Kill Me Softly-Sarah Cross 2012-01-01 Mirabelle's past is shrouded in secrecy, from her parents' tragic deaths to her guardians' half-truths about why she can't return to her birthplace, Beau Rivage. Desperate to see the town, Mira runs away—and discovers a world she never could have imagined. In Beau Rivage, nothing is what it seems—the strangely pale girl with a morbid interest in apples, the obnoxious playboy who's a beast to everyone he meets, and the chivalrous guy who has a thing for damsels in distress. Here, fairy tales come to life, curses are awakened, and ancient stories are played out again and again. But fairy tales aren't pretty things, and they don't always end in happily ever after. Mira has a role to play, a fairy tale destiny to embrace or resist. As she struggles to take control of her fate, Mira is drawn into the lives of two brothers with fairy tale curses of their own...brothers who share a dark secret. And she'll find that love, just like fairy tales, can have sharp edges and hidden thorns.

Planet India-Mira Kamdar 2008-09-04 India is everywhere - Indian studios produce animated features and special effects for Hollywood movies; Indian software manages our health records; and Indian customer service centres answer our calls. A country of English speakers and a free-market democracy, with the youngest population on Earth, India is not only the fastest growing market for the next new thing, but a source for the technological innovation that will drive the global economy. Yet, India is also in a race against time to bring the benefits of the twenty-first century to the 800 million Indians who live on less than £1 per day, and it must do so in a way that is environmentally sustainable and politically viable on a scale never before achieved. If India succeeds, it will not only save itself, it may save us all. If it fails, we will all suffer. As goes India, so goes the world. Like CHINA, INC, published in 2006 by S&S, PLANET INDIA will capture and catalyze the growing interest in this rising power. With in-depth research, interviews and provocative analysis, Mira Kamdar offers a penetrating view of India and its cultural and economic impact on the world.

Her world--and everything she thought she knew about her family--is shattered instantly. Unable to comprehend the lies, betrayal, and secrets that--unbeknownst to Mira--have come to define and keep intact her family's existence, Mira distances herself from her sister and closest friends as a means of coping. But her father's sexual orientation isn't all he's kept hidden. A shocking health scare brings to light his battle with HIV. As Mira struggles to make sense of the many fractures in her family's fabric and redefine her wavering sense of self, she must find a way to reconnect with her dad--while there is still time. Bioinspired Applications in Artificial and Natural Computation-Jose Mira 2009-06-12 Continuing Professor Mira's Scientific Navigation Professor Jos' e Mira passed away during the preparation of this edition of the International Work-Conference on the Interplay Between Natural and Artificial Computation. As a pioneer in the field of cybernetics, he enthusiastically promoted interdisciplinary research. The term cybernetics stems from the Greek *kybernetes* (kybernetes), which means steersman, governor, or pilot, the same root as government. Cybernetics is a broad field of study, but the essential goal of cybernetics is to understand and define the functions and processes of systems that have goals, and promote circular, causal chains that move from action to sensing to comparison with a desired goal, and again to action. These definitions can be applied to Prof. Mira. He was a leader, a pilot, with a visionary and extraordinary capacity to guide his students and colleagues to the desired objective. In this way he promoted the study and understanding of biological functions for creating new computational paradigms able to solve known problems in a more efficient way than classical approaches. But he also impressed his magnificent and generous character on all the researchers and friends that worked with him, imprinting in all of us high requirements of excellence not only as scientists, but also as human beings.

We all remember his enthusiastic explanation about the domains and level in the computational paradigm (CP).

prose and original art, *The Memory Palace* captures the love between mother and daughter, the complex meaning of truth, and family's capacity for forgiveness "People have abandoned their loved ones for much less than you've been through," Mira Bartók is told at her mother's memorial service. It is a poignant observation about the relationship between Mira, her sister, and their mentally ill mother. Before she was struck with schizophrenia at the age of nineteen, beautiful piano protégé Norma Herr had been the most vibrant personality in the room. She loved her daughters and did her best to raise them well, but as her mental state deteriorated, Norma spoke less about Chopin and more about Nazis and her fear that her daughters would be kidnapped, murdered, or raped. When the girls left for college, the harassment escalated—Norma called them obsessively, appeared at their apartments or jobs, threatened to kill herself if they did not return home. After a traumatic encounter, Mira and her sister were left with no choice but to change their names and sever all contact with Norma in order to stay safe. But while Mira pursued her career as an artist—exploring the ancient romance of Florence, the eerie mysticism of northern Norway, and the raw desert of Israel—the haunting memories of her mother were never far away. Then one day, a debilitating car accident changes Mira's life forever. Struggling to recover from a traumatic brain injury, she was confronted with a need to recontextualize her life—she had to relearn how to paint, read, and interact with the outside world. In her search for a way back to her lost self, Mira reached out to the homeless shelter where she believed her mother was living and discovered that Norma was dying. Mira and her sister traveled to Cleveland, where they shared an extraordinary reconciliation with their mother that none of them had thought possible. At the hospital, Mira discovered a set of keys that opened a storage unit Norma had been keeping for seventeen years. Filled with family photos, childhood toys, and ephemera from Norma's life, the storage unit brought back a flood of previous memories that Mira had thought were lost to her forever.

One day a letter comes from Mexico, written in Spanish: Dear Clara, We invite you to our house for the summer. We will wait for you on the day of the full moon, in June, at the Oaxaca airport. Love, your grandparents. Fourteen-year-old Clara has never met her father's parents. She knows he snuck over the border from Mexico as a teenager, but beyond that, she knows almost nothing about his childhood. The village of Yucuyoo holds other surprises, too-- like the spirit waterfall, which is heard but never seen. And Pedro, an intriguing young goatherder who wants to help Clara find the waterfall. Hearing her grandmother's adventurous tales of growing up as a healer awakens Clara to the magic in Yucuyoo, and in her own soul. What The Moon Saw is an enchanting story of discovering your true self in the most unexpected place. From the Hardcover edition.
