The Tao of Bruce Lee-Davis Miller 2010-04-14 In this companion volume to his critically acclaimed first book, The Tao of Muhammad Ali, Davis Miller turns his attention to a second iconic figure of the twentieth century--and another of Miller's own seminal influences: film star and martial arts legend Bruce Lee. Just weeks after completing Enter the Dragon, his first vehicle for a worldwide audience, Bruce Lee--the self-proclaimed world's fittest man--died mysteriously at the age of thirty-two. The film has since grossed over \$500 million, making it one of the most profitable in the history of cinema, and Lee has acquired almost mythic status. Lee was a flawed, complex, yet singular talent. He revolutionized the martial arts and forever changed action moviemaking. But what has his legacy truly meant to the fans he left behind? To author Davis Miller, Lee was a profound mentor and a transformative inspiration. As a troubled young man in rural North Carolina, Miller was on a road to nowhere when he first saw Enter the Dragon, an encounter that would lead him on a physical, emotional, and spiritual journey and would change his life. As in The Tao of Muhammad Ali, Miller brilliantly combines biography--the fullest, most unflinching and revelatory to date--with his own coming-of-age story. The result is a unique and compelling book. From the Hardcover edition.

The Exchange of Truth-David Shormann 2007-03 "For the wrath of God is revealed from heaven against all the ungodliness and unrighteousness of men, who suppress the truth in unrighteousness who exchanged the truth of God for the lie, and worshiped and served the creature rather than the Creator." Romans 1:18-25 Evolution never happened. The best scientists in the history of the world didn't believe in it, so why should you? Men like Newton, Euler, Galileo, Kepler, Bacon, Kelvin and Faraday believed Scripture and science, God's word and His works, were completely compatible and should be studied together. Then Darwin came along and published On the Origin of Species for the purpose of showing that "species had not been separately created" (Descent of Man, p. 62), exchanging the truth of God for a lie and paving the way for a study of science apart from God. Evolutionary thinking has taken a tremendous toll on the lives and minds of many, but there is hope. In The Exchange of Truth, Dr. Shormann shows that with a little thought and a basic understanding of genetics and probability, anyone can liberate themselves from evolution's false worldview. Read the book and learn how.

We sought to begin answering the needs of today's youth, in a generation where the spiritual and religious landscape has shifted dramatically. Jesus Christ and the New Testament is the second semester course in the new high school series Live Jesus in Our Hearts. This series takes a fresh approach to the Framework outline, bringing in new themes such as in-depth use of scripture, extensive online resources, and an invitational, evangelizing approach. Jesus Christ and the New Testament is a New Testament overview that includes all the required Framework content related to Jesus Christ. Used with Revelation and the Old Testament, you can now teach an overview of the Bible in freshman year using a Framework approved curriculum! Plus, help students connect using: Short stories about young people that relate a teaching or belief to a young person's lived experience. Focus questions introduce each unit in the voice of a teen, guiding students in focusing on what they might learn; units end with an image of a real student and his or her reflections on the unit focus question, inviting the students to check their own understanding. A Unit Highlights section that uses graphic organizers to visually represent the key concepts from each chapter "Hmmm" questions at the end of each article that encourage students to think critically about Christian beliefs. A full page visual feature at the end of each chapter that engages students to reflect on the chapter content in a unique way.
