Harry Potter and the Millennials-Anthony Gierzynski 2013-08-15 Harry Potter and the Millennials tells the fascinating story of how the team designed the study and gathered results, explains what conclusions can and cannot be drawn, and reveals the challenges social scientists face in studying political science, sociology, and mass communication. Specifically, the evidence indicates that Harry Potter fans are more open to diversity and are more politically tolerant than nonfans; fans are also less authoritarian, less likely to support the use of deadly force or torture, more politically active, and more likely to have had a negative view of the Bush administration. Furthermore, these differences do not disappear when controlling for other important predictors of these perspectives, lending support to the argument that the series indeed had an independent effect on its audience. In this clear and cogent account, Gierzynski demonstrates how social scientists develop and design research questions and studies.

Children and the Internet-Sonia Livingstone 2013-05-06 Is the internet really transforming children and young people's lives? Is the so-called 'digital generation' genuinely benefiting from exciting new opportunities? And, worryingly, facing new risks? This major new book by a leading researcher addresses these pressing questions. It deliberately avoids a techno-celebratory approach and, instead, interprets children's everyday practices of internet use in relation to the complex and changing historical and cultural conditions of childhood in late modernity. Uniquely, *Children and the Internet* reveals the complex dynamic between online opportunities and online risks, exploring this in relation to much debated issues such as: Digital in/exclusion Learning and literacy Peer networking and privacy Civic participation Risk and harm Drawing on current theories of identity, development, education and participation, this book includes a refreshingly critical account of the challenging realities undermining the great expectations held out for the internet - from governments, teachers, parents and children themselves. It concludes with a forward-looking framework for policy and regulation designed to advance children's rights to expression, connection and play online as well as offline.

Testament of Flamel-Nicholas Flamel 2011-05 I, Nicholas Flamel, a scrivener of Paris, in the year 1414, in the reign of our gracious Prince Charles the VIth, whom God preserve; and after the death of my faithful partner Perenelle, am seized with a desire and a delight, in remembrance of her, and in your behalf, dear nephew, to write out the whole magistry of the secret of the Powder of Projection, or the Philosophical Tincture, which God hath willed to impart to his very insignificant servant, and which I have found out, as

thou also wilt find out in working as I shall declare unto you. And for this cause do not forget to pray to God to bestow on thee the understanding of the reason of the truth of nature, which thou wilt see in this book, wherein I have written the secrets word for word, sheet by sheet, and also as I have done and wrought with thy dear aunt Perenelle, whom I very much regret. Take heed before thou workest, to seek the right way as a man of understanding. The reason of nature is Mercury, Sun and Moon, as I have said in my book, in which are those figures which thou seest under the arches of the Innocents at Paris. But I erred greatly upwards of 23 years and a half, in labouring without being able to marry the Moon, that is quicksilver, to the Sun, and to extract from them the seminal dung, which is a deadly poison; for I was then ignorant of the agent or medium, in order to fortify the Mercury: for without this agent, Mercury is as common water.

Permission Marketing-Seth Godin 2012-12-11 Whether it is the TV commercial that breaks into our favourite programme or the telemarketing phone call that disrupts a family meal, traditional advertising is based on the hope of snaring our attention away from whatever we are doing. Seth Godin calls this Interruption Marketing, and, as companies are discovering, it no longer works. Instead of annoying potential customers by interrupting their most coveted commodity, time, Permission Marketing offers consumers incentives to voluntarily accept advertising. Now the Internet pioneer who has dramatically improved marketing effectiveness in media introduces a fundamentally different way of thinking about advertising products and services. By reaching out to only those individuals who have expressed an interest in learning more about a product, Permission Marketing enables companies to develop long-term relationships with customers, create trust, build brand awareness, and greatly improve the chances of making a sale.

Who Moved My Blackberry?-Lucy Kellaway 2006-04-04 The television show The Office meets Bridget Jones in a novel set in an office so dysfunctional, it's bound to strike a chord with any nine-to-five. A compulsively readable, hilarious novel told through the e-mail messages of Martin Lukes. Martin Lukes is a man who is good at taking credit where it isn't due; a man who works hard at "personal growth" but consistently lets down everyone around him; a man who communicates with his sons by e-mail and fails to notice how smart his wife, Jenny, really is; a man--in short--who loves jargon but totally lacks understanding.

Conversations with James Ellroy-James Ellroy 2012-04-24 As a novelist who has spent years crafting and refining his intense and oft outrageous "Demon Dog of American Crime Fiction" persona, James Ellroy has used interviews as a means of shaping narratives outside of his novels. Conversations with James Ellroy covers a series of interviews given by Ellroy from 1984 to 2010, in which Ellroy discusses his literary contribution and his public and private image. Born Lee Earle Ellroy in 1948, James Ellroy is one of the most critically acclaimed and controversial contemporary writers of crime and historical fiction. Ellroy's complex narratives, which merge history and fiction, have pushed the boundaries of the crime fiction genre: American Tabloid, a revisionist look at the Kennedy era, was Time magazine's Novel of the Year 1995, and his novels L.A. Confidential and The Black Dahlia were adapted into films. Much of Ellroy's remarkable life story has served as the template for the personal obsessions that dominate his writing. From the brutal, unsolved murder of his mother, to his descent into alcohol and drug abuse, his sexual voyeurism, and his stints at the Los Angeles County Jail, Ellroy has lived through a series of hellish experiences that few other writers could claim. In Conversations with James Ellroy, Ellroy talks extensively about his life, his literary influences, his persona, and his attitudes towards politics and religion. In interviews with fellow crime writers Craig McDonald, David Peace, and others, including several previously unpublished interviews, Ellroy is at turns charismatic and eloquent, combative and enigmatic.

Experience and Religion-Nicholas Mosley 2006 "Religion," this book begins, "is a mistrusted word now," and Nicholas Mosley, in this engaging meditation, seeks to repair that trust. Rather than trying to convince or compel the reader to accept his beliefs, he describes how religion functions in the modern world. Elsewhere, Mosley has written, "There is a subject nowadays which is taboo in the way that sexuality was once taboo, which is to talk about life as if it had any meaning." In this book, he describes religion as the source of that meaning. Despair is the fashionable attitude, but it is one Mosley, here and in his many novels, rejects in favor of a cautious optimism. He writes not to persuade, but to explain a worldview that is refreshing for the hope and intelligence it contains.
