Schwab 1981-09-02 A comprehensive engineering guide to theory and design practices for the control, utilization, and management of water in agriculture, with emphasis on scientific principles. Integrates into a single volume engineering practices for solving problems relating to erosion control, flood control, drainage, and irrigation. Presents information on precipitation, infiltration, evapotranspiration, and runoff, in addition to providing the entire design data for the U.S., plus a wide range of its applications. Contains conversion tables from English units to SI, and SI to English units, as well as numerous example problems, illustrations, and appendix.

Preserving New York-Anthony Wood 2013-10-28 Preserving New York is the largely unknown inspiring story of the origins of New York City's nationally acclaimed landmarks law. The decades of struggle behind the law, its intellectual origins, the men and women who fought for it, the forces that shaped it, and the buildings lost and saved on the way to its ultimate passage, span from 1913 to 1965. Intended for the interested public as well as students of New York City history, architecture, and preservation itself, over 100 illustrations help reveal a history richer and more complex than the accepted myth that the landmarks law sprang from the wreckage of the great Pennsylvania Station. Images include those by noted historic photographers as well as those from newspaper accounts of the time. Forgotten civic leaders such as Albert S. Bard and lost buildings including the Brokaw Mansions, are unveiled in an extensively researched narrative bringing this essential episode in New York's history to future generations tasked with protecting the city's landmarks. For the first time, the story of how New York won the right to protect its treasured buildings, neighborhoods and special places is brought together to enjoy, inform, and inspire all who love New York.

Energy Efficiency in Household Appliances-Paolo Bertoldi 1999 There is widespread interest throughout the world in improving appliance energy efficiency. Methods to reach that end include energy labeling, energy efficiency standards and market conditioning (e.g. energy efficient procurement and DSM programs). Energy efficiency standards, which started out as an action to reduce demand for energy in individual countries, has now become a subject of regional and even worldwide dimension, particularly in the context of global climate change mitigation. Mandatory energy efficiency standards are in place for some appliances in China, Canada, Mexico, the Philippines and the United States.

Standards for refrigerator/freezers will take effect in Australia and the European Union in 1999. Voluntary energy efficiency standards are in place for refrigerators in Brazil, India and Korea and for air conditioners in India, Japan and Korea. Table I showed potential global energy use reductions from codes and standards in buildings. If individual country data can be assembled, a more accurate approach to estimating potential reductions in energy use and carbon emissions would be to perform a bottom-up analysis for energy using equipment on an end-use basis in as many large developing countries as possible. The impact of standards would be assessed as more efficient appliances replaced existing stock models and new purchases that increased saturation rates were made at higher efficiencies than would otherwise be the case. This approach would show the slow but steady buildup of annual energy savings from efficiency standards or other programs to improve energy efficiency.

Raising Dad-Art Rainer 2007-05 The truth that parents learn as much from their children as their children learn from them is poignantly captured in this book by father and son.

Science and Technology in World History-James Edward McClellan 2006 Tracing historical relationship from the dawn of civilization through the twentieth century, the authors argue that technology as "applied science" emerged

relatively, as industry and governments began funding scientific research. They explore the emergence of Europe and the United States as a scientific and technological power.

Shaking Off the Dust-Rhianna Samuels 2008-11-01 Hannah's list: Ghosts are cold to the touch. Being tied up isn't much fun. And danger is a sure-fire prescription for amazing sex! When Hannah Campbell attends a memorial service for the neurosurgeon who once saved her life, the last thing she expects is a lightning strike that knocks her out cold and blasts her lungs full of the departed's ashes. Things only get weirder when she wakes up to find the deceased standing over her hospital bed, insisting she help him track down the terrorists who blew up his plane. Professor Takeshi Shimodo doesn't know what to believe when smart-mouthed Hannah appears on his doorstep, claiming to be haunted by the ghost of his best friend. Yet she exhibits some extraordinary psychic abilities. And her determination to find justice for the crash victims, in spite of her fragile health, touches his heart. Takeshi's acupressure techniques are meant to calm Hannah's erratic heartbeat, but the longer they are together, the more his magic fingers have the opposite effect. Soon, their passion flares hotter than any lightning strike. But now the terrorist they seek is hunting them. And the FBI is suspicious Hannah knows just a little too much. Without some "spiritual" help, they haven't a ghost of a chance. Warning, this title contains the following: explicit sex, graphic language and violence.

Hitler's Bandit Hunters-Philip W. Blood 2006 In August 1942, Hitler directed all German state institutions to assist Heinrich Himmler, the chief of the SS and the German police, in eradicating armed resistance in the newly occupied territories of Eastern Europe and Russia. The directive for "combating banditry" (Bandenbekämpfung), became the third component of the Nazi regime's three-part strategy for German national security, with genocide (Endlösung der Judenfrage, or "the Final Solution of the Jewish Question") and slave labor (Erfassung, or "Registration of Persons to Hard Labor") being the better-known others. An original and thought-provoking work grounded in extensive research in German archives, Hitler's Bandit Hunters focuses on this counterinsurgency campaign, the anvil of Hitler's crusade for empire. Bandenbekämpfung portrayed insurgents as political and racial bandits, criminalized to a greater degree than enemies of the state; moreover, violence against them was not constrained by the prevailing laws of warfare. Philip Blood explains how German forces embraced the Bandenbekämpfung doctrine, demonstrating the equal culpability of both the SS police forces and the "heroic" Waffen-SS combat arm and shattering the contrived postwar distinctions between them. He challenges the traditional view of Himmler as an armchair general and bureaucrat, exposing him as the driving force behind one of the most successful security campaigns in history, and delves into the contentious issue of the complicity of ordinary German police, soldiers, and citizens, as well as the citizens of occupied territories, in these state-sponsored manhunts. This book provokes new debates on the Nazi terrorization of Europe, the blind acquiescence of many, and the courageous resistance of the few.

Emerging Bodies-Gabriele Klein 2014-04-30 The concept of »worldmaking« is based on the idea that 'the world' is not given, but rather produced through language, actions, ideas and perception. This collection of essays takes a closer look at various hybrid and disparate worlds related to dance and choreography. Coming from a broad range of different backgrounds and disciplines, the authors inquire into the ways of producing 'dance worlds': through artistic practice, discourse and media, choreographic form and dance material. The essays in this volume critically reflect the predominant topos of dance as something fleeting and ephemeral - an embodiment of the Other in modernity. Moreover, they demonstrate that there is more than just one universal »world of dance«, but rather a multitude of interrelated dance worlds with more emerging every day.

Handbook of Low Carbon Concrete-Ali Nazari 2016-09-30 Handbook of Low Carbon Concrete brings together the latest breakthroughs in the design, production, and application of low carbon concrete. In this handbook, the editors and contributors have paid extra attention to the emissions generated by coarse aggregates, emissions due to fine aggregates, and emissions due to cement, fly ash, GGBFS, and admixtures. In addition, the book provides expert coverage on emissions due to concrete batching, transport and placement, and emissions generated by typical commercially produced concretes. Includes the tools and methods for reducing the emissions of greenhouse gases Explores technologies, such as carbon capture, storage, and substitute cements Provides essential data that helps determine the unique factors involved in designing large, new green cement plants

How to Marry a Cowboy-Carolyn Brown 2014-07-01 Book 4 of Cowboys & Brides From New York Times and USA Today-bestselling author Carolyn Brown comes a contemporary Western romance filled to the brim with sexy cowboys, gutsy heroines, and genuine down-home Texas twang. Texas rancher Mason Harper's daughters want a new mama in the worst way, and when a beautiful woman in a tattered wedding gown appears on their doorstep, the two little girls adopt her-no ifs, ands, or buts about it. Mason isn't sure about taking in a complete stranger, but Lord knows he needs a nanny, and Annie Rose Boudreau stirs his heart in long-forgotten ways... Annie Rose is desperate, and when a tall, sexy cowboy offers her a place to stay, she can't refuse. After all, it's just for a little while. As she settles in deeper, her heart tells her both Mason and her role as makeshift mama suit her just fine. But will Mason feel the same way once her nightmare past catches up with her? Fans of Linda Lael Miller and Diana Palmer will thrill to this moving story of a lonely cowboy and his two little girls finding the family of their dreams. Cowboys & Brides Series: Billion Dollar Cowboy (Book 1) The Cowboy's Christmas Baby (Book 2) The Cowboy's Mail Order Bride (Book 3) How to Marry a Cowboy (Book 4) Praise for Bestselling Contemporary Western Romances by Carolyn Brown: "Sizzling... Prom Dates from Hell-Rosemary Clement-Moore 2008-04-22 Maggie Quinn, girl reporter. Honors student, newspaper staffer, yearbook photographer. Six weeks from graduation and all she wants to do is get out of Avalon High in one piece. A sensible nerd would have kept her head down, done her drive-by photo shoot of the prom, and continued the countdown to Diploma Day. But fate seems to have different plans for Maggie. High school may be a natural breeding ground for evil, but the scent of fire and brimstone is still a little out of the ordinary. It's the distinct smell of sulfur that makes Maggie suspect that something's a bit off. And when real Twilight Zone stuff starts happening to the school's ruling clique—the athletic elite and the head cheerleader and her minions, all of whom happen to be named Jessica—Maggie realizes it's up to her to get in touch with her inner Nancy Drew and ferret out who unleashed the ancient evil before all hell breaks loose. Maggie has always suspected that prom is the work of the devil, but it looks like her attendance will be mandatory. Sometimes a girl's got to do some pretty undesirable things if she wants to save her town from soul-crushing demons from hell. And the cheerleading squad. "Dripping with wit on nearly every page."-School Library Journal "Smart (and smart-ass)."-"KLIATT "There is a lot to like in this story that takes on magic, romance, and even clique politics."-Publisher's Weekly "Fans of shows like Charmed and Buffy the Vampire Slayer will relish the unflappable, edgy humor Maggie brings to her fight against supernatural evil."-The Horn Book Magazine "Sharp, sarcastic wit...[This book] will appeal to supernatural fans of Meg Cabot's Mediator series."-VOYA From the Hardcover edition.

Residential End Uses of Water-Peter W. Mayer 1999 The American Water Works Association Research Foundation (AWWARF) and 22 municipalities, water utilities, water purveyors, water districts and water providers funded this study. Goals of this research included: Providing specific data on the end uses of water in residential settings across the continent; Assembling data on disaggregated indoor and outdoor uses; Identifying variations in water used for each fixture or appliance according to a variety of factors; and Developing predictive models forecast residential water demand. This report represents a time and place snapshot of how water is used in single-family homes in twelve North American locations. Similarities and differences among 'end users' were tabulated for each location, analyzed and summarized. Great care was taken to create a statistically significant representative sample of customer for each of the twelve locations. However, these twelve locations are not statistically representative of all North American locations.

The Monkey's Raincoat-Robert Crais 2019-10 "Elvis Cole provides more fun for the reader than any L.A. private eye to come along in years."--Joseph Wambaugh WINNER OF THE ANTHONY AND MACAVITY AWARDS FOR BEST NOVEL \* NOMINATED FOR THE EDGAR AND SHAMUS AWARDS FOR BEST NOVEL Meet Elvis Cole, L.A. Private Eye. . . . He quotes Jiminy Cricket and carries a .38. He's a literate, wisecracking Vietnam vet who is determined to never grow up. When quiet Ellen Lang enters Elvis Cole's Disney-Deco office, she's lost something very valuable--her husband and her young son. The case seems simple enough, but Elvis isn't thrilled. Neither is his enigmatic partner and firepower, Joe Pike. Their search down the seamy side of Hollywood's studio lots and sculptured lawns soon leads them deep into a nasty netherworld of drugs, sex--and murder. Now the case is getting interesting, but it's also turned ugly. Because everybody, from cops to starlets to crooks, has declared war on Ellen and Elvis. For Ellen, it isn't Funtown anymore. For Elvis, it's just a living . . . He hopes. Praise for The Monkey's Raincoat "Outstanding characters, tight plot, and scintillating prose style. . . . This fast-paced story speeds Elvis Cole to a chilling, heart-stopping ending."--Mystery Scene "Is Bob Crais good? Put it this way: if they're taking you out to put you against the firing squad wall, and you want to enjoy your last moments on earth, pass on the last cigarette and ask for an Elvis Cole novel."--Harlan Ellison "Far and away the most satisfying private eye novel in years. Grab this one--it's a winner!"--Lawrence Block "The best private eye novel of the year . . . lots of action; bright, crisp dialogue; and sharply drawn characters."--The Denver Post "Robert B. Parker has some competition on his hands. . . . Elvis Cole is an appealing character and Crais's style is fresh and funny."--Sue Grafton "In Crais, a new star has appeared on the private eye scene--a dazzling first novel."--Tony Hillerman

Breakthrough-Thea Cooper 2010-09-14 It is 1919 and Elizabeth Hughes, the eleven-year-old daughter of America's most-distinguished jurist and politician, Charles Evans Hughes, has been diagnosed with juvenile diabetes. It is essentially a death sentence. The only accepted form of treatment - starvation - whittles her down to forty-five pounds skin and bones. Miles away, Canadian researchers Frederick Banting and Charles Best manage to identify and purify insulin from animal pancreases - a miracle soon marred by scientific jealousy, intense business competition and fistfights. In a race against time and a ravaging disease, Elizabeth becomes one of the first diabetics to receive insulin injections - all while its discoverers and a little known pharmaceutical company struggle to make it available to the rest of the world. Relive the heartwarming true story of the discovery of insulin as it's never been told before. Written with authentic detail and suspense, and featuring walk-ons by William Howard Taft, Woodrow Wilson, and Eli Lilly himself, among many others.

Appliance Repair-National Learning Corporation 1997-02 "Test your knowledge in your area of interest or study by giving yourself complete exams! Then grade yourself. Discover areas of strength and weakness, improve test scores." Optoelectronics Circuits Manual-R. M. Marston 2013-10-22 Optoelectronics Circuits Manual covers the basic principles and characteristics of the best known types of optoelectronic devices, as well as the practical applications of many of these optoelectronic devices. The book describes LED display circuits and LED dot- and bar-graph circuits and discusses the applications of seven-segment displays, light-sensitive devices, optocouplers, and a variety of brightness control techniques. The text also tackles infrared light-beam alarms and multichannel remote control systems. The book provides practical user information and circuitry and illustrations. Practical design engineers, technicians, and experimenters, as well as the electronics student and amateur will find the book invaluable.

Genius and Eminence-Robert S. Albert 1983 This volume presents the basic issues and up-to-date research findings in the area of genius, giftedness and creative behaviour. It gives an appreciation of the potential that exists among talented children and adults and how this can be transformed into highly significant and personally satisfying achievements. It also shows that such achievement involves great personal effort but can be facilitated by human relationships, institutional interventions, and historical conditions which present parents, educators and society with opportunities for maximizing the development of genius, giftedness, and creativity.

CUCKOO'S EGG-Clifford Stoll 2012-05-23 Before the Internet became widely known as a global tool for terrorists, one perceptive U.S. citizen recognized its ominous potential. Armed with clear evidence of computer espionage, he began a highly personal quest to expose a hidden network of spies that threatened national security. But would the authorities back him up? Cliff Stoll's dramatic firsthand account is "a computer-age detective story, instantly fascinating [and] astonishingly gripping" (Smithsonian). Cliff Stoll was an astronomer turned systems manager at Lawrence Berkeley Lab when a 75-cent accounting error alerted him to the presence of an unauthorized user on his system. The hacker's code name was "Hunter"--a mysterious invader who managed to break into U.S. computer systems and steal sensitive military and security information. Stoll began a one-man hunt of his own: spying on the spy. It was a dangerous game of deception, broken codes, satellites, and missile bases--a one-man sting operation that finally gained the attention of the CIA . . . and ultimately trapped an international spy ring fueled by cash, cocaine, and the KGB.

Global Marketing-Johanson 2008 Johansson's Global Marketing, 5/e utilizes a three-pronged framework to organize the discussion of how to conduct global business: Foreign Entry, Local Marketing, and Global Management. Johansson seeks to develop the varied skills a marketing manager needs to be successful in each of these tasks. In foreign entry, in global management, and to a large extent even as a local marketer in a foreign country, the global marketer needs skills that the home makes experience-or the standard marketing text-have rarely taught. The recognition of the three roles helps dispel the notion that "there is no.

Flying with Kids-Katie Dillon 2012-03-01 If you're reading this, you may be dreading an upcoming flight with your young child or thinking about taking one, but aren't sure you can handle it. I completely understand, but have no fear. Long haul flights were routine for us as we spent 7 years as expatriates. When my daughter was born in Hong Kong (7500 miles away from our families in California), we obviously had to fly her home for visits. I had anxiety about this for years before I was pregnant and I thought about canceling our first long haul flight trip multiple times. My newborn baby was fussier than most, had major acid reflux, I had to fly alone with her, and our journey was 24 hours door to door. We were just fine, in the end. With preparation, you will be, too. Since then, I've flown long haul and domestically with my daughter more times than I can count. I now enjoy the adventure with her, but getting to this point was not without challenges. I bought tons of useless gear and spent countless hours scouring the Internet for information. The purpose of this ebook is to share details both large and small to help you get from departure to destination without hiccups. I share how I plan my flights from scheduling to seat assignments. Does your baby need a bassinet? There are a few things you need to know that isn't information usually found on airline websites. I include tips to get you, your child and all of your gear through security and to the airplane. Speaking of gear, specific products have been very helpful to us. I'll tell you why and where to buy some of it. The most pressing issue parents seem to have is how to keep kids entertained and fuss free on the plane. Specific things worked for us and I developed a strategy for quieting meltdowns. It can also be tough to get kids on long haul flights to sleep and keep them (and, therefore, you) from getting severe jet lag. We received jet lag advice from medical professionals that does work. My daughter is usually over her jet lag by the second day. What you bring in your carry-on is key. To avoid stress, it's important to organize and pack it well. I'll tell you everything I bring onboard and keep within arms reach on the plane. There is nothing worse than having something you need in a bag in the overhead compartment, when the seat belt sign is on. Remember, if you request bulkhead seats you will not be able to store a bag at your feet. Other topics include tips for diapering on the plane, in flight meals, flying first or business class, and more. You'll also be able to receive quick answers to questions via our ongoing discussion on Twitter via the #flyingwithkids hashtag. There is helpful information in this ebook, regardless of how long your flight is.

Hostage to Fortune-Lisa Jardine 2000-10-01 The statesman, scientist, and philosopher Francis Bacon (1561-1626) lived a divided life. Was he a noble scholar, or a conniving political crook? Was he a homosexual? Lisa Jardine and Alan Stewart draw upon previously untapped sources to create a controversial nuanced portrait of the quintessential "Renaissance man", one whose achievements, while enormous, were nonetheless sadly circumscribed by his class and station.
