Meat Market-Laurie Penny 2011-04-29 Modern culture is obsessed with controlling women's bodies. Our societies are saturated with images of unreal, idealised female beauty whilst real female bodies and the women who inhabit them are alienated from their own personal and political potential. Under modern capitalism, women are both consumers and consumed: Meat Market offers strategies for resisting this gory cycle of consumption, exposing how the trade in female flesh extends into every part of women's political selfhood.

Meat Market-Laurie Penny 2011-05-16 Modern culture is obsessed with controlling women's bodies. Our societies are saturated with images of unreal, idealised female beauty whilst real female bodies and the women who inhabit them are alienated from their own personal and political potential. Under modern capitalism, women are both consumers and consumed: Meat Market offers strategies for resisting this gory cycle of consumption, exposing how the trade in female flesh extends into every part of women's political selfhood.

Penny Red-Laurie Penny 2011 In the space of a year, Laurie Penny has become one of the most prominent voices of the new left. This book brings together her diverse writings, showing what it is to be young, angry and progressive in the face of an increasingly violent and oppressive UK government. Penny Red: Notes from the New Age of Dissent collects Penny's writings on youth politics, resistance, feminism and culture. Her journalism is a unique blend of persuasive analysis, captivating interviews and first-hand accounts of political direct action. She was involved in all the key protests of 2010/2011, including the anti-fees demos in 2010 and the anti-cuts protests of spring 2011, often tweeting live from the scene of kettles and baton charges. An introduction and extensive footnotes allow Penny to connect all the strands of her work, showing the links between political activism and wider social and cultural issues. This book is essential for understanding what motivates the new generation of activists, writers and thinkers that bring creativity, energy and urgency to the fight against capitalism and exploitation.

Unspeakable Things-Laurie Penny 2014-07-03 Shortlisted for The Green Carnation Prize 2014 'This is not a fairytale. This is a story about how sex and money and power police our dreams.' Clear-eyed, witty and irreverent, Laurie Penny is as ruthless in her dissection of modern feminism and class politics as she is in discussing her own experiences in journalism, activism and underground culture. This is a book about poverty and prejudice, online dating and eating disorders, riots in the streets and lies on the television. The backlash is on against sexual freedom for men and women and social justice - and feminism needs to get braver. Penny speaks for a new feminism that takes no prisoners, a feminism that is about justice and equality, but also about freedom for all. It's about the freedom to be who we are, to love who we choose, to invent new gender roles, and to speak out fiercely against those who would deny us those rights. It is a book that gives the silenced a voice - a voice that speaks of unspeakable things.

One Dimensional Woman-Nina Power 2009-11-27 This short book is partly an attack on the apparent abdication of any systematic political thought on the part of today's positive, up-beat feminists. It suggests alternative ways of thinking about transformations in work, sexuality and culture that, while seemingly far-fetched in the current ideological climate, may provide more serious material for future feminism.

Everything Belongs to the Future-Laurie Penny 2016-10-18 Time is a weapon wielded by the rich, who have excess of it, against the rest, who must trade every breath of it against the promise of another day's food and shelter. What kind of world have we made, where human beings can live centuries if only they can afford the fix? What kind of creatures have we become? The same as we always were, but keener. In the ancient heart of Oxford University, the ultra-rich celebrate their vastly extended lifespans. But a few surprises are in store for them. From Nina and Alex, Margo and Fidget, scruffy anarchists sharing living space with an ever-shifting cast of crusty punks and lost kids. And also from the scientist who invented the longevity treatment in the first place. Everything Belongs to the Future is a bloody-minded tale of time, betrayal, desperation, and hope that could only have been told by the inimitable Laurie Penny. "The scariest, most enduring dystopias walk a fine line between parable and prediction. Penny erases that line. In this made-up story, the rich speciate from the poor; in our real world, working class lifespans are declining as the one percent live ever longer lives at ever-greater removes from the rest of us. This is no mere literary device. This is a pitiless allegory, calculated to enrage and terrify its readers." -- Cory Doctorow At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Meat Market-Juno Dawson 2019-05-23 As Seen on BBC Breakfast 'Guaranteed to be your summer read' Glamour Jana Novak's history sounds like a classic model cliché: tall and gangly, she's uncomfortable with her androgynous looks until she's unexpectedly scouted and catapulted to superstardom. But the fashion industry is as grimy as it is glamorous. And there are unexpected predators at every turn. Jana is an ordinary girl from a south London estate, lifted to unimaginable heights. But the further you rise, the more devastating your fall ... Honest and raw, this is a timely exposé of the dark underbelly of the fashion industry in an era of #TimesUp and #MeToo. It might just be Juno Dawson's most important book yet. 'Juno Dawson slashes through the glamour of the fashion industry ... combining blockbuster appeal with piercing commentary on modelling, body image and consent' Observer

Tender Is the Flesh-Agustina Bazterrica 2020-08-04 Working at the local processing plant, Marcos is in the business of slaughtering humans—though no one calls them that anymore. His wife has left him, his father is sinking into dementia, and Marcos tries not to think too hard about how he makes a living. After all, it happened so quickly. First, it was reported that an infectious virus has made all animal meat poisonous to humans. Then governments initiated the "Transition." Now, eating human meat—"special meat"—is legal. Marcos tries to stick to numbers, consignments, processing. Then one day he's given a gift: a live specimen of the finest quality. Though he's aware that any form of personal contact is forbidden on pain of death, little by little he starts to treat her like a human being. And soon, he becomes tortured by what has been lost—and what might still be saved.

Bitch Doctrine-Laurie Penny 2017-07-13 LONGLISTED FOR THE ORWELL PRIZE 2018 'A blast, in all senses' Financial Times Includes a new preface and extra essays Smart and provocative, this collection of Laurie Penny's writing establishes her as one of the most urgent and vibrant feminist voices of our time. From the shock of Donald Trump's election and the victories of the far right, to online harassment and the transgender rights movement, these darkly humorous observations provoke challenging conversations about the definitive social issues of today. Featuring a new preface and nine new revelatory, revolutionary essays, Bitch Doctrine will give readers tools for change from one of today's boldest commentators.

Female Chauvinist Pigs-Ariel Levy 2005-09-13 A classic work on gender culture exploring how the women's movement has evolved to Girls Gone Wild in a new, self-imposed chauvinism. In the tradition of Susan Faludi's Backlash and Naomi Wolf's The Beauty Myth, New York Magazine writer Ariel Levy studies the effects of modern feminism on women today. Meet the Female Chauvinist Pig—the new brand of "empowered woman" who wears the Playboy bunny as a talisman, bares all for Girls Gone Wild, pursues casual sex as if it were a sport, and embraces "raunch culture" wherever she finds it. If male chauvinist pigs of years past thought of women as pieces of meat, Female Chauvinist Pigs of today are doing them one better, making sex objects of other women—and of themselves. They think they're being brave, they think they're being funny, but in Female Chauvinist Pigs, Ariel Levy asks if the joke is on them. In her quest to uncover why this is happening, Levy interviews college women who flash for the cameras on spring break and teens raised on Paris Hilton and breast implants. She examines a culture in which every music video seems to feature a stripper on a pole, the memoirs of porn stars are climbing the bestseller lists, Olympic athletes parade their Brazilian bikini waxes in the pages of Playboy, and thongs are marketed to prepubescent girls. Levy meets the high-powered women who create raunch culture—the new oinking women warriors of the corporate and entertainment worlds who eagerly defend their efforts to be "one of the guys." And she traces the history of this trend back to conflicts between

the women's movement and the sexual revolution long left unresolved. Levy pulls apart the myth of the Female Chauvinist Pig and argues that what has come to pass for liberating rebellion is actually a kind of limiting conformity. Irresistibly witty and wickedly intelligent, *Female Chauvinist Pigs* makes the case that the rise of raunch does not represent how far women have come, it only proves how far they have left to go.

A Floating World-Karen Best 2012-08 Fiction. Women's Studies. With *A FLOATING WORLD*, Karen Best infuses mundane life with elements of the fantastic. From mermaids and sea serpents to deadly pin pricks and crying icons, these 13 stories stretch the boundaries of reality while exploring the search for answers where there are none. The stories entrance with wonder, unexpected beauty and a passionate belief in the magical—and haunt with longing, entrapment, and an unfulfilled search for meaning.

Cybersexism-Laurie Penny 2013-08-22 'The Internet was supposed to be for everyone... Millions found their voices in this brave new online world; it gave unheard masses the space to speak to each other without limits, across borders, both physical and social. It was supposed to liberate us from gender. But as more and more of our daily lives migrated on line, it seemed it did matter if you were a boy or a girl.' It's a tough time to be a woman on the internet. Over the past two generations, the political map of human relations has been redrawn by feminism and by changes in technology. Together they pose questions about the nature and organisation of society that are deeply challenging to those in power, and in both cases, the backlash is on. In this brave new world, old-style sexism is making itself felt in new and frightening ways. In *Cybersexism*, Laurie Penny goes to the dark heart of the matter and asks why threats of rape and violence are being used to try to silence female voices, analyses the structure of online misogyny, and makes a case for real freedom of speech - for everyone. Laurie Penny's forthcoming book, *Unspeakable Things: Sex, Lies and Revolution*, will be published in 2014.

Odd Bits-Jennifer McLagan 2011-09-13 The eagerly anticipated follow-up to the author's award-winning *Bones and Fat*, *Odd Bits* features over 100 recipes devoted to the "rest of the animal," those under-appreciated but incredibly flavorful and versatile alternative cuts of meat. We're all familiar with the prime cuts—the beef tenderloin, rack of lamb, and pork chops. But what about kidneys, tripe, liver, belly, cheek, and shank? *Odd Bits* will not only restore our taste for these cuts, but will also remove the mystery of cooking with offal, so food lovers can approach them as confidently as they would a steak. From the familiar (pork belly), to the novel (cockscorn), to the downright challenging (lamb testicles), Jennifer McLagan provides expert advice and delicious recipes to make these odd bits part of every enthusiastic cook's repertoire.

The Ethical Butcher-Berlin Reed 2014-04-15 Berlin Reed is "The Ethical Butcher," a former self-described militant vegan punk who grudgingly took a job as a butcher's apprentice in Brooklyn when he could find no other work. Shockingly, he fell in love with the art of butchering, and a food revolution was born. Along the way he saw how corporate greed, unsustainable food practices, and outright misinformation gave birth to such falsities as the USDA label 'organic' and the conglomerate of eco-friendly supermarkets. Most people, even those that try to be healthy and green, are not really eating what they think they are eating. *The Ethical Butcher* will shine a light on these untruths and show a better way towards food justice and the sustainable living of a mindful omnivore. Through the lens of Berlin's personal story, *The Ethical Butcher* educates readers about how they can improve the meat industry by participating in it. It's a memoir in cuts - and Berlin's return to eating meat illustrates for readers and foodies alike how they can change the meat industry by making better choices.

We Were Feminists Once-Andi Zeisler 2016-05-03

Sacred Woman-Queen Afua 2012-06-20 A transformative blueprint of ancestral healing from the renowned herbalist, natural health expert, and healer of women's bodies and souls "Just when I thought I was all alone, I found myself walking with a group of conscious women who were taking sacred steps and speaking sacred words. We were on our way to Queen Afua's Global Sacred Woman Village. Come with us, there's Maat—balance and order—there."—Erykah Badu Through extraordinary meditations, affirmations, and rituals rooted in ancient Egyptian temple teachings, Queen Afua teaches us how to love and rejoice in our bodies by spiritualizing the words we speak, the foods we eat, the spaces we live and work in, and the transcendent woman spirit we manifest. *Sacred Woman* gives us a program of spirit rejuvenation and creativity consciousness. Queen Afua summons us to enter the Gateways of Initiation, where she blesses us with the exact tools we need to bring our beings into true harmony with the earth and the cosmos. With love, wisdom, and passion, Queen Afua guides us to accept our mission and our mantle as Sacred Women—to heal ourselves, the generations of women in our families, our communities, and our world. Praise for *Sacred Woman* "Sacred Woman flings open the gates of understanding the feminine essence. It is the return of the soul force to women."—Jewel Pookrum, MD, PhD (Sunut Arit) "Queen Afua is an extraordinary healer, teacher, mother, and keeper of our legacy. Through *Sacred Woman*, she has given us the sacred tools we need to live our lives in this new century."—Hazelle Goodman, actress "Sacred Woman offers profound wisdom to all who seek healing and transformation. Queen Afua is a national treasure."—Bob Law, author, radio personality, and vice president of WWRL

Cleaving-Julie Powell 2009-12-01 Julie Powell thought cooking her way through Julia Child's *Mastering the Art of French Cooking* was the craziest thing she'd ever do -- until she embarked on the voyage recounted in her memoir, *Cleaving*. Her marriage challenged by an insane, irresistible love affair, Julie decides to leave town and immerse herself in a new obsession: butchery. She finds her way to Fleischer's, a butcher shop where she buries herself in the details of food. She learns how to break down a side of beef and French a rack of ribs -- tough physical work that only sometimes distracts her from thoughts of afternoon trysts. The camaraderie at Fleischer's leads Julie to search out fellow butchers around the world -- from South America to Europe to Africa. At the end of her odyssey, she has learned a new art and perhaps even mastered her unruly heart.

No Meat Athlete-Matt Frazier 2013-10 Combining the winning elements of proven training approaches, motivational stories, and innovative recipes, *No Meat Athlete* is a unique guidebook, healthy-living cookbook, and nutrition primer for the beginner, every day, and serious athlete who wants to live a meatless lifestyle. Author and popular blogger, Matt Frazier, will show you that there are many benefits to embracing a meat-free athletic lifestyle, including: - Weight loss, which often leads to increased speed- Easier digestion and faster recovery after workouts- Improved energy levels to help with not just athletic performance but your day-to-day life - Reduced impact on the planet Whatever your motivation for choosing a meat-free lifestyle, this book will take you through everything you need to know to apply your lifestyle to your training. Matt Frazier provides practical advice and tips on how to transition to a plant-based diet while getting all the nutrition you need; uses the power of habit to make those changes last; and offers up menu plans for high performance, endurance, and recovery. Once you've mastered the basics, Matt delivers a training manual of his own design for runners of all abilities and ambitions. The manual provides training plans for common race distances and shows runners how to create healthy habits, improve performance, and avoid injuries. *No Meat Athlete* will take you from the start to finish line, giving you encouraging tips, tricks, and advice along the way.

Butchering Beef-Adam Danforth 2014-04-11 Learn how to humanely slaughter cattle and butcher your own beef. In this straightforward guide, Adam Danforth provides clear instructions and step-by-step photography of the entire butchering process, from creating the right preslaughter conditions through killing, skinning, keeping cold, breaking the meat down, and perfecting expert cuts. With plenty of encouragement and expert advice on food safety, packaging, and necessary equipment, this comprehensive guide has all the information you need to start butchering your own beef.

As Meat Loves Salt-Maria McCann 2011-04-28 A sensational tale of obsession and murder from a wonderful writer. 'An outstanding novel, fresh and unusual [with] all the dirt, stink, rasp and flavour of the time.' Daily Telegraph

Slaughterhouse-Gail A. Eisnitz 2009-09-25 *Slaughterhouse* is the first book of its kind to explore the impact that unprecedented changes in the meatpacking industry over the last twenty-five years — particularly industry consolidation, increased line speeds, and deregulation — have had on workers, animals, and consumers. It is also the first time ever that workers have spoken publicly about what's really taking place behind the closed doors of America's slaughterhouses. In this new paperback edition, author Gail A. Eisnitz brings the story up to date since the book's original publication. She describes the ongoing efforts by the Humane Farming Association to improve conditions in the meatpacking industry, media exposés that have prompted reforms resulting in multimillion dollar appropriations by Congress to try to enforce federal inspection laws, and a favorable decision by the Supreme Court to block construction of what was slated to be one of the largest hog factory farms in the country. Nonetheless, Eisnitz makes it clear that abuses continue and much work still needs to be done.

The Poison Squad-Deborah Blum 2019-09-24 Dr. Harvey Washington Wiley set out to ensure food safety. The tasters were recognized for their courage, and became known as the poison squad.

Eating Animals-Jonathan Safran Foer 2010 From the Publisher: Jonathan Safran Foer spent much of his teenage and college years oscillating between omnivore and vegetarian. But on the brink of fatherhood-facing the prospect of having to make dietary choices on a child's behalf-his casual questioning took on an urgency. His quest for answers ultimately required him to visit factory farms in the middle of the night, dissect the emotional ingredients of meals from his childhood, and probe some of his most primal instincts about right and wrong. Brilliantly synthesizing philosophy, literature, science, memoir and his own detective work, *Eating Animals* explores the many fictions we use to justify our eating habits-from folklore to pop culture to family traditions and national myth-and how such tales can lull us into a brutal forgetting. Marked by Foer's profound moral ferocity and unvarying generosity, as well as the vibrant style and creativity that made his previous books, *Everything is Illuminated* and *Extremely Loud and Incredibly Close*, widely loved, *Eating Animals* is a celebration and a reckoning, a story about the stories we've told-and the stories we now need to tell.

Hemingway for Beginners-Errol Selkirk 1994

Billion Dollar Burger-Chase Purdy 2020-06-16 The riveting story of the entrepreneurs and renegades fighting to bring lab-grown meat to the world. The trillion-dollar meat industry is one of our greatest environmental hazards; it pollutes more than all the world's fossil-fuel-powered cars. Global animal agriculture is responsible for deforestation, soil erosion, and more emissions than air travel, paper mills, and coal mining combined. It also, of course, depends on the slaughter of more than 60 billion animals per year, a number that is only increasing as the global appetite for meat swells. But a band of doctors, scientists, activists, and entrepreneurs have been racing to end animal agriculture as we know it, hoping to fulfill a dream of creating meat without ever having to kill an animal. In the laboratories of Silicon Valley companies, Dutch universities, and Israeli startups, visionaries are growing burgers and steaks from microscopic animal cells and inventing systems to do so at scale--allowing us to feed the world without slaughter and environmental devastation. Drawing from exclusive and unprecedented access to the main players, from polarizing activist-turned-tech CEO Josh Tetrick to lobbyists and regulators on both sides of the issue, Billion Dollar Burger follows the people fighting to upend our food system as they butt up against the entrenched interests fighting viciously to stop them. The stakes are monumentally high: cell-cultured meat is the best hope for sustainable food production, a key to fighting climate change, a gold mine for the companies that make it happen, and an existential threat for the farmers and meatpackers that make our meat today. Are we ready?

Battling Bella-Leandra Ruth Zarnow 2019 Leandra Ruth Zarnow tells the inspiring and timely story of Bella Abzug, a New York politician who brought the passion and ideals of 1960s protest movements to Congress. Abzug promoted feminism, privacy protections, gay rights, and human rights. Her efforts shifted the political center, until more conservative forces won back the Democratic Party.

The Art of Beef Cutting-Kari Underly 2011-08-16 "The Art of Beef Cutting is the only book on the market that combines a complete listing of beef cuts, including full-color photos and NAMP/IMPS numbers for each cut, with step-by-step instructions on basic meat cutting techniques"--Provided by publisher.

The Sexual Politics of Meat-Carol J. Adams 2000 New Tenth Anniversary edition of this classic text with a new preface by the author, compares myths about meat-eating with myths about manliness, and seeks to explore the literary, scientific, and social connections between meat-eating, male dominance, and war.

The MeatEater Fish and Game Cookbook-Steven Rinella 2018-11-20 From the host of the television series and podcast MeatEater, the long-awaited definitive guide to cooking wild game, including fish and fowl, featuring more than 100 new recipes "As a MeatEater fan who loves to cook, I can tell you that this book is a must-have."—Andrew Zimmern When Steven Rinella hears from fans of his MeatEater show and podcast, it's often requests for more recipes. One of the most respected and beloved hunters in America, Rinella is also an accomplished wild game cook, and he offers recipes here that range from his takes on favorite staples to more surprising and exotic meals. Big Game: Techniques and strategies for butchering and cooking all big game, from whitetail deer to moose, wild hogs, and black bear, and recipes for everything from shanks to tongue. Small Game: How to prepare appetizers and main courses using common small game species such as squirrels and rabbits as well as lesser-known culinary treats like muskrat and beaver. Waterfowl: How to make the most of available waterfowl, ranging from favorites like mallards and wood ducks to more challenging birds, such as wild geese and diving ducks. Upland Birds: A wide variety of butchering methods for all upland birds, plus recipes, including Thanksgiving wild turkey, grilled grouse, and a fresh take on jalapeño poppers made with mourning dove. Freshwater Fish: Best practices for cleaning and cooking virtually all varieties of freshwater fish, including trout, bass, catfish, walleye, suckers, northern pike, eels, carp, and salmon. Saltwater Fish: Handling methods and recipes for common and not-so-common species of saltwater fish encountered by anglers everywhere, from Maine to the Bahamas, and from Southern California to northern British Columbia. Everything else: How to prepare great meals from wild clams, crabs, crayfish, mussels, snapping turtles, bullfrogs, and even sea cucumbers and alligators. Whether you're cooking outdoors or in the kitchen, at the campfire or on the grill, this cookbook will be an indispensable guide for both novices and expert chefs. "Rinella goes to the next level and offers some real deal culinary know-how to make sure that your friends and family will dig what you put on the table."—Guy Fieri "[A] must-read cookbook for those seeking a taste of the wild."—Publishers Weekly (starred review)

Things Fall Apart-Chinua Achebe 2013-04-25 One of the BBC's '100 Novels That Shaped Our World' A worldwide bestseller and the first part of Achebe's African Trilogy, Things Fall Apart is the compelling story of one man's battle to protect his community against the forces of change Okonkwo is the greatest wrestler and warrior alive, and his fame spreads throughout West Africa like a bush-fire in the harmattan. But when he accidentally kills a clansman, things begin to fall apart. Then Okonkwo returns from exile to find missionaries and colonial governors have arrived in the village. With his world thrown radically off-balance he can only hurtle towards tragedy. First published in 1958, Chinua Achebe's stark, coolly ironic novel reshaped both African and world literature, and has sold over ten million copies in forty-five languages. This arresting parable of a proud but powerless man witnessing the ruin of his people begins Achebe's landmark trilogy of works chronicling the fate of one African community, continued in Arrow of God and No Longer at Ease. 'His courage and generosity are made manifest in the work' Toni Morrison 'The writer in whose company the prison walls fell down' Nelson Mandela 'A great book, that bespeaks a great, brave, kind, human spirit' John Updike With an Introduction by Biyi Bandele

The Old Man and The Sea-Ernest Hemingway 2015-01-01 The Classics

Meathooked-Marta Zaraska 2016-02-23 A few years ago, Marta Zaraska's mother decided to go vegetarian after stumbling upon an article on the health risks of eating meat. Her resolve lasted about a fortnight before the juicy hams and the creamy pâtés began creeping back into her refrigerator. Prodded to explain her lapse, she replied, "I like meat, I eat it, end of story." Many of us have had a similar experience. What makes us crave animal protein, and what makes it so hard to give up? And if all the studies are correct, and consuming meat is truly unhealthy for us, why didn't evolution turn us all into vegetarians in the first place? In Meathooked, Zaraska explores what she calls the "meat puzzle": our love of meat, despite its harmful effects. Scientific journals overflow with reports of red meat raising the risk of certain cancers; each hamburger contributes as much to global warming as does driving a car 320 miles; and the horrors of industrial meat production are now well-known. None of these facts have prompted us to give up our hamburgers and steaks. On the contrary, meat consumption has only increased over the past decades. Taking the reader to India's unusual steakhouses, animal sacrifices at temples in Benin, and labs in Pennsylvania where meat is being grown in petri dishes, Zaraska examines the history and future of meat and meat-eating, showing that while our increasing consumption of meat can be attributed in part to the power of the meat industry and the policies of our governments, the main "hooks" that keep us addicted to meat are much older: genes and culture. An original and thought-provoking exploration of carnivorousness, Meathooked explains one of the most enduring features of human civilization—and why meat-eating will continue to shape our bodies and our world into the foreseeable future.

The Fertility Diet: Groundbreaking Research Reveals Natural Ways to Boost Ovulation and Improve Your Chances of Getting Pregnant-Jorge Chavarro 2007-11-28 The first fertility-boosting guide to feature the cutting-edge research results on fertility from the Nurses' Health Study More than 6 million women in the United States alone experience infertility problems User-friendly, medically approved advice clearly explained in 10 nutritional guidelines from two of Harvard Medical School's top voices in nutrition

Differencing the Canon-Griselda Pollock 2013-04-15 In this major book, Griselda Pollock engages boldly in the culture wars over `what is the canon?` and `what difference can feminism make?` Do we simply reject the all-male line-up and satisfy our need for ideal egos with an all women litany of artistic heroines? Or is the question a chance to resist the phallogocentric binary and allow the ambiguities and complexities of desire - subjectivity and sexuality - to shape the readings of art that constantly displace the present gender demarcations?

The Regeneration Trilogy-Pat Barker 2013-04-25 The Booker Prize-winning modern classic of contemporary war fiction from the Women's Prize-shortlisted author of The Silence of the Girls Recommended by Richard Osman 'One of the few real masterpieces of late twentieth-century British fiction' Jonathan Coe 'Original, delicate and unforgettable' Independent 'A new vision of what the First World War did to human beings, male and female, soldiers and civilians. Constantly surprising and formally superb' A. S. Byatt, Daily Telegraph 1917, Scotland. At Craiglockhart War Hospital in Scotland, army psychiatrist William Rivers treats shell-shocked soldiers before sending them back to the front. In his care are poets Siegfried Sassoon and Wilfred Owen, and Billy Prior, who is only able to communicate by means of pencil and paper. . . Regeneration, The Eye in the Door and The Ghost Road follow the stories of these men until the last months of the war. Widely acclaimed and admired, Pat Barker's Regeneration trilogy paints with moving detail the far-reaching consequences of a conflict which decimated a generation. The Regeneration trilogy: Regeneration The Eye in the Door The Ghost Road

The Handmaid's Tale-Coral Ann Howells 1998 Key Features: Study methods Introduction to the text Summaries with critical notes Themes and techniques Textual analysis of key passages Author biography Historical and literary background Modern and historical critical approaches Chronology Glossary of literary terms

Fever 1793-Laurie Halse Anderson 2011-08-16 It's late summer 1793, and the streets of Philadelphia are abuzz with mosquitoes and rumors of fever. Down near the docks, many have taken ill, and the fatalities are mounting. Now they

include Polly, the serving girl at the Cook Coffeehouse. But fourteen-year-old Mattie Cook doesn't get a moment to mourn the passing of her childhood playmate. New customers have overrun her family's coffee shop, located far from the mosquito-infested river, and Mattie's concerns of fever are all but overshadowed by dreams of growing her family's small business into a thriving enterprise. But when the fever begins to strike closer to home, Mattie's struggle to build a new life must give way to a new fight-the fight to stay alive.

Glitch Feminism-Legacy Russell 2020-09-29 A new manifesto for cyberfeminism The divide between the digital and the real world no longer exists: we are connected all the time. How do we find out who we are within this digital era? Where do we create the space to explore our identity? How can we come together and create solidarity? The glitch is often dismissed as an error, a faulty overlaying, but, as Legacy Russell shows, liberation can be found within the fissures between gender, technology and the body that it creates. The glitch offers the opportunity for us to perform and transform ourselves in an infinite variety of identities. In Glitch Feminism, Russell makes a series of radical demands through memoir, art and critical theory, and the work of contemporary artists who have travelled through the glitch in their work. Timely and provocative, Glitch Feminism shows how the error can be a revolution.

Goat Science-Sándor Kukovics 2018-06-20 Goat science covers quite a wide range and varieties of topics, from genetics and breeding, via nutrition, production systems, reproduction, milk and meat production, animal health and parasitism, etc., up to the effects of goat products on human health. In this book, several parts of them are presented within 18 different chapters. Molecular genetics and genetic improvement of goats are the new approaches of goat development. Several factors affect the passage rate of digesta in goats, but for diet properties, goats are similar to other ruminants. Iodine deficiency in goats could be dangerous. Assisted reproduction techniques have similar importance in goats like in other ruminants. Milk and meat production traits of goats are almost equally important and have significant positive impacts on human health. Many factors affect the health of goats, heat stress being of increasing importance. Production systems could modify all of the abovementioned characteristics of goats.

In Meat We Trust-Maureen Ogle 2013 Traces how wealthy and influential industry moguls and politicians shaped America into a culture of meat providers and consumers, from the rise of early meat-producing factories through contemporary mainstream brands, local suppliers, and organic counter-cuisines.
