogenomics, with another highlighting ways in which services can be adapted for specific environments, such as the needs of refugee children and systems of service delivery that can be enhanced by the use of telemedicine. Emphasizes the social and environmental influences on child and adolescent mental health Focuses on early developmental and infancy processes Addresses the training of child and adolescent psychiatrists across Europe Covers a range of illustrative psychiatric disorders and problems Forwards a goal of producing a mental health workforce with internationally recognized competencies

Conscious Sedation/analgesia-Donna S. Watson 1998 This book provides all the key information for developing a thorough understanding of the concepts of IV conscious sedation. Fully detailed sections include basic concepts of medications, administration techniques, potential complications and emergencies, monitoring parameters, developing a credentialing program, legal implications, and patient discharge. The text is designed with practical implementations to the clinical setting, including useful information such as sample documentation forms, learner feedback and question and answer sections. *

Traces the evolution of conscious sedation from the realm of the anesthetist to non-anesthesia providers. *

Provides an overview of the objectives of conscious sedation, levels of sedation and patient selection. *

Profiles commonly used conscious sedation drugs, outlining pharmacokinetics, dosage and administration, contraindications and precautions, adverse reactions and nursing implications. * Includes thorough preprocedure, intraprocedure, and postprocedure patient assessment with complete discharge and patient

teaching information. * Profiles high risk patients and addresses management of neurologic, pulmonary, and cardiovascular complications. * Addresses competency issues and provides guidelines on setting institutional policies and standards on conscious sedation, including many sample forms from a variety of health care settings. * Includes a separate chapter on pediatric sedation covering patient selection, medication dosage and administration, and physical and psychological responses specific to that population.

Piping Handbook-Mohinder L. Nayyar 1999-11-04 Instant answers to your toughest questions on piping components and systems! It's impossible to know all the answers when piping questions are on the table - the field is just too broad. That's why even the most experienced engineers turn to Piping Handbook, edited by Mohinder L. Nayyar, with contribution from top experts in the field. The Handbook's 43 chapters--14 of them new to this edition--and 9 new appendices provide, in one place, everything you need to work with any type of piping, in any type of piping system: design layout selection of materials fabrication and components operation installation maintenance This world-class reference is packed with a comprehensive array of analytical tools, and illustrated with fully-worked-out examples and case histories. Thoroughly updated, this seventh edition features revised and new information on design practices, materials, practical applications and industry codes and standards--plus every calculation you need to do the job.

Excel 2007 Power Programming with VBA-John Walkenbach 2011-07-05 This book is a single reference that's indispensable for Excel beginners, intermediate users, power users, and would-be power users everywhere Fully updated for the new release, this latest edition provides comprehensive, soup-to-nuts coverage, delivering over 900 pages of Excel tips, tricks, and techniques readers won't find anywhere else

John Walkenbach, aka "Mr. Spreadsheet," is one of the world's leading authorities on Excel Thoroughly updated to cover the revamped Excel interface, new file formats, enhanced interactivity with other Office applications, and upgraded collaboration features Includes a valuable CD-ROM with templates and worksheets from the book Note: CD-ROM/DVD and other supplementary materials are not included as part of eBook file.

Liposomes in Analytical Methodologies-Katie A. Edwards 2016-03-30 Liposomes have been widely explored in the drug delivery realm over the past decades. Many of the properties that made them well suited for drug delivery applications, such as the internal space to encapsulate a large payload of molecules and the inherent protection from exterior stresses, have also been exploited in various analytical techniques. Liposomes in Analytical Methodologies provides an extensive coverage of their utility, ranging from historic developments to actively researched techniques written by expert investigators. The introductory chapter serves as a primer on the fundamentals of liposomes for analytical purposes and provides an overview of various applications, while subsequent chapters provide in-depth coverage of selected areas. With techniques ranging from liposome PCR to electrophoretic separations, readers will gain an appreciation for the versatility that liposomes can add to the analytical toolbox.

Tsunami Events and Lessons Learned-Y.A. Kontar 2013-11-04 This book is a collective effort by world experts, bringing together assorted contributions presented during the Ocean Science Session OS-017, of the AOGS-AGU Joint Assembly held in Singapore in 2012 (the Asia Tsunami and Great East Japan Earthquake and Tsunami events). The chapters cover assessment, evaluation, forecast and lessons learned as well as environmental and societal impacts of the latest tsunamis that occurred in the Indian Ocean in 2004 and the Pacific Ocean in Japan 2011. The book is aimed at experts, scientists and decision makers seeking recent updated information, knowledge and experiences to better understand, quantify, forecast and protect coastal water resources, ecosystems, communities and human settlements which are often affected by tsunamis.

Laboratory Manual for Introductory Geology-Bradley Deline 2016-01-05 Developed by three experts to coincide with geology lab kits, this laboratory manual provides a clear and cohesive introduction to the field of geology. Introductory Geology is designed to ease new students into the often complex topics of physical geology and the study of our planet and its makeup. This text introduces readers to the various uses of the scientific method in geological terms. Readers will encounter a comprehensive yet straightforward style and flow as they journey through this text. They will understand the various spheres of geology and begin to master geological outcomes which derive from a growing knowledge of the tools and subjects which this text covers in great detail.

Handbook of Borderline Personality Disorder in Children and Adolescents-Carla Sharp 2014-04-21 Diagnosing Borderline Personality Disorder (BPD) in young people has long been a tough call for clinicians, either for fear of stigmatizing the child or confusing the normal mood shifts of adolescence with pathology. Now, a recent upsurge in relevant research into early-onset BPD is inspiring the field to move beyond this hesitance toward a developmentally nuanced understanding of the disorder. The Handbook of Borderline Personality Disorder in Children and Adolescents reflects the broad scope and empirical strengths of current research as well as promising advances in treatment. This comprehensive resource is authored by veteran and emerging names across disciplines, including developmental psychopathology, clinical psychology, child psychiatry, genetics and neuroscience in order to organize the field for an integrative future. Leading-edge topics range from the role of parenting in the development of BPD to trait-based versus symptom-based assessment approaches, from the life-course trajectory of BPD to the impact of the DSM-5 on diagnosis. And of particular interest are the data on youth modifications of widely used adult interventions, with session excerpts. Key areas featured in the Handbook: The history of research on BPD in childhood and adolescence. Conceptualization and assessment issues. Etiology and core components of BPD. Developmental course and psychosocial correlates. Empirically supported treatment methods. Implications for future research, assessment and intervention. The Handbook of

Borderline Personality Disorder in Children and Adolescents is a breakthrough reference for researchers and clinicians in a wide range of disciplines, including child and school psychology and psychiatry, social work, psychotherapy and counseling, nursing management and research and personality and social psychology.

Urban Flooding of Greater Dhaka in a Changing Climate-Susmita Dasgupta 2015-10-28 Dhaka, the capital of Bangladesh and one of the world's rapidly growing megacities, is an urban hotspot for climate risks. Located in central Bangladesh on the lower reaches of the Ganges-Brahmaputra Delta, the city faces the recurring phenomena of urban flooding and waterlogging following intense rainfall nearly every year. As a low-elevation city with a tropical monsoon climate, Dhaka has a long history of river flooding as a natural hazard. Recent major floods have been worse in terms of depth and extent of inundation and duration, especially in fringe areas, where many of the city's poor reside. Rapid, unplanned urbanization and the gradual filling up of low-lying flood plains, rivers, canals, and other water bodies traditionally used to drain or retain water during rainfall have exacerbated the problem. A growing concern is that, in a changing climate, characterized by heavier and more erratic rainfall in the Ganges-Brahmaputra-Meghna (GBM) Basin during the monsoon season, the situation may worsen.

The Trade Lifecycle-Robert P. Baker 2015-07-27 Drive profit and manage risk with expert guidance on trade processing The Trade Lifecycle catalogues and details the various types of trades, including the

inherent cashflows and risk exposures of each. Now in its second edition, this comprehensive guide includes major new coverage of traded products, credit valuation adjustment, regulation, and the role of information technology. By reading this, you ll dissect a trade into its component parts, track it from preconception to maturity, and learn how it affects each business function of a financial institution. You will become familiar with the full extent of legal, operational, liquidity, credit, and market risks to which it is exposed. Case studies of real projects cover topics like FX exotics, commodity counterparty risk, equity settlement, bond management, and global derivatives initiatives, while the companion website features additional video training on specific topics to help you build a strong background in this fundamental aspect of finance. Trade processing and settlement combined with control of risk has been thrust into the limelight with the recent near collapse of the global financial market. This book provides thorough, practical guidance toward processing the trade, and the risks and rewards it entails. Gain deep insight into emerging subject areas Understand each step of the trade process Examine the individual components of a trade Learn how each trade affects everything it touches Every person working in a bank is highly connected to the lifecycle of a trade. It is the glue by which all departments are bound, and the aggregated success or failure of each trade determines the entire organization's survival. The Trade Lifecycle explains the fundamentals of trade processing and gives you the knowledge you need to further your success in the market.

Advances in Experimental Surgery-Paulo N. Martins 2017-11 Experimental surgery is an important link for the development in clinical surgery, research and teaching. Experimental surgery was part of the most important surgical discoveries in the past century. Since 1901 nine Nobel Prizes have been awarded to the pioneers had remarkable achievements in the basic or practical surgery. In recent 20 years, experimental surgery has achieved new advances, like laparoscopic and robotic surgery, tissue engineering, and gene therapy which are widely applied in clinic surgery. The present book covers wide experimental surgery in preclinical research models subdivided in two volumes. Volume I introduces surgical basic notions,

techniques, and different surgical models involved in basic experimental surgery and review the biomechanical models, ischemia/reperfusion injury models, repair and regeneration models, and organ and tissue transplantation models, respectively. Volume II introduces several specific experimental models such as laparoscopic and bariatric experimental surgical models. The second volume also introduces graft-versus-host disease, and other experimental models. Review the advances and development of recent techniques such as tissue engineering, organ preservation, wound healing and scarring, gene therapy and robotic surgery. The book documents the enormous volume of knowledge we have acquired in the field of experimental surgery. In this book, we have invited experts from the United States, Canada, France, Germany, China, Japan, Korea, UK, Sweden, Netherland, Hungary and Turkey to contribute 36 chapters in the fields of their expertise. These two volumes are the compilation of basic experimental surgery and updated advances of new development in this field that will be invaluable to surgeons, residents, graduate students, surgical researchers, physicians, immunologists, veterinarians and nurses in surgery.

The Zenith Trans-Oceanic-John H. Bryant 1995 The previously untold story of the Zenith Trans-Oceanic, the world's most romantic and expensive series of portable radios. Long a companion of kings, presidents, transoceanic yachtsmen and world explorers, the Trans-Oceanic was also carried into battle by American troops in three wars. Its great popularity in spite of a very high price can be laid at the feet of several generations of armchair travelers who used the shortwave capabilities of the Trans-Oceanic as a window

on the world. With access to the Zenith corporate archives and their long experience as radio enthusiasts and writers for both the popular and scholarly press, Professors Bryant and Cones present the engrossing stories of the development and use of the Trans-Oceanic throughout its forty year life. They present a wealth of never-before published photographs, documents and information concerning these fascinating radios, their collection, preservation and restoration.

Hot Topics in Infection and Immunity in Children IV-Adam Finn 2007-12-18 Fast becoming a key text for pediatricians, this fourth outing for the Hot Topics series is once again culled from lectures given at the annual course on the subject at Keble College, Oxford. This is the first port of call for those who need to keep on top of the subject. With world-leading researchers as editors, the series has become a valuable addition to the sum of knowledge in this specialism and a resource for anyone dealing with infectious diseases in children.

Seed Dormancy-Allison R. Kermode 2011-09-07 Understanding seed-related processes is of major social, environmental, and economic concern. The viability and vigor of seeds are the very basis for sustainable agriculture and forestry, and comprehending the molecular and cellular events underlying these processes will become increasingly important to many economical sectors and for species that provide the world's food supply. Seed Dormancy: Methods and Protocols covers analytical methods and approaches which have already lead to significant advances in the understanding of seed dormancy and germination.

Chapters cover explanations of processes leading to the induction, maintenance, and termination of seed dormancy, the classification of different dormancy types, as well as an overview of protocols used for dormancy-termination of seeds of conifer species. This volume emphasizes methods essential for abscisic acid (ABA) analyses, including methods that have been important for receptor identification, analyses of ABA-catabolizing enzymes (the 8'-hydroxylases), and identification of novel signal transduction

components, interacting partners, and/or response factors. The volume closes by addressing the development of new technologies, including spectroscopic methods (some of which allow for non-destructive sampling) as well as highly effective tissue-printing methods for seed dormancy research. Written in the successful Methods in Molecular Biology™ series format, chapters include introductions to their respective topics, lists of the necessary materials and reagents, step-by-step, readily reproducible protocols, and notes on troubleshooting and avoiding known pitfalls. Authoritative and easily accessible, *Seed Dormancy: Methods and Protocols* features detailed methods that will prove invaluable for both applied and fundamental seed research.

Ethics for Life-Judith A. Boss 2003-07-01 This clear, well-organized overview of theoretical ethics employs a contemporary tone and framework. Multicultural coverage and attention to college students' moral development help readers relate the material to their own experience and their own moral growth. Both scholarly and practical, this text aims to significantly improve students' ability to make real-life moral decisions..

Low Cost Shore Protection-The U. S. Army Corps of Engineers 2014-02-19 The purpose of this report is to familiarize engineers and contractors with various established methods of low cost shore protection. It is written for the individual who is knowledgeable in general civil engineering design and construction, but not a specialist in coastal engineering or shoreline protection. This report can be used without other references, but many topics are discussed with only minimal detail, so some additional reading may be necessary to gain a better understanding of the text. The Suggested Reading section at the end of the report lists a full range of readily available books, reports, and publications that are recommended for additional background study

The Collected Plays: Dermot Healy-Dermot Healy 2016-07-22 Although Dermot Healy (1947-2014) is probably best known as an award-winning novelist and poet, he was also a prolific playwright, screenwriter, and actor. Healy's interest in drama was long-standing, and was central to his development as a writer. Between 1985 and 2010 he wrote thirteen stage plays, including a critically-acclaimed adaptation of Garcia Lorca's Blood Wedding in 1989. All of these plays are published here for the first time. One of the most striking features of Healy's dramatic works is their spirit of community collaboration and their strong social conscience. His first play, Here and There and Going to America (1985), was performed by members of the Sligo Dole Q Company; Metagama (2004) was written for Theatre Hebrides on the Isle of Lewis; Serious (2005) was written in collaboration with (and performed by) prisoners from Castlerea Prison; A Night at the Disco (2006) was written in collaboration with the teachers and students of St Mary's Secondary School in Ballina. These community-based productions were interspersed with more professional commissions, including Mr Staines, performed by Pan Pan Theatre Company at the Samuel Beckett Theatre in Dublin in 1999, and Men to the Right, Women to the Left, first performed at The Abbey Theatre in 2005 by the Clones Drama Group. Although the settings of Healy's plays are often local and regional by design, their reach is always international and universal. With the publication of this volume, Healy's contribution to drama seems certain to flourish amongst practitioners and scholars alike, and The Collected Plays will be of great interest to all devotees of contemporary Irish theatre."
