The Wildlife Techniques Manual-Nova J. Silvy 2012-03-01 Since its original publication in 1960, The Wildlife Techniques Manual has remained the cornerstone text for the professional wildlife biologist. Now fully revised and updated, this seventh edition promises to be the most comprehensive resource on wildlife biology, conservation, and management for years to come. Superbly edited by Nova J. Silvy, the thirty-seven authoritative chapters included in this work provide a full synthesis of methods used in the field and laboratory. Chapter authors, all leading wildlife professionals, explain and critique traditional and new methodologies and offer thorough discussions of a wide range of relevant topics, including: • experimental design • wildlife health and disease • capture techniques • population estimation • telemetry • vegetation analysis • conservation genetics • wildlife damage management • urban wildlife management • habitat conservation planning A standard text in a variety of courses, the Techniques Manual, as it is commonly called, covers every aspect of modern wildlife management and provides practical information for applying the hundreds of methods described in its pages. To effectively incorporate the explosion of new information in the wildlife profession, this latest edition is logically organized into a two-volume set: Volume 1 is devoted to research techniques and Volume 2 focuses on management methodologies. The Wildlife Techniques Manual is a resource that professionals and students in wildlife biology, conservation, and management simply cannot do without. Published in association with The Wildlife Society

Planning for Power Advertising-Anand Halve 2005-10-04 This book is a step-by-step guide to producing a sound foundation for advertising: one that will serve as the springboard to inspire powerful creative expression. Rich in cases from the evolving Indian context, Planning for Power Advertising offers an understanding of how strategic advertising is created. It takes the reader through cases and analyses of what worked or did not work in the marketplace. Anand Halve involves the reader throughout in exercises with Action Points at the end of most chapters—an approach that brings alive the concepts within, and helps readers discover the theory in practice. For advertising professionals, this is a manual to create a robust advertising brief. For students of advertising and marketing, Planning for Power Advertising is a simulation exercise from which they will learn how to apply the principles that will help them in their future careers. And for professionals in areas related to advertising—such as media, event management and PR—this book provides an insight into how the strategic underpinning of advertising is built.
