Propertius: Elegies Book 4-Propertius 2009-06-18 In this edition of Propertius Book IV, Camps follows the general lines of his earlier edition of Book I (Cambridge, 1960). He has presented, without concealing difficulties and uncertainties, a fairly conservative but readable and coherent text, together with such annotation as may help the modern reader of Latin to understand the language and follow the thought of this difficult, much disputed, but very rewarding poet. While the book may be of interest to students and amateurs of Latin in general, the editor has had in mind the particular needs of undergraduates and of sixth forms. The notes are weighted differently from those in Butler and Barber's edition of 1933 and the text of that edition and from the Oxford text of 1960. As far as we know, this is the poet's last work. He has moved away from his earlier preoccupation with the theme of love and the eleven careful elegies that compose the present book are on a variety of subjects. Most are concerned with Roman antiquities. The last is an elaborate and celebrated epitaph on a lady of Roman nobility. But perhaps the poems likely to appeal most to a modern reader are the two in which Propertius recalls and exhibits in a new light, the figure of Cynthia, the declared inspiration of the elegies of Book I.

The Art of Being Human-Michael Wesch 2018-08-07 Anthropology is the study of all humans in all times in all places. But it is so much more than that. "Anthropology requires strength, valor, and courage," Nancy Scheper-Hughes noted. "Pierre Bourdieu called anthropology a combat sport, an extreme sport as well as a tough and rigorous discipline. ... It teaches students not to be afraid of getting one's hands dirty, to get

down in the dirt, and to commit yourself, body and mind. Susan Sontag called anthropology a "heroic" profession." What is the payoff for this heroic journey? You will find ideas that can carry you across rivers of doubt and over mountains of fear to find the light and life of places forgotten. Real anthropology cannot be contained in a book. You have to go out and feel the world's jagged edges, wipe its dust from your brow, and at times, leave your blood in its soil. In this unique book, Dr. Michael Wesch shares many of his own adventures of being an anthropologist and what the science of human beings can tell us about the art of being human. This special first draft edition is a loose framework for more and more complete future chapters and writings. It serves as a companion to anth101.com, a free and open resource for instructors of cultural anthropology. This 2018 text is a revision of the "first draft edition" from 2017 and includes 7 new chapters.
