Public Law Librarianship: Objectives, Challenges, and Solutions-Selwyn, Laurie 2012-10-31 While there are common misconceptions regarding the definition of a public law library, it can be defined as a government mandated library which provides the public with access to legal resources. Largely, public law libraries are instituted by state or federal law. Public Law Librarianship: Objectives, Challenges, and Solutions aims to introduce firsthand knowledge on the funding, organizational structures, and governance related to the public law library. This book includes comprehensive research for current and future public law librarians to provide administrative guidance and professional sources essential for running a public law library.

Sectarianism in Iraq-Khalil Osman 2014-10-10 This book links sectarianism in Iraq to the failure of the modern nation-state to resolve tensions between sectarian identities and concepts of unified statehood and uniform citizenry. After a theoretical excursus that recasts the notion of primordial identity as a socially constructed reality, the author sets out to explain the persistence of sectarian affiliations in Iraq since its creation following the dismemberment of the Ottoman Empire. Despite the adoption of homogenizing state policies, the uneven sectarian composition of the ruling elites nurtured feelings of political exclusion among marginalized sectarian groups, the Shicites before 2003 and the Sunnis in the post-2003 period. The book then examines how communal discourses in the educational curriculum provoked masked forms of resistance that sharpened sectarian consciousness. Tracing how the anti-Persian streak in the nation-state's Pan-Arab ideology, which camouflaged anti-Shicite, undermined Iraq's

national integration project, Sectarianism in Iraq delves into the country's slide from a totalizing Pan-Arab ideology in the pre-2003 period toward the atomistic impulse of the federalist debate in the post-2003 period. Employing extensive fieldwork, this book sheds light on the dynamics of political life in post-Saddam Iraq and is essential reading for Iraqi and Middle East specialists, as well as those interested in understanding the current heightening of sectarian Sunni-Shicite tensions in the Middle East.

Rainwater Harvesting for Agriculture in the Dry Areas-Theib Y. Oweis 2012-05-21 Dry areas suffer not only from limited rainfall but also 'natural leakage'—90% of rainwater is lost directly or indirectly, and is unavailable for agriculture or domestic use. Water harvesting is a low-cost, easy-to-use, environmentally-friendly way to recover a large part of this lost water. How does water harvesting work? Which sites or areas are best suited and how can these areas be identified? How to design, build and maintain a water harvesting system tailored to local needs? How can water harvesting contribute to combating land degradation, enhancing food security and adapting to climate change? This book provides the answers. The book is based on many years of research, training and development by three of the world's leading experts in water management and agriculture. It is authoritative, comprehensive, and easy to read, containing practical examples, many illustrations and little jargon. This volume will be of great interest to researchers, development workers, farmers, policymakers, students of the natural sciences—in fact, anyone interested in efficient, sustainable management of water resources and agriculture.
